United States COVID-19 Case Map / GIS

Federal Updates

- The Centers for Disease Control and Prevention (CDC) has updated several online guidance documents, including considerations for inpatient obstetric health care settings, information for clinicians on therapeutic options for patients with COVID-19, and guidance for outpatient and ambulatory care settings. The CDC has also revised the Personal Protective Equipment (PPE) Burn Rate Calculator tool.
<https://www.cdc.gov/coronavirus/2019-ncov/hcp/inpatient-obstetric-healthcare-guidance.html>
<https://www.cdc.gov/coronavirus/2019-ncov/hcp/therapeutic-options.html>
<https://www.cdc.gov/coronavirus/2019-ncov/hcp/ppe-strategy/burn-calculator.html>
- The Office of Civil Rights issued guidance that is particularly focused on ensuring that covered entities do not unlawfully discriminate against people with disabilities when making decisions about their treatment during the COVID-19 health care emergency.
<https://www.hhs.gov/about/news/2020/03/28/ocr-issues-bulletin-on-civil-rights-laws-and-hipaa-flexibilities-that-apply-during-the-covid-19-emergency.html>
- Consistent with its sensitive locations policy during the COVID-19 crisis, U.S. Immigration and Customs Enforcement (ICE) will not perform enforcement operations at or near health care facilities such as hospitals, doctors' offices, accredited health clinics, and emergent or urgent care facilities, except in the most extraordinary circumstances. Individuals should not avoid seeking medical care because they fear civil immigration enforcement.
<https://www.ice.gov/news/releases/updated-ice-statement-covid-19>
- The Federal Communications Commission (FCC) released an order establishing a telehealth program to support health care providers responding to the pandemic, and adopted final

rules for the longer-term Connected Care Pilot Program. The COVID-19 Telehealth Program will quickly distribute \$200 million that Congress appropriated in the Coronavirus Aid, Relief, and Economic Security (CARES) Act for connected care services and devices to treat COVID-19 and other health conditions during the pandemic.

<https://www.fcc.gov/document/fcc-fights-covid-19-200m-adopts-long-term-connected-care-study>

- The CDC has compiled training resources on a new Training for Healthcare Professionals webpage. Topics cover clinical care and infection control, PPE, nonpharmaceutical interventions, and emergency preparedness and response.
<https://www.cdc.gov/coronavirus/2019-ncov/hcp/training.html>
- A U.S. sailor from the Theodore Roosevelt aircraft carrier has died from COVID-19. The ship is the site of the largest COVID-19 outbreak in the U.S. military. The crew member was first diagnosed on March 30. An additional four other crew members have also been hospitalized.
<https://www.wsj.com/articles/sailor-from-uss-theodore-roosevelt-dies-from-covid-19-11586783549>
- The U.S. CDC published new guidance intended to enable critical infrastructure workers to remain on the job following a known or suspected exposure to SARS-CoV-2. The guidance requires that that they remain healthy and that additional precautions are implemented.
<https://www.cdc.gov/coronavirus/2019-ncov/community/critical-workers/implementing-safety-practices.html>
- [Preliminary analysis](#) by experts at the U.S. National Academy of Sciences suggests that COVID-19 may not exhibit strong seasonality. [The study](#) evaluated available observational epidemiological data as well as laboratory experimental data, including studies both in China and other countries. <https://www.cidrap.umn.edu/news-perspective/2020/04/experts-covid-19-pandemic-unlikely-ebb-weather-warms> and <https://www.nap.edu/read/25771/chapter/1>
- Preliminary genomic analyses of SARS-CoV-2 from patients in the New York City area suggests that a significant portion of the circulating virus may be linked to cases in Europe. Two studies (both pre-print) by researchers from Mount Sinai Hospital and the NYU Grossman School of Medicine found that initial cases of COVID-19 in New York City likely arrived from Europe as opposed to China. In addition to these statements on the outbreak's origins, these research teams also suggest that there was a significant amount of viral circulation prior to the earliest cases detected in New York City outbreak. <https://www.cnn.com/2020/04/09/health/new-york-coronavirus-outbreak-europe-origin/index.html>

State Updates

New York

- New York, New Jersey, Connecticut, Pennsylvania, Delaware, Rhode Island and Massachusetts will join together to create a multi-state council to get people back to work and restore the economy. The Governor noted that this regional council will ensure a data-driven plan to slowly reintegrate our communities into daily life.
<https://www.governor.ny.gov/news/governor-cuomo-governor-murphy-governor-lamont-governor-wolf-governor-carney-governor-raimondo>
- Governor Andrew Cuomo plans to expand eligibility of individuals to conduct antibody tests to help ensure as many New Yorkers as possible have access to antibody testing as the state continues to bring this critical testing to scale.
- The Office of Chief Medical Examiner (OCME) has resources in place to begin pickup of full body collection points (BCPs). New guidance from OCME recommends that hospitals house at least two BCPs on their campuses, one to hold unclaimed cases, and one to hold claimed cases that are awaiting pickup from funeral homes.
https://www.gnyha.org/wp-content/uploads/2020/04/1_20200412_LetterFromOCME_Chief_UPDATED-GUIDANCE.pdf

- The State established a new partnership with the New York State Court System to create a pro bono network of volunteer lawyers to provide New Yorkers in need with free legal assistance. Volunteers will begin to receive training and start offering assistance next week. Lawyers interested in volunteering can sign up at www.nysba.org/covidvolunteer
- The New York State Department of Health (DOH) has issued updated guidance on hospital emergency department and inpatient visitation. DOH notes, "Effective immediately, hospitals must suspend all visitation except for patient support persons, or family members and/or legal representatives of patients in imminent end-of-life situations." https://www.gnyha.org/wp-content/uploads/2020/04/Notification_103139.pdf
- A new initiative called "New York Loves" will coordinate foundations, philanthropies, charities and other nonprofits that want to help or donate to the state during the ongoing COVID-19 pandemic. New York Secretary of State Rosanna Rosado and State Director of Nonprofits Fran Barrett will coordinate this effort and work with local governments that need additional help.
- Individuals who tested positive and then recovered from the virus may have convalescent plasma in their blood, which has antibodies against the virus and could help with the development of a treatment for the virus. More information about how to donate is available at <https://nybc.org/donate-blood/convalescent-plasma-covid-19-donor-request-form/>
- New York received 2,400 brand-new BiPAP machines as a donation from Mercury Medical. The BiPAP machines — which are assisted breathing machines that can be used as ventilators — are being flown to New York from Florida for free by JetBlue and will be transported on the ground for free by the company Southern Glazer's.

NYS DOH Weekly healthcare provider update:

<https://coronavirus.health.ny.gov/weekly-healthcare-provider-update>

New Jersey

- Governor Phil Murphy announced the following Executive Orders:
 - EO-119 on April 7 Extending Public Health Emergency
<https://nj.gov/infobank/eo/056murphy/pdf/EO-118.pdf>

- EO-121 Allowing greater weight limit on certain interstate highways and toll roads from 80,000 pounds (40 tons) to 92,000 pounds (46 tons) for vehicles carrying COVID-19 relief supplies.
<https://nj.gov/infobank/eo/056murphy/pdf/EO-121.pdf>
- EO-122 Cease all non-essential construction projects and imposes additional mitigation requirements on essential retail businesses and industries to limit the spread of COVID-19.
<https://nj.gov/infobank/eo/056murphy/pdf/EO-122.pdf>
- EO-123 Extending Insurance Premium Grace Periods
<https://nj.gov/infobank/eo/056murphy/pdf/EO-123.pdf>
- EO-124 Temporary Reprieve to Certain At-Risk Inmates
<https://nj.gov/infobank/eo/056murphy/pdf/EO-124.pdf>
- EO-125 Additional Mitigation Requirements on NJ Transit, Private Carriers, and Restaurants <https://nj.gov/infobank/eo/056murphy/pdf/EO-125.pdf>
- NJ Department of Health (DOH) released guidance and checklists for long term care facilities to mitigate outbreaks.
https://www.nj.gov/health/cd/documents/topics/NCOV/COVID_Outbreak_Management_Checklist.pdf and the recommendations can be found at https://www.nj.gov/health/cd/documents/topics/NCOV/COVID_LTC_Recommendations.pdf

Connecticut

- The Connecticut Department of Social Services (DSS) announced the allocation of more than \$3.8 million in federal food assistance to two of the state's largest food banks, including the Connecticut Food Bank, which will receive \$1.9 million for food and nearly \$650,000 for administrative costs, and Foodshare, which will receive nearly \$1 million for food and \$300,00 for administrative costs.
<https://portal.ct.gov/DSS/Communications/DSS-Response-to-COVID-19>
- Governor Ned Lamont signed an executive order implementing the medical surge plan for long-term care facilities he announced on Wednesday, which will establish COVID-19 recovery centers in certain nursing homes throughout the state that will accept patients who can be discharged from acute care hospitals but are still impacted by COVID-19 infection. The order establishes the first two COVID-19 recovery centers at Sharon Health Care Center in Sharon and Northbridge Healthcare Center in Bridgeport and gives authority to Department of Public Health (DPH) Commissioner Renée D. Coleman-Mitchell to create additional centers at other locations throughout the state as needed.
<https://portal.ct.gov/-/media/Office-of-the-Governor/Executive-Orders/Lamont-Executive-Orders/Executive-Order-No-7Y.pdf?la=en>
- In an effort to boost capacity for COVID-19 patients, the State of Connecticut began converting the Connecticut Convention Center into a recovery center with the assistance of the Connecticut National Guard. This facility will be licensed for operation and staffed by Hartford Healthcare. The recovery center will house up to 600 patients as they receive recovery care following COVID-19 diagnosis and treatment.
- Governor Lamont's enacted Executive Order No. 7X with the following provisions:
 - Protections for residential renters impacted by COVID-19: Enacts a series of protections for residential renters during the public health crisis.
 - Continued cancellation of school classes through May 20, 2020: Extends the date for which classes at schools statewide remain canceled until no earlier than May 20, 2020.

- Extension of closures, distancing, and safety measures through May 20, 2020: Extends the date for all previously enacted closures, distancing, and safety measures until no earlier than May 20. This includes previously enacted limits on restaurant, bar, and private club operations; closure of on-site operations at off-track betting facilities; closure of operations at gyms, sports, fitness, and recreation facilities and movie theaters; closure of large shopping malls; closure of places of public amusement; safety and distancing measures for workplaces and non-essential businesses, prohibition on social and recreational gatherings of more than five people; and restrictions on retail operations.
- Modification or deferral of educator certification testing: Modifies State statutes to authorize the commissioner of Department of Education to temporarily defer any requirements regarding certification testing for educators as he deems necessary to address the impact of the COVID-19 crisis.
- Permission to operate food trucks at rest areas: Lifts restrictions on commercial activity in Connecticut highway rest areas and permits food trucks to set up in these locations with the goal of feeding hungry truckers and other essential workers during the pandemic. This applies at the rest areas located in Danbury on I-84; Wallingford and Middletown on I-91; and North Stonington on I-95. Food truck operators interested in participating must obtain a permit from the CTDOT, which requires a valid license issued by a local health department or health district to serve food in Connecticut. <https://portal.ct.gov/-/media/Office-of-the-Governor/Executive-Orders/Lamont-Executive-Orders/Executive-Order-No-7X.pdf?la=en>
- Approximately 85 soldiers from the U.S. Army Reserve's Urban Augmentation Medical Task Force will provide additional medical staff to Stamford Hospital. The Army Reserve group includes clinical and administrative staff, as well as those who are subject matter experts in operational medicine, infectious disease, preventive medicine, nursing, respiratory therapy, clinical psychology, occupational therapy, dietetics, pharmacy, and other areas.
- Governor Lamont today announced that Connecticut manufacturers can now apply for grants of up to \$75,000 to assist in the production of critical equipment and supplies needed to respond to the COVID-19 emergency. The grants, offered through the state's Manufacturing Innovation Fund Voucher Program, can be used for working capital, new equipment, and other purposes that help companies build capacity or repurpose their operations. Applications for grant funding can be found at <https://ctmvp.ccat.us>

Local Updates

New York City

- New York City has activated the Unified Victim Identification System (UVIS) to manage and coordinate all activities related to patient reunification and identification. UVIS enables individuals seeking loved ones who are believed to be in New York City to call 311, which initiates a process to attempt to locate that individual.

New York Blood Center
