NEW YORK MEDICAL COLLEGE,

APR 21 '42 FLOWER AND FIFTH AVENUE HOSPITALS

FOUR ACADEMIC YEARS IN THREE CALENDAR YEARS

Following the October meeting of the Association of American Medical Colleges held in Richmond, Va., our Education Committee was directed to consider curriculum re-adjustments to meet a possible demand for shortening the training period for medical men.

The committee, like others in similar institutions, must find a plan which would fulfill the following requirements:

1. Maintain present standards both for time and content of courses.
2. Easily re-convert to the pre-emergency methods of procedure.
3. Shorten the period of training maximally and satisfy the above standards.

Following a meeting of the Deans of Medical Colleges in New York City, the Faculty was notified that our institution, with others, would probably have to adopt an emergency program. On January 28, 1942 the plan below was adopted.

PLAN FOR ACADEMIC YEARS July 1, 1942 — June 23, 1945

July 1, 1942 - March 20, 1943:-

FIRST QUARTER: July 1, 1942 - August 29, 1942

SECOND QUARTER: August 31, 1942 - October 31, 1942 (1 week vacation)

THIRD QUARTER: November 2, 1942 - January 9, 1943 (2 weeks vacation)

FOURTH QUARTER: January 11, 1943 - March 6, 1943

(March 8 - March 20, exams and graduation)

March 29, 1943 - December 11, 1943

FIRST QUARTER: March 29, 1943 - May 22, 1943

SECOND QUARTER: May 24, 1943 - August 7, 1943 (3 weeks vacation)

THIRD QUARTER: August 9, 1943 - October 2, 1943

FOURTH QUARTER: October 4, 1943 - November 27, 1943

(November 29 - December 11, exams and graduation)

January 3, 1944 - September 16, 1944

FIRST QUARTER: January 3, 1944 - February 26, 1944

SECOND QUARTER: February 28, 1944 - April 22, 1944

THIRD QUARTER: April 24, 1944 - June 17, 1944.

FOURTH QUARTER: June 19, 1944 - September 2, 1944

(July 1-14th vacation. Sept. 4-16th finals and graduation)

September 25th, 1944 - June 23, 1945

FIRST QUARTER: February 5, 1945 - March 31, 1945

SECOND QUARTER: April 2, 1945 - May 26, 1945

THIRD QUARTER: Sept. 25, 1944 - Nov. 25, 1944 (1 week vacation)

FOURTH QUARTER: Nov. 27, 1944 - February 3 1945 (2 week vacation)

(May 28 - June 9, exams and graduation)

DR. HETRICK APPOINTED DEAN

At the January meeting of the Board of Trustees, Dr. J. A. W. Hetrick, who has for many years been closely associated with the Faculty and Administration of this College, was appointed to the Deanship.

Dr. Hetrick was born in Asbury Park, N. J., on April 22, 1895. Both his father and grandfather were prominent physicians in Asbury Park. He graduated from the New York Medical College in 1918 and interned at the Flower Hospital. In 1921 he joined the staff of the Flower Hospital as a member of the department of Otolaryngology, and was also appointed on the staff of the New York Ophthalmic Hospital, and served as Assistant Professor and Professor in the Ophthalmic Hospital from 1924 on. In 1929 he became President of the Medical Board of that institution. In the same year he was also appointed Professor of Otolaryngology and director of that department at this college. He has been Assistant Dean of the College since 1924. In 1926 he went to Vienna where he studied with Professors Alexander, Neumann, Hajek, Ruttin, Brunner, Marschak, Hasslinger, Wiethe, Spiegel, Sommer and other leaders in the otolaryngological field.

A Fellow of the Academy of Ophthalmology and Otolaryngology, he is director of the latter department at the Metropolitan Hospital of the Department of Hospitals, New York City. He is also a Fellow of the American College of Surgeons. A member of Alpha Sigma and Alpha Kappa Kappa, he was active in bringing about the merger of the two fraternities. The Doctor is also a member of Kane Lodge of the Masonic Order.

He has been a frequent contributor to the medical journals, among his contributions which have appeared in the Journal of Ophthalmology and Otolaryngology appear articles entitled: "Headaches of Nasal Origin"; "Cerebellopontile Angle Tumor"; "Defense of Tonsillectomy"; "Atypical Mastoiditis"; and many others. He has done successful but as yet unpublished work in the field of migrainous type headaches originating from sinus pathology. He has also developed several special instruments which are widely used in Otolaryngological work. He has had an important part in the development of one of the currently more popular Oscopes.

In 1918 he married Lillian Morgan. They have one child, a daughter Lillian Janet Hetrick who is now a student at Skidmore College.

GRADUATE SURGERY

JOSEPH H. FOBES, M.D., F.A.C.S., D.S.

Head of Graduate Surgery

New York Medical College, Flower and Fifth Avenue Hospitals

Modern training in the broad field of medicine today requires a considerable amount of postgraduate study. In the old days, when medicine was in its infancy, the student approached an older practitioner and practically lived in his house; carried his bags, curried his horse and did odd jobs around the place. For this was received instruction at the bedside of the old doctor's patients. This was the preceptor system. As time went on and modern methods of teaching came into being, the preceptor system was gradually passed and colleges went over largely to the laboratory system.

The pendulum is swinging backwards. At least one year of internship in a hospital is practically required today. This is, in reality, a modification of the preceptorial system. The intern looks after the patient's welfare, lives in the hospital, follows the attendings; he doesn't curry any horses, nor does he do very many odd jobs; nevertheless, the principle is the same. For his services to the hospital, the attending staff pays him by teaching.

From this time on, graduate education takes several forms:

First, that schedule in which the aspirant for higher honors follows a prescribed course of teaching. In surgery, for example, preferably after two years of a rotating internship in which the second year has a preponderating amount of surgery, consisting largely of diagnosis with a certain amount of assistance in the operating room; there is study of surgical pathology and surgical physiology with especial reference to the department of anesthesia. The candidate is then installed in a basic course. This is a non-resident course. The candidate is not subjected to constant calls for service to patients which would detract from his abstract scientific thought. Under the guidance of an accomplished surgeon he is inducted into a course of anatomy which lasts for six months. Following this he has the same amount of time devoted to research and surgery on dogs. These courses take up his entire mornings. In the afternoons he spends his time in the study of pathology and physiology.

To correlate this work, one afternoon is devoted to a round table discussion in which each student takes his part as leader in a Journal Club, occasionally varied by men of exceptional ability who talk to these candidates. This is not in the nature of a lecture at all; it gives an opportunity for free discussion and stimulates thought much better than the ordinary lecture type.

The candidate's evenings are devoted to sectional meetings at the Academy of Medicine and in various hospitals. The candidate keeps a very careful diary of everything that he does during this year as, in fact, he should do throughout his training course.

At the end of the basic year he receives a residency in an approved hospital where there is a Diplomate of the American Board, who agrees to act as his preceptor. Monthly reports are made back to the Head of the Graduate School both by the student and the preceptor. At the end of his five years training plan, he presents a thesis and stands an oral examination by a committee. If this is satisfactory and acceptable he then receives the degree of Master of Surgery. After two years of further work, preferably under a Diplomate of the Board, in which he restricts himself to surgery, he then is acceptable for examination by the American Board of Surgery. If this is passed successfully, he receives a degree of Diplomate of the Board.

The second type of practitioner is the one who has been out for several years and now sees his way clear to perfect himself in surgery as a specialty. If he has had the proper type of internship he then is accepted for the Basic Year and spends two or three years of residency after that, according to the amount of internship he has had. Many of our applicants decide to do this.

There is a third type of applicant for surgical honors - he who has had a satisfactory internship and then has gone directly into the active practice of surgery and holds a position as assistant or associate surgeon in an acceptable hospital. If this one can take the Basic Year and show satisfactory evidence of proper work in surgery, then he is acceptable by the American Board for examination.

There is, however, still another class for practitioners who desire to have short brush-up courses. These are extremely valuable. They can be easily arranged to suit the time of the doctor and if he is conscientious and thorough, it will be of immense value to him. We find, in surgery, that a course of fifty hours each in dog surgery, surgical anatomy, surgical pathology and physiology, spread over a period of time, fulfills the requirements of the Basic Year to a candidate of proper calibre. Then his work since he has been out of internship must be evaluated and, if it is satisfactory, may be accepted, not for a degree, but for the American Board examinations.

Some one has said that if you want anything bad enough you will get it. Many roads lead to Rome. Consultation with the heads of the various Graduate Schools usually produces a sympathetic response and timely and considerate advice.

There is another advantage in this postgraduate work. Human beings like to get together and talk. One of the most pleasant features of this course is the opportunity of meeting one another and discussing various phases of the work. This part is equally pleasant for the Head of the Department as it is for the men under him. There is a big brother feeling to the whole thing which makes not only for social but for scientific advancement; and promotes a delightful comradeship with kindred souls seeking the same goal.

The graduate course in surgery was started three years ago in October. The first year there were 6 candidates. The second year there were also 6 candidates, and in October, 1941, 11 candidates matriculated for the 1941-1942 class.

The Executive Committee of the Alumni Association felt that those men who complete the full course and receive the Masters Degree, are entitled to become members of the Alumni Association.

Your president has been quite active in his work as head of Graduate Surgery. We have addressed the following societies:-

In October, 1941. The Pennsylvania State Homeopathic Society, Reading, Pa. Showing film "Education of a Medical Student". Reading a paper on "Sulfonamides in Surgery." and distributing literature on post-graduate education.

In November, 1941, attended the American College of Surgeons meeting in Boston, speaking in the Graduate Forum, and making contacts with several hospital heads where our graduates are residents.

In January 1942. The Lackawanna County Medical Society, Scranton, Pa., about 200 members, with Walter Mersheimer, '37, graduate Fellow and resident in Surgery at the Metropolitan Hospital, subject, "Management of Surgery of the Colon, and Surgical Graduate Education." John Murphy, member of the Society, is a graduate Fellow in Surgery at our institution, taking the Basic Course.

In March, 1942, addressed the staff of the Lutheran Hospital, Brooklyn, where Joseph A. Sileo, '25, is Chairman of the Board, on subject "Sulfonamides in Surgery"

On April 11, 1942 will be the principal speaker of the Hahnemannian Club of Philadelphia, subject "The Scarlet Thread of Common Sense in Medicine." Later in April, at the Connecticut State Society, at Cheshire, Conn. subject "The Management of Surgery of the Colon, and Graduate Surgery". On April 24th at the annual meeting of the Homeopathic Medical Society of the State of N. Y., will repeat "The Management of Surgery of the Colon" with Walter Mersheimer.

On November 30, 1941 attended a convention of the American Alumni Council at Skytop, Penna. The majority of the larger colleges and universities are members of the American Alumni Council, and we are pleased to advise that our Alumni Ass'n. has also become a member. Mr. C. Tritsch also attended this convention. On the afternoon of Dec. 1st, a round table discussion of the problems facing the different Alumni Associations was held. How some of these problems have been overcome, and what is being done in other cases was freely discussed. As alumni work is similar in many respects, valuable hints and leads may be obtained in this way.

ALUMNI DAY and CLASS DAY, 1942.

Thursday, June 4th and Friday, June 5th

ALUMNI DAY, THURSDAY, JUNE 4th

10:30 a.m. to 12 noon. Scientific Session (Auditorium)

"Panel Discussion on Diagnosis and Treatment of Low Back Pain"

Dr. Linn J. Boyd, presiding

Medical Aspects	Linn J. Boyd, M.D., F.A.C.P.
Orthopedic Aspects	Anson H. Bingham, M.D., F.A.C.S.
Gynecological Aspects	Leon S. Loizeaux, M. D., F.A.C.S.
Neuro-Surgical Aspects	Thomas I. Hoen, M.D.
X-Ray Aspects	Frank J. Borrelli, M.D.

"DEMONSTRATIONS" in College Lobby

Charts and Apparatus exhibited and demonstrated by the various departments of the College. This includes Research and Clinical Problems.

(A complete program will be sent to all Alumni at a later date)

12 noon to 2:30 p.m. Luncheon. (complimentary)

3:00 p.m. to 4:00 p.m. Alumni Business Meeting

7:30 p.m. Alumni Banquet at the Colonnades of the Essex House

The Annual Alumni Banquet, which for the past has proven such a pleasant means of meeting our classmates and friends, will be held on the evening of Thursday, June 4th, at the Colonnades of the Essex House, in New York City. Tickets can be obtained by addressing the Alumni Association of the New York Medical College, 1 East 105th Street, New York, N. Y.

CLASS DAY, FRIDAY, JUNE 5th

10:30 a.m. to 12 noon. Informal exercises in the Auditorium conducted by the class of 1942. All Alumni, Students, and Nurses relatives and friends are cordially invited.

12 noon to 2:30 p.m. Reception. Luncheon to be given by the class of 1942 at which a limited number of relatives of the class will be invited to meet the Faculty as well as to inspect the College Building.

3:30 p.m. Commencement Exercises for class of 1942 to be held in Hosack Hall, New York Academy of Medicine, 2 East 103rd Street, New York, N. Y.

(A complete program will be sent to all Alumni at a later date)

EMERGENCY CIVILIAN DEFENSE AND RED CROSS ACTIVITIES OF THE NEW YORK MEDICAL COLLEGE AND FLOWER-FIFTH AVENUE AND THE METROPOLITAN HOSPITALS

Immediately after the dastardly attack on Pearl Harbor on December 7, Emergency Services in Civilian Defense were projected and rapidly organized at the Flower-Fifth Avenue and the Metropolitan Hospitals. These emergency measures were developed for our share in civil needs while, simultaneously, our institutions have made their contribution to the military and naval services. But this report is limited to the civilian organization at both hospitals.

An emergency service has been provided for civilian defense, consisting of teams of residents, interns, nurses, and attendants constituting Field Units and Casualty Station personnel with full field equipment. Dr. Herbert I. Scheffer, Medical Superintendent of the Metropolitan Hospital, with his assistants has devised an original metal emergency case as well as large cases for the transportation of the casualty equipment and has organized the necessary ambulance and bus service for quick mobilization.

Already, at the Normandie fire, the Metropolitan unit rendered services which won the commendation of the Head of the Emergency Medical Department of the Office of Civilian Defense. Four units, constituting teams of four doctors, four nurses, and four attendants, have been drilled and are kept in a high state of efficiency.

A similar but smaller service at the Flower-Fifth Avenue Hospital has been organized and, through the generosity of Dr. Edward M. Bernecker, Commissioner of the Department of Hospitals and Chief of the Emergency Medical Service for the City of New York, an ambulance has been provided with Red Cross drivers on 24-hour duty for the duration.

Dr. Milton J. Wilson was appointed by the Dean to provide every safeguard for our hospital for all emergencies from air raids and for all casualties.

At both hospitals, a special Attending Staff has been appointed under the Civil Defense Organization for this emergency service. At the Metropolitan Hospital, Dr. William P. Eckes has been appointed as Director of the Emergency Service and at the Flower-Fifth Avenue Hospitals, Dr. Joseph F. Bartoli is in charge of the Casualty Service.

Early in December, we organized this service at a large meeting in Draper Hall with Mr. Rudolph Haybrook, of the London Auxiliary Fire Service, who presented a vivid account of the air raids on London. Since then, at both hospitals, several of our Wednesday Surgical Conferences have been devoted to the better organization of this service, with consideration of the modern management of casualties, including burns, compound fractures, etc.

Early in January, a carefully prepared series of lectures and demonstrations were given by members of the Attending Staff to the entire group of Residents and Interns of the Metropolitan Hospital, covering all aspects of emergencies arising from bombings and sabotage. Since then, courses in First Aid have been given to several hundred of the nurses, attendants,

and employees of the Metropolitan Hospital, covering the general field of Emergency First Aid.

Special courses have been organized and will be about completed when this issue of the Chironian reaches you. Lectures and demonstrations have been given by the Department of Surgery, with other departments cooperating, totalling 140 hours to a group of 349 students participating; with 32 members of our staff patriotically giving their time and energy in this additional service to the college.

These courses covering Advanced First Aid supplemented by carefully prepared lectures giving the modern management of such emergencies with demonstration of bandaging, splinting, transportation, and artificial respiration were given to 50 members of the First District Dental Society, 93 junior and senior medical students, and 190 day and night nurses, orderlies, and lay members of our personnel. In addition, an elementary First Aid course has been given to sixteen members of the Women's Auxiliary of the Flower and Fifth Avenue Hospitals - mostly wives of our staff members.

Both at the Metropolitan Hospital and the Flower and Fifth Avenue Hospitals, there has been splendid cooperation on the part of all in the organization of these special emergency services.

LOUIS RENE KAUFMAN, M.D.
Director of Surgery

ALUMNI IN SERVICE

Below is a list of New York Medical College Alumni who are in the military and naval service of our country. There are probably many more. Kindly advise the office of the Alumni Association, 1 East 105th Street, N. Y. City of any changes in location, or of any additional names, giving name and location, so as to keep the list as complete as possible.

Alvarez, Lawrence J. '37, Camp Upton, N. Y.

Bagner, Alan Bernard '38, Camp Livingston, La.

Balogh, William A. '35, Co. G. 107th Med. Reg. Capt. Camp Livingston, La.

Bambara, John A. '37, U. S. Army

Barr, Henry R. '36, Lieut. Camp Elliott, San Diego, Calif.

Berlin, Walter '40, Camp Shelby, Miss.

Brett, Wilbur B. '37, Lieut. (j.g.) U. S. Navy c/o Postmaster N. Y.

Behr, Irving Selig '39, Lieut. (j.g.) Med. Corps - Receiving Stat.

Naval Oper. Base, Norfolk, Va.

Beyer, William '27, Fort Ontario, Oswego, N. Y.

Blick, Meyer S. '37, Capt. M. C. Fort Jay Governors Island, N. Y.

Bobroff, Henry K. '30, Capt. Med. Reserve U. S. A.

Senior Phys. Great Lakes Indian Agency, Hayward, Wisc.

Boyd, James R. '17, Lieut. Col. M. C. Fort Hancock, N. J.

Burrett, John B. '37, Lieut. M. C. Billings Gen. Hosp. Ft. Benj. Harrison, Ind.

Caes, Henry Joseph, '41, U. S. Navy

Cafarelli, Roosevelt '35, Fort Knox, Ky.

Candiloro, Carl G. '29, Capt. Camp Lee, Va.

Ciofalo, Frank I. '31, Capt. M. C. Fort Benning, Ga.
 Clune, Francis J. '15, Fort Custer, Battle Creek, Mich.
 Colmer, Malcolm '38, Aviation Dept. Orlando, Fla.
 deCastro, Carlos M. '18, Med. Officer, U. S. Sel. Serv. Terr. Headq. San Juan
 Ennis, Russell, '41, U. S. Navy
 Finkelstein, Howard E. '40, Camp Claiborne, La.
 Graham, Allen, '37, U. S. Army
 Greenberg, Morris W. '31, U. S. Army
 Gualtieri, Roy '39, 1st Lieut. Med. Detach. 212 CA (AA) Camp Stewart, Ga.
 Heeve, William L. '35, Fort Gulick, Canal Zone.
 Iamele, Louis Arthur '35, Fort Bragg, No. Car.
 Jellinek, Harold L. '39, Tilton General Hosp., Fort Dix, N. J.
 Jurnove, Donald S. '36, Camp Livingston, La.
 Kimball, Cyril V. W. '40, U. S. Naval Training Station, Newport, R. I.
 Kogel, Marcus D. '27, U. S. Army
 Kurtz, Irving M. '33, U. S. Army
 Lawrence, Joseph, '37, Lieut. M. C. Stat. Hosp. No. 2, Fort Bragg, N. C.
 Lefkovitz, Aaron M. '28, Captain, Fort Dix, N. J. (Reception Center)
 Livingston, Elias, '37, U. S. Army
 Lombardi, Anthony L. '36, Capt. M. C., U. S. Army Base Hospital,
 St. Thomas, Virgin Islands
 Longworth, Edmund F. '37, Camp Forest, Tullahoma, Tenn.
 Lynch, Thomas F. '37, U. S. Army
 McKay, Robert D. '38, Captain, Carlisle Barracks, Pa.
 MacKoske, William F. '39, U. S. Navy
 Maffeo, Carl E. '39, 1st Lieut. M. C. 38th Div. Camp Shelby,
 Hattiesburg, Miss.
 Maillard, L. W. '36, Fort Gulick, Canal Zone
 Manfredi, J. J. '35, Camp Livingston, La.
 Mascali, Angelo '36, Fort Clayton, Canal Zone
 Mayer, David McCullagh, '32, Major M. C. La Garde General Hospital, New
 Orleans, La.
 Mellow, Joseph A. '38, Fort Dix, N. J.
 Moore, Samuel B. Jr. '40, 1st Lieut. Stat. Hosp. Camp Devens, Ayer, Mass.
 Napp, E. Edward '33, U. S. Navy, Quantico, Virginia
 Novalis, Nicholas A. '37, Lieut. 121st Med. Dept. Camp Livingston, La.
 Reiser, Paul, '33, Fort Bragg, No. Car.
 Reinstein, Herman, '37, Captain 65th Medical Regiment, Fort Ogelthorpe, Ga.
 Romano, Frank R. '39, 70th Coast Artillery, Camp Stewart, Georgia
 Santoro, George '39, Fort Hamilton, N. Y.
 Scham, Manuel J. '31, Capt. Med. Corps. Fort Jay, N. Y.
 Spinelli, Vincent A. '39 U. S. Air Corps-Flight Surg. Mitchell Field, N. Y.
 Stark, Charles W. '37, Camp Upton, N. Y.
 Stivala, George J. '33, U. S. Army
 Swartwout, John A. '36, Lieut., Box 33, Port Amador, Canal Zone
 Taddeo, Mario '37, U. S. Army
 Tichenor, Clifford, '40, Capt. Officers Training, Carlisle Barracks, Pa.
 Viola, Lawrence, '34, Fort Bragg, No. Car.

PERSONALS

Please send personal items to the News Editor, 1 East 105th Street, N. Y. C.

RUDDEROW, Edward '95, N. Y. City.

At its recent annual meeting, the Caduceus Post, American Legion, elected four vice-commanders to serve for the year 1942. Among these four was Dr. Rudderow.

HOUSE, Wallace B. '99, at a meeting of the Chapter Magnum, International and Spanish speaking Ass'n. of Physicians held on Friday, February 20, 1942 at Pythian Temple, N.Y. City, Dr. Wallace B. House presented two motion pictures in sound and color, entitled:- Cultured China and the Profession.

Norway, the Land of the Never Setting Sun.

WALSH, James, '03, Cortland, N. Y. has been appointed by the president of the Cortland County Medical Society to serve on the Economics Committee.

BENSON, Reuel A. '03, has been appointed to the Board of "Collaborators" of the Archives of Pediatrics. "Archives" is one of the leading national pediatric journals, and the board of collaborators is composed of thirty pediatricians of the United States, Canada and England.

DUMVILLE, Harry C. '06, Niagara Falls, N. Y. At their annual meeting held on December 9, 1941, Dr. Harry C. Dumville was elected to the vice-presidency of the Niagara County Medical Society for the year 1942.

BARRY, Raymond S. '11, Niagara Falls, N. Y. was appointed alternate delegate representing Niagara County to the 1942 Convention of the New York State Medical Society.

VAN AMBURG, Earl R. '15. At the annual meeting of the Orange County Medical Society held on December 9, 1941, Dr. Van Amburg of Pine Bush, N. Y. was elected vice-pres. for 1942.

BOYD, James R. '17, advises that he is Lieut. Col. M. C. at Fort Hancock, N. J., commanding 151st Station Hospital.

LUBOWE, Irwin, '30. At a meeting of the Chapter Magnum, International and Spanish Speaking Ass'n. of Physicians held on Friday, February 20, 1942 at Pythian Temple, N. Y. City, Dr. Irwin Lubowe presented a motion picture entitled:-

Syphilis Cure - Treatment in Five Days.

BIRNBAUM, Leo, '31, has been transferred to the Veteran's Administration at Kingsbridge Road, the Bronx. Dr. Birnbaum now lives at 301 West 108th Street, and says its fine to live in New York again after being away almost seven years.

WEISMAN, Abner I. '32 - was recently appointed assistant visiting gynecologist and obstetrician to the Metrop. Hosp.

KURTZ, Irving M. '33, has been on active duty since March, 1941 at Camp Blanding. He has been ordered to Fort Mason, Calif.

MEISEL, David B. '34 - Dr. and Mrs. David B. Meisel announce the arrival of a son on January 1, 1942. This makes their second child, the first being a daughter, Barbara Joyce. Dr. Meisel is now located at 818 South 12th St., Newark, N. J.

LOMBARDI, Anthony L. '36, has been promoted to rank of Captain and is at present commanding officer of the U. S. Army base hospital at St. Thomas, Virgin Islands.

GOLDEN, Harold T., '36, advises that it was a son, the third, born on Jan. 7.

BARR, Harry R. '36 writes that he has been a Lieutenant with the second Parachute Battalion at Camp Elliott, San Diego, Calif. since July, 1941.

BUDETTI, Joseph A. '36, has been promoted to assistant visiting Bronchoscopist at Municipal Sanatorium at Otisville, N. Y. On February 1, 1942 he became the proud father of a baby girl, weight 7 lbs. 9 oz. Mrs. Budetti is the former Elsie Lauricella of Mount Vernon, N. Y. The baby will be named Marie Therese.

GRAHAM, Allan S. '37 is now serving in the Medical Corps, U. S. Navy, and has received orders appointing him to sea duty and in charge of surgery for the ship.

LYNCH, Thomas F. '37. After two years rotating service at the Flower and Fifth Ave. Hospitals, Dr. Lynch had a surgical residency at St. Elizabeth's Hospital, followed by one year in general practice. He was then called for active duty at Camp Upton with classmates Lawrence J. Alvarez, Meyer S. Blick and Charles W. Stark. He is now on Detached Service at Waller Field, Fort Read, Trinidad, B. W. I. He sends regards to all at home.

BRUZZA, George '42, was married on January 3, 1942 to Miss Evelyn Giunco, of Belmar, N. J. The ceremony took place at St. Rose's Church. They are making their home at Belmar.

In Memoriam

DECKER, William F. Suffern, N. Y. '76, died January 25, 1942, in Newburgh, N. Y. of cerebral hemorrhage. Aged 86.

BEALS, Herbert, '78, Buffalo, N. Y., died on Nov. 18, 1941, at the age of 86.

BOAL, J. Mills, '84, San Diego, Calif., died on Oct. 3, 1941 at the age of 85.

HAWLEY, H. Reed '92. Poughkeepsie, N. Y. Died June 7, 1941 after an operation for kidney stone.

GRAY, Marshall D. '95, Shushan, N. Y., died on January 13, 1942, at the age of 71, of chronic emphysema and acute myocarditis.

LEMMERZ, Theodore H. '96, was born in New York City on October 12, 1870. He interned at the Cumberland Street Hospital, Brooklyn, and the Homeopathic Hospital of Pittsburgh. He practiced in Jersey City for the past 43 years. Dr. Lemmerz was a former president of the New Jersey Medical Society and the New Jersey State Homeopathic Medical Society. He was an eye, ear, nose and throat specialist, and chief of clinics at Christ Hospital, Jersey City. He was a Fellow of the American College of Surgeons. Dr. Lemmerz died on November 8, 1941 of carcinoma of the rectum. He is survived by his wife, Mrs. Elizabeth Faulks Lemmerz; three sons, Theodore F. and James E. Lemmerz of Leonia, N. J., and Dr. Willard H. Lemmerz of Wood Ridge, N. J., and a daughter, Miss Elizabeth Lemmerz.

SAYLOR, Parry Dorland, '03, was born in Bloomfield, Ontario, Canada, in 1879. He graduated from the New York Homeopathic Medical College in 1903, and practiced medicine in New York City until the first world war in 1914. He served as Major on the Canadian General Staff. He became president of the Goodyear Tire and Rubber Company of Europe, and later of the Dunlop Tire Company of Buffalo. For many years he was connected with the Canada Dry Ginger Ale Company, and in 1935, after having served as president, he became Chairman of the Board of Directors, which position he held at the time of his death. He was a member of the Board of Trustees of the New York Homeopathic Medical College and Flower Hospital. In 1934 he moved to his farm in Litchfield, Conn. He was a member of the Board of Finance of Litchfield; president of the Litchfield Sports Association, and was also active in promoting Boy Scout work. He was a member of the Episcopal Church, a Democrat, and a Mason. Dr. Saylor died at his home in Litchfield on February 20, 1942, at the age of sixty-three. Surviving are his wife, Mrs. Anne Leah Saylor; a son, Lieut. Lawrence D. Saylor of the U. S. Army, stationed in Columbus, Ga., and a daughter, Mary Jane Saylor, student at St. Margaret School of Middlebury, Conn.

POPE, Edward S. '03, Montclair, N. J. Graduated from the New York Homeopathic Medical College in 1903 and from the Jefferson Medical College in 1905. Dr. Pope was in private practice in New York City for thirty years, and was the executive surgeon and secretary of the Midtown Hospital, New York City. He was a specialist in ear, nose and throat, and was affiliated with the New York Eye and Ear Hospital, and also

with St. Vincent's Hospital of Montclair. He died at his home on January 23, 1942 at the age of 61. Surviving are his wife, Mrs. Margaret Muir Pope; two daughters, the Misses Adeline and Elizabeth Pope, and a son, James Pope, all of Montclair.

SCOTT, Sidney L., Fredericksburg, Va. '03. Dr. Scott was graduated from the Univ. of Virginia, Dep't. of Medicine, in 1901 and from the N. Y. Homeopathic Medical College in 1903. He was a member of the Medical Society of Virginia. He died on December 16, 1941, of coronary thrombosis, at the age of 62.

ABBENE, Marius Liborius, '14, Brooklyn, N. Y. Graduated from the N. Y. Homeopathic Medical College in 1914. He was a member of the Medical Society of the State of N. Y.; fellow of the American College of Surgeons; Instructor of Obs. and Gyn. at Long Island College of Medicine; Obstetrician at Bushwick Hospital; Assoc. Gyn. and Obst. and chief of clinic at Greenpoint Hospital; Physician for local draft board in first and second World Wars; Died Dec. 9, 1941, at the age of 55, of coronary thrombosis.

BECK, Marcus Carl, '16, Baggs, Wyoming. Dr. Beck died in Landers, Wyoming, on December 26, 1941 of a heart attack. Aged 53.

THE ANNUAL CONVENTION OF THE

Homeopathic Medical Society of the State of New York

WILL BE HELD ON FRIDAY, APRIL 24, 1942

AT THE NEW YORK MEDICAL COLLEGE (AUDITORIUM)

Morning Scientific Session, 9:30 to 12:00: During this session Dr. John J. Moorhead will give a paper entitled "War Surgery during the Pearl Harbor Attack."

Luncheon, at noon, for the Doctors and their wives, as guests of the Society.

Afternoon Scientific Session, 2:30 to 4:30: At this time Col. Edgar J. White will give a paper on a subject of interest to all physicians.

Business Meeting. - After a brief recess a short business meeting will be held.

AT THE BILTMORE HOTEL

An unusual program has been prepared for all members and their friends. Cocktails will be served at 7 p.m., followed by an especially good dinner. The subscription price of \$5.00 includes cocktails and dinner. An excellent orchestra has been engaged for your entertainment and dancing in the Main Ball Room. Mayor Fiorello H. La Guardia, Newbold Morris, President of the Council of the City of New York and the newly appointed Commissioner of Hospitals, Dr. Edward M. Bernecker, will be present as guests of honor and will briefly address those attending. In addition, we will take this opportunity to congratulate Dr. Bernecker on his recent well-deserved appointment.

Send your reservations promptly to the office of the Society,
1 East 105th Street, New York, N. Y.

MEDICAL STUDENTS CLUB

In one of the most closely contested Inter-Medical School basketball tournaments in several years, our Varsity team was nosed out of the championship by Columbia P. and S. As the tournament went into the second round the Flower and Columbia teams were in the lead by a small margin, finally finishing tied for first place. The play-off on the Columbia University floor gave both teams equal advantages, and they entered the fray with determined spirits. With Dr. Milton Wilson, the team's most loyal supporter furnishing the moral support, our team played hard fast ball, but finally bowed to their close rivals. Thus for the second year P. and S. is on top, and the beautiful plaque donated by our Alumni Association, remains at Bard Hall. However, the Varsity team, once again captured the Flower-Hahnemann Jug by trouncing the Philadelphia medicos on their court and again on the Heckscher floor on March 28th. Several first year men including Brookes, Laybourne and Monde gave the varsity men considerable competition for berths on the team this year.

Paced by Dr. Wilson, the Faculty Bowling team swamped the Student team in their annual meet on the R. R. "Y" alleys, thereby keeping their slate of wins over the Student rollers for the past three years intact.

Plans for the Second Annual Glee Club Concert and Dance, the big event of the year, are well under way. This affair, a highlight of the Medical Students Club program last year, will be held on Friday, April 17th, and will be the combined appearance of our songsters and the Nurses choral group. Both clubs have been working hard for this event and promise an unusually fine repertoire. Needless to say Alumni are cordially invited. The Concert will coincide with the Annual Art Exhibit which will be open for display during that week with the judging and awarding of prizes to the best work in each classification made on the night of the concert.

The Inter-class Softball league will start soon after the Easter vacation.

"WAR OR NO WAR —

Depression or no depression, in good times and in bad," Mead Johnson & Company are keeping the faith with the medical profession. Mead products are not advertised to the public. If you approve this policy, please specify Mead's.-adv.

SERVING THE PHYSICIAN OVER FORTY YEARS

Alumni are urged to patronize our advertisers

(1) One of many 3000-gallon converters in which Dextri-Maltose is processed. Interior being thoroughly cleansed by hand prior to steam sterilization.

(2) Exterior views of huge converters. Steaming under 20 pounds' pressure assures sterility of the interiors in which Dextri-Maltose is processed.

DEXTRI-MALTOSE Equipment Sterilized By Live Steam Pressure

PHYSICIANS frequently express surprise that the cleansing and steaming of equipment for manufacture of Dextri-Maltose produces sterility comparable to that in hospitals.

All equipment used for Dextri-Maltose is of the enclosed type and all parts which come in contact with the product are readily accessible for cleaning—smooth surfaces, rounded corners, detachable piping in short lengths.

Huge autoclaves in the Mead Johnson factory steam-sterilize the smaller equipment, and live steam is forced under pressure into storage and processing tanks.

This is but one phase of many precautions taken to make Dextri-Maltose a carbohydrate safe for infants. Unremitting care in laboratory and factory has resulted in a product which over a 4-year period has had an average bacterial count well under 100 per gram! Every step in the process of making Dextri-Maltose is under the watchful eyes of competent bacteriologists.
