TOURO COLLEGE

THEN, REMEMBER ME

*Sometimes it is so hard to change.
Moving on is just another challenge.
One you will face with the perseverance you've had here.*

*Will you be the person you thought you'd become?
I think not!!
But you will find that you are proud of who you have become -- that person
you never thought you'd be.*

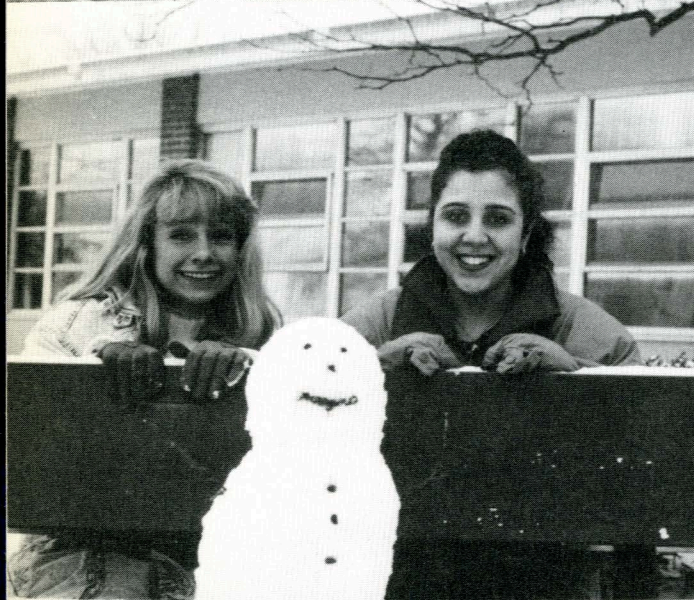

*Then, remember me.
For I have played a role in who you are.
I am your past. And you are mine.*

*We have been partners here,
assisting one another in our efforts,
shaping each other with unity and individuality.*

*Will you try to remember what it was like here?
I think so!!
But you will find you only have fond memories -- the toil overshadowed by
smiles we've shared.*

*Then, remember me.
For I have played a role in who you are.
I am your past. And you are mine.*

Dear Graduates:

For each of you who has reached this milestone in your career, I salute your tenacity and your commitment. In addition, as I reflect on your past years at the Touro School of Health Sciences, I must commend you for your patience, understanding and cooperation. In spite of the many difficulties, you maintained your enthusiasm and a healthy sense of humor. It has not been an easy road, but once achieved it should instill in you a deep sense of accomplishment and satisfaction.

We, the faculty and administration, feel that we have provided you with a strong and sound educational background that should enable you to grow and assume leadership positions within your field. In return, we have received your dedication and friendship. Most of all, focus on the special bonds you have established as you supported and encouraged each other over the past few years. These bonds will be yours for a lifetime and help you both personally and professionally.

As you embark on your careers, look to the future but rely on the past. My door has always been open to you and will remain so with the expectation that we can maintain and nurture the relationship we started at Touro.

I congratulate you on your achievement and wish you success for your future as I look forward to your active participation in the Alumni Association.

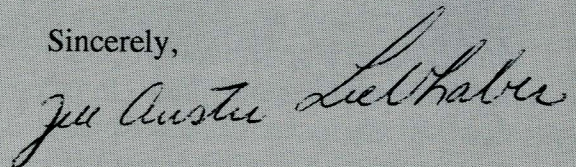

Sincerely,

Joseph Weisberg, P.T., Ph.D.
Dean

Dear Graduates:

As we come to the culmination of the past three years I can not help but feel a little like a proud parent. I have watched you grow from anxious interviewees to confident, qualified professionals. The growth has been both personal and professional. The faculty have strived to provide the most complete physical therapy education and to act as professional role models as well. You will now go out and be role models for future physical therapists. In a very short time we will be receiving references letters for applicants with your signatures on them - and yet another generation of physical therapists will be born. I have every confidence that your class will contribute much to the growth of the profession and to the education of future therapists. It has been my pleasure to know you, watch you grow and be a part of your education. GOOD LUCK. I look forward to working with you as colleagues as the profession moves forward.

Sincerely,

*To Pt or not to PT?
That is the question.
Whether 'tis nobler in the mind
to suffer the slings and arrows
of an outrageous curriculum,
or to take arms against a sea
of tests and by studing, pass them.
To fail, to end the heartache
and the late night anxiety
the flesh is heir to.
Tis a consummation devoutly to be wished.
To study, to pass,
to pass, ahh therein lies the rub.
For in that passing and then working,
what insurance reimbursements may come,
when we have shuffled off this
Clinton Administration must give us pause.
To pass, to study no more.*

You finally did it!
I am so proud of you.
You'll be a great P.T.

Dear Mom, Dad, Nadine
and Gerald—
I finally made it. I could not
have done it without all of
your love, patience and
support. Thank you for
helping me become what I
am today and for letting
this all be possible.
Hey Dad—no more tuition!!
All my love always—
Jodi

Mom and Dad,

As I realize this goal for which I have worked long and hard, I cannot revel in the pride of my accomplishments without first acknowledging the contributions you two have made toward this end. The sacrifices, understanding, patience and love which you have so selfishly given forth have made me who I am today. You are the treasures I will always be thankful for in life. If I could be half the parent to my children that you two have been to me, I will be truly successful. You are indeed the wind beneath my wings!

*It must have been cold there in my shadow, to never have sunlight on your face.
You were content to let me shine, that's your way. You always walked a step behind.*

*So I was the one with all the glory, while you were the one with all the strength.
A beautiful face without a name, for so long. A beautiful smile to hide the pain.*

*Did you ever know that you're my hero, and everything I would like to be.
I can fly higher than an eagle, you are the wind beneath my wing.*

*It might have appeared to go unnoticed, but I've got it all here in my heart.
I want you to know I know the truth, of course I know it;
I WOULD BE NOTHING WITHOUT YOU.*

*Did you ever know that you're my hero, and everything I would like to be
I can fly higher than an eagle, you are the wind beneath my wing.*

*Did I ever tell you you're my hero.
You're everything, EVERYTHING I wish I could be
I can fly higher than an eagle, you are the wind beneath my wing.*

Thank you, thank you, thank God for you, the wind beneath my wing.

**WITH LOVE AND GRATITUDE,
RENEE**

Dear Denise and Larry,

GRADUATION!!! I know you're both saying "well, it's about time," and you're right. I know I can be difficult at times and I just want to thank you for putting up with me these past years. I love you both very much - you're the greatest!

Now I can make good on all those IOU's.

**With love,
Renee**

Dear Bruno,

Well honey, this is it. Time to move on to my next "life." Thanks for the love and support you have given me this past year. I really needed it. At times when I thought I would go crazy, it was so comforting to know you were there. It is so hard to build a relationship amidst all the pressures and time constraints P.T. school imposes. We made it through though, and I look forward to moving on and directing my efforts toward our future.

**All my love forever,
Renee**
