of the
NEW YORK MEDICAL COLLEGE
FLOWER AND FIFTH AVENUE HOSPITALS
JOSEPH H. FOBES, M.D., *Editor*

THE NEW FORMAT

Your publication committee presents to you the Chironian in a new dress and set-up. This has been accomplished with the aid of the Dean and his administrative department, and the faithful work of our permanent secretary, Mr. Tritsch. We hope you like it. We would appreciate any suggestions from you, for after all it is your journal. For the publication committee,

Joseph H. Fobes, Editor.

"Upon recommendation of Dean Hetrick, the Board of Trustees of our Medical College, has adopted a policy concerning academic freedom and academic tenure of the paid teachers of its faculty. This conforms with educational practices through the nation, and should prove to have a distinctly stabilizing influence on faculty life."

Dr. Margaret Hotchkiss, instructor in the Department of Bacteriology from 1929 to 1942, and Assistant Professor from 1942 until March 1st, resigned to take a position in the Department of Bacteriology at the University of Kentucky, Louisville, Ky.

Dr. George K. Higgins, our new Professor and Head of the Department of Pathology, took his B.S. at the University of Minnesota in 1925, his Bachelor in Medicine in 1927 and his M.D. in 1928. For some time he was a Fellow in Pathology and instructor at the University of Minnesota. He later became pathologist to the University; and Assistant Professor of Pathology at the University of Minnesota. He is a member of the American Association of Pathologists and belongs to Sigma XI. In 1942 he received his Ph. D. He was director of the laboratory at the Glenh Lake Sanatorium and has done research work on Tb. and right heart failure.

We feel that the Faculty is to be congratulated on this fine addition to its ranks.

THE STUDENT LOAN FUND

In January, 1944, the Student Senate, acting on suggestions received from the Student Government Association, established a Student Loan Fund. Plans for this were drawn up and presented to the Board of Trustees for approval. The initial drive for funds was held in conjunction with the Fifth War Loan Drive. This Double Duty Dollar drive brought in a fund of over \$4200, which was invested in Series G. Government bonds. Thus, the Government has the use of the principal for the furtherance of the war effort, and the interest becomes available for the assistance of needy students.

Under the terms of the Association's gift to the college, the original assets and any subsequent contributions will be invested in securities of the U. S. Government so long as the present hostilities continue. Thereafter, the Trustees of the College are empowered to reinvest the principal according to the usual State laws governing educational endowments. Loans may be made from the interest or from the proceeds of special drives made for the specific purpose of raising money for immediate loans. Applications for assistance from this fund will be considered by a committee of three Faculty members and the President of the Student Government Association. Such assistance is intended to be a loan to the recipient and will be interest free for the first five years from the date of the loan.

It is the intention of the Student Government Association to supplement the original fund by an annual drive.

To the best of our knowledge this is the only such double purpose fund created by students; and the college is proud of its sons and daughters for their fine spirit of loyalty to their Alma Mater and future student generations.

VISIT BY LATIN-AMERICAN PHYSICIANS

On February 14th, 1945, the college had as its guests, Dr. Ugo Pinheiro Guimaraes, Professor of Surgery, University of Rio de Janeiro, Brazil, and past president of the Brazilian section of the American College of Surgeons; Dr. Rafael Calderon Guardia, Director of Surgery of the Hospital of San Juan de Dios, Costa Rica, and former president of the Republic of Costa Rica, and Dr. Rafael A. Nunez, formerly of Costa Rica, who was an assistant obstetrical surgeon at the Hospital of San Juan de Dios and chief of the air sanitation there. He is now associated with Dr. George T. Pack.

They were introduced by Dr. Louis Rene Kaufman, Professor of Surgery, and Dr. George T. Pack, Clinical Professor of Surgery, to a general meeting of the Student Body and members of the Faculty which filled the auditorium. Dr. Guimaraes gave an address on Thoracic Surgery and emphasized especially the roll of epidural anesthesia discovered originally in Argentina and brought into clinical use generally in Dr. Guimaraes' clinic in Brazil.

Following the general meeting, a reception was held by the Dean in his office where the guests met members of the Faculty and, later, the guests were entertained at an informal dinner by the Department of Surgery.

Dr. Guimaraes, assisted by Dr. Rafael Nunez, demonstrated epidural anesthesia and his operation for thoracoplasty in a clinic held for the staff and the students, as the guest of Dr. Samuel A. Thompson, Director of the Department of Thoracic Surgery, at the Metropolitan Hospital.

On October 9th, 1944, Webster T. Maguire, B. S., M. D., engaged in Surgery in Vancouver, British Columbia, a graduate of University of Toronto, Canada, registered with us for a special course in gastrointestinal surgery and the surgery of the thyroid.

We arranged for his seeing an additional group of thyroid patients at the Kings County Hospital in addition to the cases that he observed in our service. He attended the surgical conferences and observed a large group of surgical patients in addition to the special work in surgery of the stomach, colon, and thyroid which was his main interest. This course was supervised by: Drs. Louis R. Kaufman, John Herrlin, Jr., George T. Pack, Herbert C. Chase, Leonard P. Wershub, Thomas Glasser, Kenneth C. Peacock, and a special course in operative surgery under Dr. J. Clifford Hayner.

RESEARCH COMMITTEE ACTIVITIES

The Research Committee of the College as reorganized in October of 1944, consists of Drs. Benson, Boyd, Carleton, Cocheu, Hetrick (ex-officio) Higgins and Benjamin, Chairman. This committee operates under policy adopted by the Faculty Council and approved by the Board of Trustees in September and October of 1944.

The new policy requires that all research projects instituted be approved by the Committee. Application forms may be obtained from Dr. Benjamin or the Dean's office. When properly filled out, information essential for Committee action is supplied. It includes a clause which acknowledges the primary right of the college to encourage worthy investigations and responsibility to discourage any studies which might reflect unfavorably on the college name. The essential provisions of the present policy are those commonly required by Research Foundations and by other similar organizations formed to support worthy investigations.

The original program and Committee have recently been expanded to provide supervision of studies conducted by two affiliated hospital research units. These are the New York Medical College Research Unit of the Metropolitan Hospital and a similar unit formed at City Hospital.

The Committee is pleased to report that some twenty separate investigations have been approved and are in progress. Some of these are authorized by the National Research Council and the Office of Scientific Research and Development. Others are being conducted with the assistance of such Foundations as The Josiah Macy, Jr. Foundation, the John and Mary R. Markle Foundation, the American Medical Association, the United Hospital Fund and similar groups are sponsoring other studies. Several investigations have been approved by the Committee which are supported by corporations or by gifts from private individuals.

The Committee will in the near future provide all faculty members with recommendations concerning budgetary matters which are the result of experience of studies by the Committee.

We take this occasion to thank the several members of the Faculty who are most actively interested in and engaged in research projects for their cooperation with the Committee. We are certain that such cooperation and such purposefulness will add to the reputation and prestige of our college.

We invite inquiry by those of our college friends who may be interested in encouraging our common purpose.

James W. Benjamin,
Secretary and Chairman.

SEVENTH WAR LOAN DRIVE

Help your Alma Mater top its quota of \$125,000. in this drive. We all have loved ones in the battle line, let us pull together to bring them home again. Lend your money to your Government — the safest investment in the World.

I would like to hear from all my friends in the Alumni Association. Send your check, payable to the United States Treasury, and you will hear from

Cordially yours,

Cassandra Yohannan, Chairman,
Seventh War Loan Drive,
New York Medical College,
20 East 106th Street.

THE GRADUATE SCHOOL IN SURGERY

The Graduate School in Surgery is finishing up the year on the 4th of June; in spite of the excessive demands due to war activities made on the members of the Faculty, they have been most gracious in their thoughtful teaching of the Graduate Fellows. This has been the prime reason for the success of this year.

Doctor William Hoffman has received the appointment for Resident in Surgery at the Flower and Fifth Avenue Hospitals starting July first. Dr. Louis De Meo has received a like appointment at the Cumberland Street Hospital in Brooklyn. Dr. August J. Nardone will serve his residency at the Gouverneur Hospital and Dr. Salvador F. Sola at the Metropolitan Hospital.

The subject of graduate education in connection with returned veterans is of great importance today in medical education. Negotiations are in progress now with the Veterans' Hospital in the Bronx and with the Coney Island Hospital in Brooklyn for a closer affiliation, providing a basic year for their residents. This is in line with the best policies of medical education today. Inasmuch as our Graduate Surgery class is restricted to twelve students, and we have already accepted three for the class starting October 1st, it is quite important that if there are any other institutions desiring affiliation, they start negotiations immediately. A new catalogue has just been published of the Graduate School and is most complete. A copy may be had for the asking. The Boards have approved of our set-up. Of course, due to the war, some of the departments have not been able to function. But as soon as the war is over we will be able to carry out completely the provisions for graduate instruction. Any request for information may be addressed to the Dean's office at the College.

At the Clinical Research meeting which will be held at the Academy of Medicine on Wednesday, May 16th, the following papers from the Graduate School in Surgery will be presented:

"Improved technique for preparing a buried dermal graft in Hernial repair" by Lieut. James V. Scola, '42 and Master of Medical Surgery, '44.

"Resuscitation in Thoracic Surgery" by Jacob Reicher, M.D., '42, Master of Medical Surgery, '44.

STUDENT ACTIVITIES

Softball League:

The annual softball league has opened and the first intramural game was scheduled between the Freshmen and Senior teams. The league games will be played through May, and the winning team will play the Faculty Team. The team managers are: Primich, Zaneski, Cameron, Kelley and Lynch.

Checker Tournament:

A checker tournament is now in progress among members of the four classes. We hope to settle for all time the champion checker player in the Medical College!

Hobby Show:

The Eighth Annual Hobby Show will be held on April 30th through May 4th. The committee is composed of Ralph Kahanna and Jerome Hoffman, Co-chairmen, Carl Boswell, Ada Biffar, John Garrity, Marjorie Paschke, Arnold Turtz, Maria Gallopin, Natalie Wielunska, and Doctor Philipp Schmahl and Helen Louise Baker, faculty advisors. Handcrafts, painting, drawing, sculpture, collections, models, woodwork, films, etc. are welcomed. Contact the College Student Lounge, Extension 260, and plan to put in your hobby. The Alumni Association has donated a beautiful silver cup to the best exhibit in the show. How about winning it? On the last night of the show, May 4th, the Freshmen Glee Club will give a concert, awards will be made and an informal dance will follow. Orchestra will be composed of freshmen students. Incidentally, the present freshmen class is very musical. A number of excellent musicians have been unearthed.

Nursing Students:

A new class of nursing students, 46 in all, entered in March, one week following

Nursing School graduation. A week of Orientation and activities were planned for the new students. We are happy to have the new class with us, and wish them all good success.

Duplicate Bridge:

A duplicate bridge tournament will be played between students of Columbia and New York Medical College. If the game on April 6th is a success, plans will go forward to have tournaments between all medical colleges in the New York area.

Valentine Dance:

A Valentine Dance was given in February by the Medical and Nursing Students. The Auditorium was a maze of cardboard valentines and decorations concocted by the medical and nursing students. This was the first time a college orchestra was used for a dance. It was fun, and the students look forward to more home grown music at future dances.

Fleur-o-scope:

Editor-in-chief Pasquerelli and his staff are working very hard on this year's Fleur-o-scope. They are confident that they will publish the best year book seen by the College.

Annual College Dance:

The Annual College Dance will be held in the Plaza Hotel the weekend preceding graduation in June. We hope to see many of the old graduates come back for that evening.

Plans are in preparation for redecorating the Student Lounge.

GRADUATION EXERCISES

WEDNESDAY, JUNE 13th, 1945

Commencement exercises for the class of 1945 will be held at the Academy of Medicine, 2 East 103rd Street, New York, N. Y., on Wednesday, June 13th at 3:30 P. M.

Admission will be by ticket only. Alumni may obtain tickets by addressing Miss C. Yohannan, New York Medical College, 20 East 106th Street, New York 29, N. Y.

ALUMNI BANQUET

The Alumni Banquet for the Class of 1945 will be held at the Yale Club, Vanderbilt Avenue and 44th Street, N. Y. C., on Tuesday, June 12th at 7:30 P. M. Reservations can be made at once. Tickets are \$5.00. Letters giving details will be mailed to all graduates at a later date. Send your reservations to: Dr. Leonard P. Wershub, Chairman Banquet Committee, 1 East 105th Street, New York 29, N. Y.

FORUM

The Student Government Association of the College present forums on current topics which are very interesting and instructive. A series of four on "Present World Problems" have been given during the past month, they were:

- (a) "The British Commonwealth of Nations" by Dr. Robert Schuyler.
- (b) "Disintegration and Recovery of Europe" by Bruno Schonfeld.
- (c) "United States Foreign Policy" by Dr. Nathaniel Peffer.
- (d) "Yesterday, To-day and To-morrow" Experiences in Japan—Japanese prison, by Mr. Max Hill, at present an N.B.C. News commentator, and formerly Head of the Press Bureau of Tokio.

As the subjects of all forums will be of timely interest, we believe many of our graduates would appreciate receiving advance notices, therefore, we extend to you a cordial invitation to attend these meetings. Drop a card to Miss Helen Baker, 20 East 106th Street, to be put on the mailing list.

NOT CANCELLED

The art contest sponsored by Mead Johnson and Company on the subject of "Courage and Devotion Beyond the Call of Duty" (on the part of physicians) has NOT been canceled or postponed.

The closing date remains May 27th, 1946.

There will be no annual exhibit THIS YEAR of the American Physicians Art Association, due to the cancellation of the American Medical Association meeting which had been scheduled to take place in Philadelphia, June 18-22, 1945.

For full details regarding the \$34,000 prizes and the "Courage and Devotion" contest, write Dr. Francis H. Redewill, Secretary, A.P.A. Association, Flood Building, San Francisco, Cal., or Mead Johnson and Company, Evansville, Ind.

THE FIGHTIN' ASTP AT NEW YORK MEDICAL COLLEGE

Members of the Army Specialized Training Advanced Program are enlisted personnel of the Army on active duty. We are first and foremost members of the Army of the United States. We are being trained as Specialists for the Army and, as such, are subject to call for combat duty at any stage of our training. We are not assigned to any branch, unit or company of the Army, but are attached unassigned to the 3214 SCSU (ASTP).

In this unit, trainees are placed on monetary allowances in lieu of rations and quarters, when reporting to this unit for duty, and it is the responsibility of each trainee to properly quarter and ration himself while stationed here.

A year ago a man who was enrolled in an approved medical college of his own choice as a civilian, or who had received acceptance, could enlist in the Army and be assigned under the ASTP to that school for further training. Men were also chosen from Army units for transfer, but the procedure for them was somewhat more complicated. It was necessary for such a soldier to get a letter of acceptance from an approved medical school, then apply to his Commanding Officer for transfer to a STAR unit for further screening and assignment. But it was only with difficulty that a soldier could obtain transfer from a field unit.

After June, 1944 the whole program was almost entirely cut out, except for certain advanced engineering and medical schools, and applications for assignment to ASTP were no longer being considered. Men already accepted and assigned to ASTP medical school units by the Army were either discharged and sent to medical school at their own expense under draft, deferment or, if they had received previous education at Government expense prior to June 8, 1944, they were assigned to the ASTP. This meant that freshmen entering our medical school in October, 1944 who had had premedical training at Government expense could continue in the ASTP. And the remainder, by far the greater percentage, were discharged at the convenience of the Government.

Our responsibilities while stationed here include not only the ordinary duties of good manners, honesty and cleanliness, the soldierly duties of respect to our flag, our Commander-in-Chief and all officers appointed by him as his representatives, but also the trainee responsibilities of proving our capacity to be officers in the Army of the United States. We must be at all times perfect soldiers and aware of the respect we must maintain in order that we might someday be deserving and worthy of similar respect from the men in our command. We must always be neat and clean in appearance, and we must wear our uniform with a military bearing that will demand approval and commendation from the strictest critic. In addition, we must study and train to be good physicians, so that we may be worthy of the faith which the Army has shown in us by placing us here; we must be strong in the church, the community and in the home as well as in the profession.

Our military classes include formation and roll call every morning at half past eight, and two hours a week on orientation and training to facilitate our careers in the service. Classes include administration and organization of the Army, the school of the soldier, map reading, sanitation, conservation, psychology, and many other important subjects. We assume the duties of Charge of Quarters and Officer of the Day in alphabetical rotation. New trainee officers are appointed each month, so that every man can have a chance to develop confidence and show leadership, and we do not miss the dubious glory of company punishment to dull the effect of our weaker moments. Restriction is a favorite punishment, but sterner measures have and will be wrought in necessary cases.

Upon graduating from medical school, we are honorably discharged from the Army, and receive reserve commissions as First Lieutenants in the Medical Corps, AUS, to cover the period of internship.

But, in the meantime, we work hard and "gripe" during every spare moment—a sure sign of a good soldier.

By S/Sgt. Jon M. Wilson.

MAJOR FRANK N. THOMPSON

Major Thompson was detailed as Commandant at the New York Medical College during February, 1945.

He was born in Bordentown, N. J., on October 27th, 1887 of English and Dutch ancestry. Father descended from English Quakers; Mother descended from Dutch ancestors who landed on Long Island in 1636.

Schools attended: Bordentown High School, Trenton School of Industrial Arts (architectural course), Drexel Institute of Technology (mechanical course), Rutgers Extension (public finance), and various Army schools.

Appointed Cadet, First Officer Training Camp, Fort Myer, Va., May, 1917. Graduated, August 15th, 1917. Assigned to 320th Infantry of the 80th Division, and was a member of the advance party of this division overseas. When attached to the British 3rd Army in the Battle of the Somme, he commanded "K" Company 320th Infantry in Piccardi sector at St. Mihiel and in the Argonne. Honorably discharged August 5th, 1919. He resumed duties as a registered mechanical engineer, State of New Jersey, for a period of approximately 20 years. Now serves as Vice-President of the Board of Education, Bordentown, N. J.

In 1937 he organized and commanded the 1229th Reception Center while a Reserve Officer. He was detailed as Assistant Post Inspector and later as Post Inspector at Fort Dix, N. J.; Police and Prison Officer at Fort Dix in 1942; appointed to Schools Division ASTP in November, 1943; Detailed to Rutgers University, New Brunswick, N.J. as Executive Officer, and in February, 1945, as Commandant at the New York Medical College.

Wife's name: Florence Corson Thompson, who is a member of the faculty of Davis School, Camden, N.J., and a daughter of Newell S. Corson, a former sea Captain.

HONOR ROLL

The following are the names of our graduates in the armed forces of our Country received since the last issue, January, 1945 of the Chironian. The total now is 628.

Cohen, Sidney J. '12/43, 1st Lieut. M.C., A.U.S. Location unknown.

Crater, Kenneth E. '12/43, 1st Lieut, M.C., A.U.S. 0-478602, Oliver General Hospital, Augusta, Ga.

Flood, Hugh '12/43, Lieut. j.g., U.S. N.R. Destroyer Duty.

Grandi, Joseph '12/43, 1st Lieut. M.C., A.U.S., awaiting assignment.

Harrington, Donald F. '12/43, 1st Lieut. M.C., A.U.S., at a Base Hospital, Pearl Harbor.

Humphrey, Marvin E. '3/43, 1st Lieut. M.C., A.U.S., Northington General Hospital, Tuskaalosa, Ala.

Jackson, Irving, '12/43, 1st Lieut. M.C., A.U.S. Location unknown.

Lubart, Joseph M. '3/43, Lieut. j.g., U.S.N.R., in Philippines.

McNulty, James V. '12/43, Lieut. j.g., U.S.N.R., with Marines in South Pacific.

Nimaroff, Meyer, P. G., '43, Lieut. Comdr., M.C., U.S.N.R., U. S. Naval Hospital, Oakland, Calif.

Norrington, Eric G., '37, Lieut. j.g., U. S.N.R., assigned to Amphibious Forces.

Tchertkoff, Victor, '12/43, 1st Lieut. M.C., A.U.S. Location unknown.

Trambert, Harry L. '42, M.C., A.U.S. Rank and Station unknown.

Wilkens, Robert, '12/43, 1st Lieut. M.C., A.U.S. 0-466091. Overseas.

Winkler, Howard A. '12/43, 1st Lieut. M.C., A.U.S. 0-479383. A.A.B. Station Hospital, Casper, Wyoming.

IN MEMORIAM

Hallett, George DeWayne. '89, New York, N. Y. Dr. Hallett was born in Harwick Port, Mass. He graduated from the New York Homeopathic Medical College in 1889, and served on the Faculty of our College and Hospital for more than forty years, until illness caused his retirement about four years ago. He was a Diplomate of the American Board of Ophthalmology; a Fellow of the American College of Surgeons; a member of the American Academy of Ophthalmology and Otolaryngology; a member of the Homeopathic Societies of the State and County of New York, and a member of the Alumni Association of New York Medical College. Dr. Hallett died on March 14th, 1945; aged 79. He is survived by his widow, Mrs. Lillian M. Hallett.

Christian, William Wright, St. Paul, Minn., '95. Dr. Christian died in the Ancker Hospital, November 4th, 1944, aged 75, of hypertensive heart disease and myocardial infarction. He would have received his Gold Diploma in June of this year, in recognition of fifty years of service in the medical profession.

Crump, Walter Gray, Sr., '95, New York, N. Y. Dr. Crump was a native of Pittsford, New York. He graduated from Princeton University in 1892, and in 1895 he received his degree of M.D. from our College. He taught Surgery at the New York Homeopathic Medical College and Flower Hospital from 1897 to 1936, and since then has been Professor Emeritus of Surgery at the College and Hospital. He was also Consulting Professor of Surgery at the New York Polyclinic Medical School and Hospital, and staff surgeon on many other hospitals. He was one of the founders, in 1916, of the Broad Street Hospital, New York City, and for ten years was Chief Surgeon there. He also helped to found the New York Medical College for Women, and was a member of its staff until it closed in 1919. In 1928, Dr. Crump established a scholarship at the New York Medical College for

the exclusive use of Negro medical students, the first of its kind granted by a medical college in this country. He took a leading part in the Advancement of Negro Welfare and Education, and was a Trustee of Tuskegee Institute, Tuskegee, Ala., and Howard University, Washington, D. C. Having graduated in 1895, Dr. Crump would have received his Gold Diploma from our College, in recognition of fifty years of medical service, in June of this year. He was a Fellow and a Governor of the American College of Surgeons, a member of the Homeopathic Medical Societies of the State and County of New York, a member of the Alumni Association of New York Medical College, and several other medical societies. He also belonged to Alpha Sigma Fraternity, The Masons and the Dunham and Alpha Clubs. Dr. Crump died at the Flower and Fifth Avenue Hospitals on May 1st, 1945, at the age of seventy-five. His wife, Mrs. Eudora Crump, died in 1936. Surviving are a son, Dr. Walter Gray Crump, Jr., of Darien, Conn., and a brother, Dr. Irving J. Crump, of Long Beach, Calif.

Reed, Albert Sidney, '95, Corona, N. Y., was born in Beaufort, So. Carolina, on August 11th, 1869, the son of Rev. Harry G. and Mollie Gardner Reed. He received his academic training in the public schools of Beaufort and Charleston, and the Beaufort Normal and Industrial Academy. In 1891 he received his B.A. from Lincoln University, Pa. He returned south and served as Deputy Sheriff of Beaufort County for about one year. In October, 1892, he was admitted to the New York Homeopathic Medical College and Flower Hospital where he graduated with the degree of M.D. in 1895. He was married on January 25th, 1905 to Miss Daisy Cargile. He was Honorary Chairman of the Queens Clinical Society; member of the local school board for twelve years; was one of the founders of the Corona Congregational Church and served as chairman of the Board of Trustees for twenty-four years; was a former trustee on the Board of Directors of Lincoln University. Dr. Reed died of a heart attack on December

14th, 1944 while enroute to his office in New York City. He was seventy-five years old. He is survived by his wife, Mrs. Daisy C. Reed; a son, Corporal Philip H. Reed; a grandson, Philip Albert Reed; a daughter-in-law, Mrs Phyllis Reed; a brother, Isaiah Reed; and a niece, Georgia Cole. (Dr. Albert Sidney Reed would have received his gold Diploma on June 13th, 1945.)

Phillips, Robert Simmons, '00, Providence, R. I. Dr. Phillips was a member of the American Medical Association. He died on October 23rd, 1944, at the age of 71, of coronary thrombosis.

Shealey, Michael Joseph, '12, Anchorage, Kentucky, was formerly on the staffs of various Veterans Administration Facilities. He served as Senior Physician at the Central State Hospital, Lakeland. Dr. Shealey died on December 13th, 1944, at the age of 63, of heart disease.

Rich, Lieut. Arthur Lynton, M.C. A.U.S., graduate of the class of 1942, died as a result of wounds received in action. Lieut. Rich was battalion surgeon with the 9th Armored Division of the 1st Army in action at Remagen on the Rhine. While at the Medical College, Dr. Rich was president of the Phi Delta Epsilon Fraternity and after graduation interned at the Morrisania Hospital. He is survived by his parents, a sister, and his wife, Mrs. Rhoda Rich of Kings Point, N. Y.

WOMEN'S AUXILIARY CARD PARTY

The Dessert Card Party sponsored by the Women's Auxiliary, which was held at the College on Tuesday, April 10th, was a pronounced success. The attendance was very large and the College Lobby was gracefully decorated with Spring flowers. Two \$25.00 War Bonds and door prize were drawn for. Everyone had a good time.

PERSONALS

Please send personal items to the News Editor, 1 East 105th St, N.Y.C. 29.

NOTICE:

Addresses of Alumni in the service outside the United States cannot be published. Alumni desiring such addresses should apply to the News Editor.

1878

Charles McDowell. Mrs. Charles McDowell writes as follows: "Since the death of the beloved Dr. Blackman, Dr. McDowell can recall no living alumni of his time. He is suffering from a severe attack of shingles complicated with neuritis and a streptococcus infection. Owing to the very painful nature of his illness, he has to deny himself the pleasure of seeing his kind friends and content himself sending a message of love and good cheer. He urges his friends not even to send flowers since, all our efforts should be saved for the war emergency."

1886

Henry J. Hallock, Saranac Lake, N. Y., asks: "Who of the class of '86 are still living." According to our records, besides Dr. Hallock, there are: Dr. John W. MacMillan, 64 Glenwood Road, Upper Montclair, N. J. and Dr. Walter E. Thorpe, 19 High Street, Bristol, Conn. Dr. Hallock writes he will be 87 years old on March 13th, 1945; that he is still fairly active, and drives his own car. Our sincerest congratulations to you, Dr. Hallock.

1895

Edwin M. Schultz, Middletown, N. Y., writes as follows: "I have been here about fifty years in general practice, and now trying to retire, in my 79th year. Have served my City, County, State and twice the United States. In the Spanish-American war of 1898 served as private and Surgeon, 1st New York Volunteer Infantry in Hawaii, and volunteered again in 1917. Served over a year in France as Surgeon of the 164th North Dakota volunteers, and now when I volunteered they tell me I'm too old, but they would make a note of it. So Now!"

1901

Edwin B. Jenks, is the Founder and Director of the Diamond Point, (N. Y.) Emergency Medical Service. This Unit observed its third birthday on January, 26th, 1945, at the Diamond Point School. Dr. Jenks was presented with the official commendation by the New York State War Council, office of Civilian Protection, in recognition of work done by the unit. This was the second official commendation by the State War Council, in recognition of work done by the unit, the previous citation being for the emergency medical assistance at the time of the North Creek railroad wreck last year. Five reels of motion pictures were shown, refreshments were served, and dancing followed. Many persons prominent in the civic and social life of the district were present.

1912

Lt. Col Albert G. Hulett, writes: "A copy of the Chironian came into my hand today, the first in some three months, and in it I find a note re myself (with surprise) stating that I am overseas. Let me assure you that such item is eminently correct. Here I be "Somewhere in England", serving as Consultant in Pathology and Coordinator and Chief of Laboratory Service in a U. S. General Hospital. (his address is here inserted). I meet alumni of the "old college" here and there in my travels around this group. In such case I never fail to be asked "have you seen the Chironian lately?" If I reply in the negative, a copy comes forth for my perusal. So, you see, your efforts ARE indeed appreciated. Greetings and best wishes for your continued success."

1914

Harold L. Pender, Utica, N. Y. The Board of Trustees of the Utica Memorial Hospital have elected Dr. Pender as Surgeon-in-Charge. He replaces Dr. Arthur R. Grant, who resigned due to illness. While not an-alumnus of our College, Dr. Grant is a very good friend of our institution.

1915

Lopez Cassius de Victoria, has been appointed Honorary Police Surgeon for the Police Department, City of New York.

Martin I. Horn, Bridgeport, Conn., was elected president of the staff of St. Vincent's Hospital at Bridgeport, for the year 1945. Dr. Horn specializes in Obstetrics and Gynecology.

1917

Colonel James R. Boyd, has returned to this country from a long period of service in Africa, Italy and Corsica. Jim looks well but tired. He probably will leave the service in a short time. He has commanded three general hospitals. James R. Jr., pre-med., a Corporal in the United States Marine Corps, is now back from Saipan with a bullet wound and a purple heart.

1928

Alan R. Cantwell, has been made a Diplomat of the American Board of Orthopedic Surgery. He has been appointed Assistant Orthopedist for special surgery at our Hospital.

Captain Eugene A. Fierro. We are in receipt of a letter from Captain Fierro, dated March 15th, 1945, in which he says; "Have been in Germany for about one month, and working steadily most of the time. I love to be here where I can help our boys, but hope it will soon be over. Sam Moore '40 is stationed near here, and was in to visit me yesterday. He looks very well, and like the rest of

us is anxious to get home. Hyman Friedman, '35, is still with our unit, and still pays for my cigarettes every time we play gin rummy. I thought you would be interested in the enclosed clipping from today's Stars and Stripes. (clipping below). So long—regards to the Staff."

FIRST WEDDING ON RHINE

With—Corps—In the first wedding on the Rhine in territory conquered but a few days ago, Major Warner G. Cosgrove, Jr., of Headquarters —Corps and New York City, was married to Miss Betty Baker, ARC, of Mill Neck, L. I., N. Y. Major General A. C. Gillem, Jr.—Corps Commander, of Columbus, Ga., gave the bride away. Chaplain Edward A. McDonough, of Brighton, Mass. officiated.

Captain Samuel Steinholtz, who has been overseas several years, is back in the United States. His address is: 0-512089 Med. Det. A.G. and S.F. Redistribution Sta., Camp Butner, N. C.

1930

Captain Irwin I. Lubowe has been appointed Chief of Dermatology and Syphilology of U. S. Army General Hospital, Camp Edwards, Mass.

1931

Major Morris W. Greenberg's friends will find his photo in "Life" magazine, January 29th, 1945 issue, Page 23, lower right hand corner.

Captain Aaron J. Kolodny is now stationed at Camp Stoneman, Calif.

1932

Captain Leon Kellman writes: "My outfit has been in this Netherland possession for some time, really earning our pay. It is busy. The last few months I have spent on the N. P. service. I find it almost as interesting as was pediatrics in the old days. The army is sure giving me a varied experience. Hope all is well back in the States." (Captain Kellman is somewhere in Dutch New Guinea.)

Colonel David McCullagh Mayer, is again serving with a general hospital overseas, this being his second time on the fighting front. He would like to hear from his friends at the College. For address write to the News Editor.

Abner I. Weisman is now Medical Officer-in-Charge of the Crow Creek Hospital, Fort Thompson, So. Dak. He would appreciate hearing from his friends. Address: P. A. Surgeon, U.S.P.H.S. (R), Fort Thompson, S. D.

1933

Captain Mayer S. Kaplan, writes that he appreciates reading the Chironian very much. He is on board a large Hospital Ship, at present somewhere in the Central Pacific, and would welcome visits from any of the gang, as he would like to show them through the ship. (Captain Kaplan is very anxious to hear from any of his classmates or college friends. His address can be obtained from the News Editor.)

1935

Sander V. Smith. On January 1st, 1945, Dr. Smith was transferred from the Coney Island Hospital to the Queens General-Triboro Hospital, Jamaica, N. Y., in the same capacity, as Deputy Medical Superintendent.

1936

Lieut. Joseph D. Cuono, writes: "Have been assigned to duty aboard an assault cargo ship since February, 1944. Participated in the amphibious assaults on Guam and on Leyte and Luzon in the Philippines. For special meritorious service, received citation at the Guam operation. Several papers have been accepted for publication in the U. S. Naval Medical Bulletin, on thoracic subjects. Recently was designated Thoracic Surgeon for a division of ships by the Transdivision Medical Commander."

Captain Julius Dobkin who took part in the African and Italian Invasions, is now doing internal medicine at a station hospital in Italy. He is the father of a baby boy, about 18 months old, who he has never seen.

Chester S. Heimlich, has been promoted to Captain and is now located somewhere in Germany. He sends his thanks for the Chironian.

Captain Donald S. Jurnove, was Commander of a Medical Detachment, Infantry regiment for 18 months. Was returned to inactive status in 1942 because of injuries sustained in service. For the past three years he has been Resident Surgeon at Post Graduate Hospital. Was married on November 30th, 1944 to Miss Ruth Buchman. He is now practicing surgery in New York City. He would like to hear from any of his classmates.

Lieut. Willard H. Lemmerz. At present Lieut. Lemmerz is serving on board one of our Battleships, and is somewhere overseas. In November, 1942, he received an honorable discharge from the Army due to a fast pulse and slightly above normal blood pressure. The U. S. Public Health Service passed him that same year, so at present he is serving overseas.

1937

Lieut. Comdr. Wilbur B. Brett left on April 20th for a tour of duty in the Pacific area.

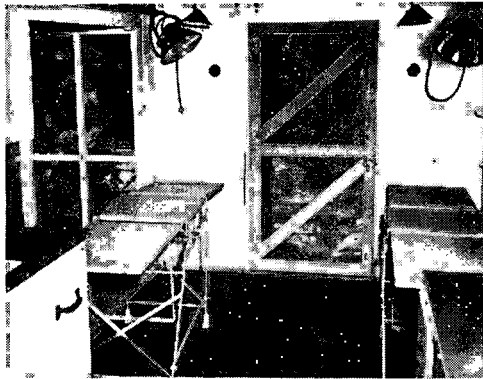

Captain Alex R. Chalian, is now overseas with the—General Hospital, A.P.O. 18678, c/o P. M., New York, N. Y.

Major Thomas F. Lynch, is now somewhere in Hawaii, as Executive Officer and Chief Surgical Officer of a field hospital. Major Lynch has been in the service since July, 1941, serving 21 months on Trinidad, B. W. I.

Lieut. Walter L. Mersheimer, wrote the following to Dr. Fobes: "Thank you very much for your

recent letter and the News Bulletins of your post graduate group. During recent months I have moved about considerably. Last November left the Marshall Islands and returned to Pearl Harbor. Stayed there for a few weeks, and then was sent by air to the Medical Bn. of the—Amphib. Corps—a jaunt of some 3,500 miles to the S. W. Pacific (not permitted to give location). The new organization is the best I've had out here, nearly all the assigned men are specialists, general surgeons, orthopedists, ophthalmologists, E.N.T., urologist and even a neuro surgeon. When the outfit was on Gaum, they operated a 1,500 bed hospital, and in our own operation hope to have just as big a set-up. Was afraid the Mobile O.R. would not arrive down

here, so I designed a new one which was built by a CB outfit. It is complete with generator for electricity, running water, air conditioned, gas decontamination unit, large enough to do two major cases simultaneously, carries all its own supplies (enough for nearly a dozen majors % resterilization) also has autoclave and instrument sterilizer, O.R. illumination 4 Castle lamps mounted on horizontal rods. I've asked Janet to send you a set of pictures of the unit. After it was finished, the other Mobile O.R. arrived, so I had it remodeled, and I hope improved. I've been overseas more than a year, and have my heart set on returning by August of this year—even that looks too far in the future. Hope that everything is going well at the College. My best wishes to you."

Major Thomas Lynch. We have notice of a change in address for Major Lynch. Any of his friends wishing to write to him should address the News Editor.

Lieut. j.g. Eric G. Norrington is assigned to the Amphibious Force of the Navy. He recently met Lieut. j.g. Elias R. Stoller, '12/43, somewhere in Hawaii.

Maurice Re., '37, Palisade, N. J. Dr. and Mrs. Maurice Re announce the arrival of a baby boy, Richard Noah, on September 4th, 1944.

Herman Reinstein, writes that he is still in Holland, having visited a few places in Germany. He recently met Joe Messina, class of '38, who is now stationed in a general hospital in Paris. He sends his regards to all his classmates.

1938

Major Malcolm L. Colmer is somewhere in Italy with the Army Air Forces.

Captain John Brice Plass is a patient at the

Fitzsimons' General Hospital, Denver, Colo. He would like to hear from friends at the College.

1939

Anthony M. La Salla is now in practice in the specialty of Eye, Ear, Nose and Throat, and is located at Kew Gardens, L. I., N. Y.

1941

Captain William J. Muser writes: "Received 1st issue of Chironian (Jan.) on March 3rd. It certainly brought back many memories of past events and old friends. I have been in the army 2 years and 9 months; overseas 7 months. Have served constantly as the Surgeon for an Engineer Battalion. This unit played an important role in the Ardennes 'Battle of the Bulge' in December and January. I'm sure you've heard of a town called Bastogne. Now located in Germany, sweating out the push to the Rhine. Have seen no New York Med. Grads. Did see Capt. Jack Geckler in Luxembourg in early February. He is chief Anesthetist with an Evacuation Hospital."

1942

Captain George G. Bruzza writes from "Somewhere in Belgium" that he delivered a baby girl to one of the inhabitants of the little village where he is stationed. His assistants, members of his medical detachment, had never seen a birth before, and were quite nervous before the event, however, everything worked out nicely. He also pulls teeth and does a little dentistry, so that his experiences are quite varied and interesting. George was awarded the Silver Star Medal and the Order of the Purple Heart for wounds received in action. The citation for the Silver Star Medal reads: "Captain George G. Bruzza, 0-439339, Medical Corps—Field Artillery Battalion, United States Army. For gallantry in action on August 10th, 1944, near—France. Captain Bruzza, although wounded himself, continued to care for the wounded under intense artillery fire, with utter disregard for his own safety. His resolute and courageous devotion to duty reflects great credit upon himself and the finest traditions of the military service. Entered military service from New Jersey." George says he is looking forward to the last campaign. He sends best wishes to all his friends at Flower.

Captain William P. Magee writes: "Surely appreciated the Chironian. It was the first news I've had from Flower. After all of us parted at Carlisle, Bill Martin and I ended up in an Army Clearing Company under Major Harold T. Golden, another alumnus, '36. After a few months Bill went to a Q.M. outfit and I to the command of a Collecting Company. When Harold's company was alerted for overseas, I asked for a transfer and was lucky enough to get it. We spent some time in Africa, then to Italy to do our bit in the breakout out of Anzio. Then our big day—D-Day in Southern France. We were lucky enough—little opposition—but since then have put in a couple of 36 hour stretches. Right now Harold has two hospitals under his wing—a Neuropsychiatric, that I'm coordinating for him, and a V. D. Saw Harry L. Trambert, '42 in Africa. That's about all, except of course, Grace and I are the proud parents of a 22 months old girl, and a 6 months old son. Am I happy? Yes. Do I miss my family? You bet! Letters from friends at the College will be appreciated."

MARCH, 1943

Lieut. Maurice M. Black writes: "I am no longer with a hospital unit but rather with a live outfit—up where the stuff really flies around. However our work is not very taxing on our professional skill—we are more traffic-cops than anything else. There is much to be learned, though, of human reactions in unusual circumstances. Just now I am in Belgium and have been through France—been to Paris on two occasions." He also states that while in the hospital he had an opportunity to do some original biochemical experiments.

Lieut. Howard Davidman is now overseas with an Airbourne Medical Company.

Captain Ralph Waldó Ellis received his promotion to Captain on December 16th, 1944. He saw a great deal of combat duty as Battalion Surgeon with the Army. He was transferred recently to a clearing company. Expecting baby in April.

Lieut. j.g., Peter J. Guthorn writes that he is "somewhere in the Philippines" where he met Lieut. j.g. Joseph M. Lubart, a classmate of his, and Lieut. j.g., Peter G. Cassone of the class of 1942.

1st Lieut. Marvin E. Humphrey is doing orthopedic work at Northington General Hospital, Tuscaloosa, Alabama.

William E. King has been promoted to Captain, and is somewhere in Germany. He is a Battalion Surgeon with the Infantry.

1st Lieut. Joseph F. Maiorano, Jr., is engaged to Miss Helen Manning, Cadet Nurse, Hospital of St. Raphael, New Haven. Lieut. Maiorano is somewhere in England with a Station Hospital.

Lieut. j.g., John Robert Martin, Adeline Weirich Martin, '12/43. Lieut. and Mrs. Martin announce the birth of Anne Louise last July. Bob and Adeline are at Norfolk, Va.

Lieut. Commdr., Meyer P. G. Nimaroff is now located at the U. S. Naval Hospital, Oakland, Calif. He writes that he enjoyed a nice trip to California, and is happy in doing X-Ray work.

Captain Etienne R. O'Brien writes: "Just a break from combat to notify you that I was promoted to Captain in the medical corps, I operate a battalion and station in a field artillery battalion. I think of the New York Medical College frequently, and also enjoy hearing from you. We are putting all the principles of the New York Medical College to use." Captain O'Brien is somewhere in Germany.

Lieut. James J. O'Rourke is stationed in a general hospital in France. He is the daddy of a baby girl born on January 7th, 1945.

Captain Howard B. Rasi received his promotion to Captain on December 16th, 1944. He is an anesthetist on general surgical team with the army. He received the July issue of the Chironian on December 24th and was delighted to read all the news. He wishes to congratulate Dr. Frank Borrelli, '33 on his election to the presidency of the Alumni Association. He also hopes to receive future copies of the Chironian.

DECEMBER, 1943

Lieut. j.g., Hugh Edward Flood was in New York for a few days recently. He is assigned to a Destroyer, and brought the news that James V. McNulty '12/43, is with the Marines in the South Pacific, and Donald F. Harrington, '12/43 is at a base hospital at Pearl Harbor.

1st Lieut. James Gesualdi is now overseas.

1st Lieut. Joseph Grandi is recuperating at Fitzsimons General Hospital, Denver, Colo. He would like to hear from his friends at the College.

1st Lieut. Louis J. Iandoli writes: "Since I left Lincoln, A.A.B. I have done quite a bit of traveling. After two weeks at Lincoln, I was transferred to Tucson, Arizona, to partake in the medical program of Davis-Marthan Field. I had the good fortune of meeting Dr. Witzberger. Did not have much time to spend with him. He looks fine and is enjoying Tucson, (who wouldn't). After eight weeks at D. M. Field, I was transferred to Dyersburg, Tenn., where it rains five days per week resulting in swamps and mud. I am beginning to think that the composer of the song "Stormy Weather" must have been a Tennessean. While at Davis-Marthan Field I met a former intern of the Fifth Avenue Hospital, class of 1926: He is chief of surgery down there. His name is John Fawster, Major. Together we had quite a session talking about the Flower-Fifth Avenue Hospital. I hope that I will always receive the Chironian no matter where I'll be in the future." Present address: 0-478337. A.A.F. Hq. Box 156, Dyersburg, Tenn.

1st Lieut. Walter X. Lehmann is enjoying all the glories of California while doing Psychiatric medicine at Santa Ana Army Air Base—but says he will take New York with its ice and snow any day.

Lieut. j.g. Edward S. Ryan was married to the former Miss Cathleen Wynne of New York City on December 23rd, 1944. Lieut. Ryan is now serving overseas.

Adelaide Scanlon, who is now doing Pediatrics at the N. Y. Foundling Hospital, expects to return to Metropolitan Hospital on April 1st for the Residency there.

1st Lieut. Robert Wilkins, formerly stationed at Colorado Springs, and Fort Lewis, Wash., is now overseas with the—General Hospital, A.P.O. 17604 c/o P. M., New York.

Lieut. Howard A. Winkler and Mrs. Winkler are expecting an heir very soon. Address: 0-479383. A.A.B. Station Hospital, Casper, Wyo.

1944

Betty Porter Buckmaster received an appointment of Resident in Obstetrics and Gynecology at Bellevue Hospital beginning July 1st.

Robert E. Buckmaster is staying at Metropolitan Hospital after his internship, as Assistant Resident in Surgery.

Margaret E. Crusius has been appointed Assistant Resident on Pediatric staff at Metropolitan Hospital beginning July 1st.

Charles Varga whose internship at the Jersey City Medical Center terminates on June 30th, has received two appointments. The first is that of Resident Physician at the Willard Parker Hospital for six months starting July 1st, 1945, and the second is that of Resident Pediatrician at the New York Post Graduate Medical School and Hospital for a period of two years starting January 1st, 1946.

Israel S. Kleiner, Professor of Biochemistry and Physiology, delivered a lecture before the New York Section of the American Association of Cereal Chemists. His subject was "Some newer aspects of carbohydrate metabolism."

SENIOR CLASS OF JUNE, 1945

- Eugene Adelson, A. B.,
University of Pennsylvania-----Brooklyn, N. Y.
- Arthur Malcolm Arkin, B. S.,
University of Chicago-----New York, N. Y.
- Anna Maria Arroyo, A. B.,
Hunter College-----New York, N. Y.
- Alfred Gabriel Baldassare, B. A.,
New York University-----Astoria, N. Y.
- Anthony Joseph Barbaccia, B. S.,
Long Island University-----New York, N. Y.
- Marvin Baum, A. B.,
University of Alabama-----Paterson, N. J.
- Bernice Scott Begeman, B. S.,
College of St. Elizabeth-----Montclair, N. J.
- Lenore Mary Berkery, B. A.,
St. Joseph's College-----Far Rockaway, N. Y.
- Michael Howard Berman, B. S.,
University of Michigan-----Brooklyn, N. Y.
- Louis Sebastian Blancato, B. S.,
Fordham University-----New York, N. Y.

SHOULD VITAMIN D BE GIVEN ONLY TO INFANTS?

VITAMIN D has been so successful in preventing rickets during infancy that there has been little emphasis on continuing its use after the second year.

But now a careful histologic study has been made which reveals a startlingly high incidence of rickets in children 2 to 14 years old. Follis, Jackson, Eliot, and Park* report that postmortem examination of 230 children of this age group showed the total prevalence of rickets to be 46.5%.

Rachitic changes were present as late as the fourteenth year, and the incidence was higher among children dying from acute disease than in those dying of chronic disease.

The authors conclude, "We doubt if slight degrees of rickets, such as we found in many of our children, interfere with health and development, but our studies as a whole afford reason to prolong administration of vitamin D to the age limit of our study, the fourteenth year, and especially indicate the necessity to suspect and to take the necessary measures to guard against rickets in sick children."

*R. H. Follis, D. Jackson, M. M. Eliot, and E. A. Park: Prevalence of rickets in children between two and fourteen years of age, *Am. J. Dis. Child.* 66:1-11, July 1943.

MEAD'S Oleum Percomorphum With Other Fish-Liver Oils and Viosterol is a potent source of vitamins A and D, which is well-taken by older children because it can be given in small dosage or capsule form. This ease of administration favors continued year-round use, including periods of illness.

MEAD'S Oleum Percomorphum furnishes 60,000 vitamin A units and 8,500 vitamin D units per gram. Supplied in 10- and 50-cc. bottles. 83-mg. capsules now packed in bottles of 250. Ethically marketed.

MEAD JOHNSON & COMPANY, Evansville 21, Ind., U. S. A.
