## ALUMNI DAY

Alumni Day was observed on Tuesday, June 12th, 1945. Due to the present war and traveling conditions, and the fact that all our alumni are so very busy with their practices, both private and here at the hospital, the Board of Directors of the Alumni Association again voted to omit the scientific session. All alumni were invited to a luncheon on the Roof Garden of the Cafeteria at 1:30 P. M. as guests of the Board of Trustees of the College and Hospital. The luncheon was excellent and was greatly appreciated by those present. Following the luncheon the annual business meeting was held in the College Auditorium. The meeting was called to order at 2:30 P. M., President Frank J. Borrelli, M.D., presiding. After a motion that the minutes of

Dr. Borrelli addressing the luncheon group

the 1944 annual meeting be accepted as read, the president addressed the meeting. He said he was pleased to report on the close feeling of cooperation and confidence between the Association and the Board of Trustees of the College and Hospital. He recalled the beautiful hand carved Mace of ornate design which had been presented to the College by the Alumni Association, which will be carried at the Commencement Exercises, and other convocations of

the College. He thanked the officers for their faithfulness in attending meetings, and spoke of some of the older alumni who have served as officers so faithfully and well for many years. In his opinion they deserved a well earned rest, and suggested that they gradually be replaced by younger men, to take on these duties. He favored a special fund inside the Alumni Association for helping needy alumni, and that a committee be appointed to consider and make suggestions, so they can be acted upon at the next annual meeting. He spoke of Dr. Edward M. Bernecker, Commissioner of Hospitals of the City of New York, who is such a very good friend of our Institution, and suggested that he be elected to Honorary Membership in the Alumni Association. In speaking of the Banquet to be held at 7:30 P. M. at the Yale Club, he said the prospects for a good time and a large crowd were very promising. He then announced the Commencement Exercises of the College, which would be held the next day, Wednesday, June 13th, 1945 at 3 P. M. at the New York Academy of Medicine.

---

There being no old business to attend to, the reports of officers and committees were in order.

---

The secretary reported that four meetings of the Board of Directors and one meeting of the Publication Committee were held during the year, at which regular routine matters of the Association were acted upon. At several of these meetings the change of format for the Chironian was discussed and finally decided upon, the April 15th, 1945 issue resulting. The new publication committee appointed were:

Dr. Joseph H. Fobes, Editor and Chairman

Dr. Leonard P. Wershub

Dr. Frank J. Borrelli

Dr. J. Clifford Hayner

Mr. C. Tritsch

---

The Treasurer's Report showed assets of \$1,860.21 on May 1st, 1945, Dr. Leonard P. Wershub, Treasurer.

Dr. Moore read the Necrologist's report which listed twenty deaths during the year, all appearing in detail in the Chironian. Among these were two of our most beloved alumni, Dr. Jeremiah T. Simonson and Dr. Walter Gray Crump, Sr., and Lieut. Arthur Lynton Rich, of the class of 1942, who died from wounds received at Remagen, on the Rhine.

In reporting on the Chironian, Dr. Fobes said that the cost of issuing the Chironian was rising steadily, especially since we adopted the new format, but the April issue had received so many congratulatory remarks, and that the men in the service look forward with so much appreciation to receiving news of their Alma Mater, that we at home must make every effort to continue its publication.

Dr. Wershub then reported for the Banquet held on September 27th, 1944 at the Yale Club. The report showed Income over Expenses of \$15.56.

## PERSONALS

Please send personal items to the News  
Editor, 1 East 105th St, N.Y.C. 29.

### NOTICE:

Addresses of Alumni in the service outside the United States cannot be published. Alumni desiring such addresses should apply to the News Editor.

1891

Dr. Herbert W. Foster of Montclair, N. J., wrote the following to Dr. Fobes: "Congratulations on the new number of the Chironian. It is a peach, also very interesting. When and if you ever retire from surgery, you could easily and efficiently do editorial work anywhere you would like to go. This, seriously, will be an asset to our good old Alma Mater."

1895

Dr. Nathaniel H. Ives, one of the golden grads of our College, was recently elected an honorary life member of the Board of Managers of Mount Vernon Hospital, in recognition of fifty years of service to the hospital. During this time, Dr. Ives has become one of the best known physicians in Mount Vernon. He is a member of many medical societies.

1905

Charles A. Croissant of Worchester, Mass., writes that he has three sons and one daughter. Their names are Raymond, Paul, Robert and Carol A. Raymond is a Major in the United States Army and is stationed at Fort Leonard Wood, Mo.

1907

Otis J. Case is a Commander in the Navy, and is stationed at U. S. N. Hospital, at Sampson, N. Y.

1909

Dr. Howard L. Maps, writes the following letter: "Two years ago last January, I retired from the practice of medicine, sold my home in Passaic where I had been for 35 years, and moved to the Country Club Estates, Budd Lake, N. J., where I now live. I am suffering from hypertensive angina, unable to work but get along fairly well most of the time. Should any fellow member of the Association come up this way, I would be very glad to see him. With kindest regards to all, I am as ever."

1922

Leon M. Herbert, formerly of New York City, and now located at 103 West 2nd Street, Winslow, Arizona, had an article in the January, 1945 issue of the New York Medical Record entitled "Three Interesting Cases." One dealt with a case of Multiple Sclerosis, Apoplectiform type, one with a case of Subacute Bacterial Endocarditis developing before his eyes, and one with a case of Ariboflavinosis.

1928

Alan R. Cantwell, New York, N. Y., has been appointed Assistant Orthopedist at the Hospital for Special Surgery (Ruptured and Crippled Hospital).

Julian Wolff has been promoted to Major. He is with a Base Hospital "somewhere in the Philippines."

1930

Captain Max B. Fershtman, graduated from the Army's School of Military Neuropsychiatry on May 12th, 1945 at the Mason General Hospital, Brentwood, N. Y. His home address is 2174 Davidson Avenue, Bronx, N. Y. His brother is also in the service, M/Sgt. John Fershtman.

1931

Captain Aaron J. Kolodny, writes the following: Received my first copy of the Chironian in more than six months, and it was like a letter from home. At present am with the Medical Staging Service, Camp Stoneman, Calif., where I am kept busy giving our boys their final check before they take off for the Pacific. While at Fort Jackson, some 6 months ago, I ran into two of our Flower Alumni, Major George Stein, 1931, who is now overseas with an evacuation hospital, and Captain Jackie Katz, 1930, who was stationed at Fort Jackson with a Porto Rican Artillery outfit, with which he had recently returned from overseas. Many thanks for the Chironian; please keep it coming.

Alexander Libow is now practicing at 541 Lincoln Road, Miami Beach, 39, Florida.

Leopold H. Wienick, has been promoted to Captain, and is "somewhere overseas." His address can be obtained by writing to the Editor.

1932

Dr. Arthur Frucht, formerly of Westbury, L. I., and a Captain in the A.U.S., has been honorably discharged from the Army. He has resumed practice in Nassau County.

Captain Leon Kellman, wrote the following letter somewhere in the Pacific Area to Dr. Borrelli. "Was quite glad to get your letter. We have been moving recently, and I was a wee bit busy and didn't have a chance to answer sooner. The outfit is resting now. All we do is lie on the beach all day, take an occasional dip, and return to the beach. This won't last too long. We hope to be moving again, quite soon."

Colonel David McCullagh Mayer, commanding the . . . General Hospital in France, advises that this was the farthest advanced General Hospital when things were rough, and has a 1500 bed capacity. Captain Stanley H. Shumway, '41, who was formerly with combat troops, has been serving with Colonel Mayer since March.

1933

Lieut. Jack Fishman, M. C., U.S.N.R., and his wife Florence, announce the birth of a son, Samuel Alan, on April 8th, 1945. Lieut. Fishman is stationed at the U. S. Naval Frontier Base, Tompkinsville, N. Y.

Commander Emil E. Napp, entered the service in June, 1941. He recently was awarded the Bronze Star "for meritorious achievement in action against the enemy at Peleliu and Ngesbus Islands, Palau Group, during the

period of September 15th to October 20th, 1944. Commander Napp, as commanding officer of a medical battalion of a marine division, displayed exceptional zeal and initiative in the medical problems that confronted him. Although his medical companies were under fire on numerous occasions, he so tirelessly supervised and so strictly coordinated the processing, treatment and evacuation of casualties that many lives were saved. His devotion to duty was in keeping with the highest traditions of the United States Naval Service."

The ribbon accompanying his Bronze Star will be the seventh to adorn his uniform. He has already received the Silver Star, the Navy and Marine Corps Medal, the Purple Heart and the Presidential Unit Citation. He also wears the American Defense ribbon for service prior to Pearl Harbor, and his Asiatic-Pacific Area decoration carries four combat stars. Since receiving the Bronze Star, Commander Napp was sent back to the United States for a breathing spell, and is stationed at the St. Albans Naval Hospital, St. Albans, L. I., N. Y. until reassigned.

Captain Jacob Saltzman, writes that on V-E Day he was sailing along the Grand Canal in Venice. He says that the gondoliers are all they are cracked up to be, and their singing is something to be remembered. Captain Saltzman established the hospital on the beach at Salerno, having gone ashore with the first wave of troops. He has been very lucky so far. Although engaged in many battles, he has escaped all injury. He sends his regards to all his friends at the College.

1935

Lieut. Vincent T. Laquidara, U.S.N.R., of Troy, N. Y., has been in the service since June 1st, 1943, and before being assigned to duty with the fleet had been stationed at the Naval Training Centers at Sampson, Solomon, Maryland and Norfolk, Va. Lieut. Laquidara took part in the invasion of Southern France, and at present is assigned as medical officer at the Navy recruiting station in Buffalo, N. Y.

1936

Captain Joseph A. Budetti, writes: "When 1st Lieut. Kenneth E. Crater, M.C., class of December, 1943, reported as Ward Officer to Captain Joseph A. Budetti, M.C., Chief of Ear, Nose and Throat Section at the Oliver General Hospital, Augusta, Ga., he recognized his old instructor who had given him part of his ENT lectures in his junior year, it made a happy combination."

1937

Captain Alex R. Chalian, writes: "Did not connect with last assignment to E.T.O. Still in training at home station. May meet some honorary Aryans soon who say "So Solly" or do they. Have yet to meet a Flower grad since I've been in the Service, but am still hoping." Captain Chalian's present address is 0-356519, Station Hospital, Camp Rucker, Ala.

Major Elias Livingston, M.C., advises that after several years in India, he recently returned to the United States and finished a course at the Command and General Air Staff at Fort Leavenworth, Kansas. He is now located at Esler Field, Alexandria, Louisiana, as Chief of the Medical Division.

1938

Dr. and Mrs. Harold Aaron announce the birth of a daughter, Beverly Lynn, on April 15th, 1945.

Dr. and Mrs. Sidney L. Green, announce the birth of a son, Stephen Lloyd, on April 9th, 1945. Dr. Green is in private practice devoted to psychiatry. For the past year he has been consultant psychiatrist to Youth House, detention home for delinquent boys.

Captain Peter A. Miceli, writes: "Since I wrote you in October, 1944, asking for news of classmates, I was fortunate in meeting Joe Messina, '38 somewhere in Normandy. Later too, I met Herman Reinstein, '37 now on leave in Paris, perhaps due to return to the States. I am now serving with an evacuation hospital after seeing service as a battalion surgeon with the . . . Division. Life here is much more comfortable than heretofore. We are billeted in German households, and find the people very obliging, even subservient. However, they are completely naive, and completely indoctrinated with Nazi thought. Most of them make a great show of deriding Hitler and the Nazis, but I don't believe they are sincere. Have nothing much to look forward to except more time here with occupation forces, or the Pacific."

Captain Lawrence J. Sconzo, writes that he is still with the . . . Armored Division in Germany, but at present is on temporary duty for one month at the . . . General Hospital also in Germany. I am on the surgical service, and am doing quite a bit of surgery here. I hope to be home soon, but don't know exactly when. Remember me to everyone.

1939

Dr. Harold S. Wadro, recently discharged from the Army where he held the rank of Captain, has resumed the practice of medicine at 10 Downing Street, New York 14, N. Y.

1940

Captain Ardow Ameduri, writes that he is somewhere in China, and that he is way behind in the news of the College and Hospital. He says he had the pleasure to come across Jesse Hymes, who was resident in G.U. at the Met. in 1939 and 40, and also Fogliano, class of 1936, who was resident on E.N.T. at the Met. about the same time. He would like to hear from Thomas Mar, class of 1940.

Lieut. Samuel B. Moore, Jr., is still in Germany. He expects to be returned to this country in the near future.

1941

Captain Bruce Alicandri, who has been overseas for several years, paid a visit to the Alumni office recently. He is now stationed at A.S.F.T.C., Medical Section, Fort Lewis, Wash., and would like to hear from some of his classmates.

Major William H. Hewes is "somewhere on Okinawa Island."

Dr. Lawrence Meyers, New York, N. Y. Upon completion of two years as Medical Resident at the N. Y. Post Graduate Medical School and Hospital, and Columbia University Research Assistant in Medicine, announces the opening of his office at 502 Park Avenue on July 2nd, 1945, with practice limited to internal medicine. A paper which he delivered at the Academy of Medicine has been accepted for publication in the American Heart Journal.

Lieut. s.g., Edward M. Wurzel, formerly with a division of paratroopers in Europe, is a Flight Surgeon with the Marines, and has been stationed with several naval hospitals here in the United States. He paid us a visit recently, and says he expects to be sent to the Pacific Area in the near future.

Captain William J. Muster, sends us the following interesting letter. "Received the April edition of the Chironian a few days ago. The personal items column certainly serves as a strong reminder of days gone by and also of days to come. Also noted the announcement of the death of Lt. Arthur Rich, class of '42 who was serving with my Division, the . . . Armored, prior to the time that we reached the Rhine river at Remagen and captured intact the now famous Ludendorff Bridge, to establish the first bridgehead on the east bank of the Rhine. It was not long before the division moved on to Limburg and then sweeping north and east again, moved along with the . . . Armored Division to complete the encirclement of the huge German forces in the Ruhr pocket. Shortly thereafter, the division spearheaded the 1st Army's next push to the city of Leipzig. Just as the advance elements were about to contact the Russian army which was moving westward to the Elbe river, our division was ordered off the line and pulled into reserve, while the infantry went forward to meet the Russians. This caused considerable comment by the men who felt that they had been cut out of a great historical event. Our reserve status did not last very long however, and the division was again called upon to assist in the attack on Czechoslovakia. When V-E Day arrived the advance elements of the division were well into Czechoslovakia along with the famous . . . Infantry Division. The men received the news of victory very quietly and with notable relief that the job was at last completed. There was no shouting, singing or drinking parties such as might be expected, but rather a sense of release from one task and the realization that still another must be accomplished; the hard way. Would be glad to see a recent graduate relieve me of my duties with this outfit. So far we have seen no evidence of the much talked of Rotation Plan for Medical Officers. Three years is a long time, brother."

Captain Henry Terwedow, writes the following interesting letter: "In your recent letter you requested some news items about myself. At present I find it hard to recall any specific events of interest even though there are many. Instead I will give you a brief report of my two years of activities overseas. In the middle of March, 1943 we left the states aboard an L.S.T. for Africa. Thirty-two days passed before we set foot on soil at a place called Arzew (70 miles east of Oran). After a short stay, went to Algiers, Constantine and Tunis. Shortly afterward, returned to Arzew by motor convoy over 400 miles of desert and mountains. At Arzew an L.S.T. was waiting for us for the Sicilian invasion. Two weeks were spent in cruising the ports of North Africa. On July 10th, we found ourselves on the beach of Sicily attached to the . . . Infantry Division. Near the end of the campaign, I was almost captured while on a detail of combing the hills for wounded men. The campaign ended suddenly and plenty good swimming resulted, to wash away a two months accumulation of dirt. Not enough work, plus one party too many, resulted in a permanent transfer to the . . . Infantry Division as Battalion Surgeon. About the middle of October, 1943, left Sicily and returned to England. This time it only took 18 days to reach Scotland. For 8 months we settled in the small town of Swanage. During this time we underwent strenuous training. For a ten days period I was sent to the Hammersmith Hospital, London, for post graduate lectures. The early part of June, 1944, found us again on board an L.S.T. On the 6th of June found myself on Omaha Beach, established by the . . . Infantry Division. After passing the beach obstacles and a regrouping, pushed inland. In one week pushed to Caumont, France, and remained there for one and one-half months on a ridge while the jerries fired at us 24 hours of the day. A few days relief and then came the now famous breakthrough. This time we reached Paris. Going around, the latter to the Belgium border, and on thru Belgium in one week to Germany. September 16th, 1944 found us inside Germany fighting hard every inch of the way. In one small town took time out to deliver a 7½ pound baby boy. My claim to the first American Doctor to deliver a baby in Germany at this time. My Battalion returned to Aachen for a brief rest and then joined to take the town. On October 15th, a 81 mm mortar shell exploded in the Aid Station, killing my assistant and inflicting a right ulnar paralysis on myself. Then the long chain of evacuation back to the states, which was reached in March."

1942

Thomas D. Benson was recently promoted to Captain. He is with a field hospital, somewhere in the Philippines. It is very interesting to note that his outfit has participated in every invasion of the Pacific area, and to date have been very fortunate in that they have had no deaths to report. Dr. Benson is the father of a baby girl, born on July 3rd, 1945. His address can be had on request to the Alumni office.

Captain William Preston Magee has been awarded the Bronze Star Medal. The citation reads:

"William P. Magee, Captain, Medical Corps, 616th Clearing Company, for Meritorious service in direct support of

combat operations from 4th to 22nd September, 1944, in southern France. Despite the lack of adequate training for the position, Captain Magee assumed the duties of emergency commander of the 7th Army Convalescent Center (Provisional) at a time when it was handling a large number of patients. Overcoming the handicap of untrained and inadequate personnel and of supply difficulties incident to an isolated, provisional unit, Captain Magee, through his untiring and conscientious efforts, and his exemplary leadership, operated this hospital in a manner that elicited noteworthy commendation."

Captain Magee was a resident of the Palisade section of Fort Lee for 18 years, graduated from Fort Lee High School, Fordham University, and the New York Medical College and Flower Hospital. He served his internship at St. Mary's Hospital, Hoboken, and is a diplomate of the National Board of Medical Examiners.

Captain Vincent J. Merendino writes, that he heard from Captain Joe Shapse, '42 who made a landing 4th hour plus 30 minutes on the Philippines, and has been kept moderately busy since then, sweating out discharge with 80 points. He was also pleased to get a visit from Bill McGee, '42 and Waddie Procci, '41, while in France, back in March. Captain Merendino is still with an evacuation hospital in Bavaria, midway between Salzburg and Munich, and that the biggest disappointment of the war was the famous Munich Beer, can't hold a candle to Pellegrino's best. He sends his best wishes to all the lads and lassies.

Albert M. Silver, recently received his promotion to rank of Captain, and is now "Somewhere in India."

Lieut. Leon Small, who has been with the U.S.P.H.S. for two years, recently had a five day leave of absence, and paid a visit to the office of the Alumni Association. For the past nine months he has been on a warship escorting convoys.

Captain Leonard C. Veneruso writes: "Am now at Scott Field, Ills., on Orthopedic service at the regional hospital here. Have heard regularly from Paul C. Shiarella, class of 1942, with a general hospital in France. Would appreciate information about John H. Faber, class of '42 Am now a proud father, Donna Marie, age eight months."

John B. Unger is now in private practice at 309 West 3rd Street, Santa Ana, Calif. Dr. Unger was formerly located in Ithaca, N. Y.

### MARCH, 1943

Captain Morris Bass and Lieut. Jack August recently met in England, and spent their leaves in Southport. Captain Bass is a member of the Neuro Surgical service at a General Hospital and Lieut. August is chief of anesthesia at another general hospital. Both enjoyed reading the April issue of the Chironian.

Ruth P. Lewis writes: "I have temporarily taken up the duties of an Army housewife at 2045 White Street, Alexandria, La., to stay with my husband, Lieut. I. Kartud, psychiatrist at Camp Claiborne, La. The Chironian gives us the chance for spiritual reunion until the real thing can take place."

John D. Riccardi, has recently been promoted to Captain. He is somewhere overseas.

### DECEMBER, 1943

1st Lieut. Vincent J. Catanzaro, writes that he is now in the armed service, stationed at Carlisle Barracks, Penna. Dr. and Mrs. Catanzaro are the parents of a baby boy, born at Christ Hospital, Jersey City, N. J., on June 3rd, 1945. Baby's name is Vincent, Jr.

Lieut. j.g. Donald F. Harrington, who is somewhere in the Western Pacific, writes: "Have just received my first copy of the Chironian, and appreciate it very much. Note that you have me listed as Lieut. M.C., A.U.S., this should be Lieut. j.g. M.C., U.S.N.R. I met John Walsh, December 1943, back in Hawaii. He had sent a patient from his ship to my ward in the hospital. Unfortunately we could not visit for any length of time. I also ran across Jim McNulty and Harry Wilbur, also classmates, on one of these islands. Jim McNulty and I shared quite a few rations. It seemed my outfit had better cooks and more time for cooking than his had. I would appreciate the addresses of William Loehmann and Hugh Flood, both of the class of December, 1943."

Lieut. j.g., Arthur T. Koenig, Jr., writes the following: "Have had overseas duty for seven months now aboard an A.P.A. as a junior medical officer. A.P.A. means Assault Personnel Amphibious, or more concisely, an Attack Transport. Am very fortunate in having such good duty; I like it very much, good food, good quarters, good experience and excellent equipment to work with. Have been in two invasions so far, Iwo Jima and another more recent one. Captain Herman Schweizer, '32 was one of our passengers along with others of the . . . Division during the latter invasion. Met Lieut. Lester Holder, '12/43 at Saipan in May. He has duty on an A.P.D., a destroyer transport. Met Lieut. j.g., Harry Wilbur at Pearl Harbor, six months ago, and Lieut. j.g., Eric Norrington, '39, who has duty on an L.C.I. Lieut. j.g., James McNulty, '12/43 is out here on duty with the Fleet Marines. Lieut. j.g., J. B. Reddy, '3/43 and Lieut. j.g., Elias Stoller, '12/43 are also out here with the amphibious forces. Enjoyed immensely receiving the Chironian the other day. Always a great pleasure to hear about your friends and your school. Many thanks for the Chironian, and kindest regards to all."

Lieut. j.g., James V. McNulty, was with the Marines on Iwo Jima. In a letter he states, "you would have laughed to see me in a foxhole with a rosary in one hand and a 45 in the other."

Lieut. John Menustik, Jr., writes: "Received my copy of the April issue of the Chironian today, and was certainly glad to hear all the latest news. Since leaving Carlisle I have traveled rather extensively over these United States. My assignments have taken me to Topeka, Kansas, Fort Lewis, Wash., New Orleans, La. and at last overseas. I am now on the island of Oahu, Terr. Hawaii, awaiting further disposition. The climate up here in the hills is ideal, but the mosquitoes are something we could very well do without. I have been rather unfortunate in that I have yet to meet a graduate of the New York Medical College, but I'll keep looking. I would appreciate hearing from any of the graduates of '12/43. I hope that the Chironian will follow me in the future no matter where I may be."

(Lieut. Menustik's address may be obtained from the Editor, 1 East 105th Street, N.Y.C.)

Lieut. j.g., William Thomas Loehmann was married to the former Miss Edith Schrot of New York City, on June 3rd, 1944. The couple spent their honeymoon in a cottage on the shores of Lake

Geneva, near the U. S. Naval Hospital at Sampson, N. Y. Since last fall, Lieut. Loehmann has been with the Marines in the South Pacific. The bride is staying with the parents of Lieut. Loehmann until his return.

1944

Jerome D. Blumberg was married to Miss Phyllis Bloom on June 3rd, 1945, in Brooklyn, N. Y.

Dr. John J. Castronuovo. A letter was recently received from Dr. Charles Varga, '44 in which he says. "I am sure that your readers will be interested in knowing that an article which received honorable mention in the Department of Pediatrics during our senior year has been published by the Archives of Pediatrics for April, 1945. The article is "Renal Osteodystrophy" and was written by John J. Castronuovo. It is an excellent article and merits reading."

Lieut. j.g., Earl H. Eaton, Jr., is now awaiting orders for overseas, following his internship at U.S.N. Hospital, Sampson, N. Y. He is the father of two sons, 18 months and 6 months, both big husky lads.

Dr. Mavis A. Kaufman, is now with the Post Graduate Hospital, New York City, as Resident in Pathology.

Dr. Thomas F. X. Lenihan is now with the Norwegian Lutheran Hospital, Brooklyn, N. Y. as Assistant Resident in Medicine.

Robert Northway-Meyer, has been ordered to active duty in the Navy. He will be stationed at St. Albans Naval Hospital for the Indoctrination Course. After that ? ? ? ?

1945

Lieut. j.g., Barzillia R. Waldron, 2nd. Announcement has been made of the engagement of Miss Ruth Lavonia Forbes of New York City and Sanford, to Lieut. Waldron. The wedding will take place on August 5th, 1945 in the Navy Chapel at Mare Island, Calif., where Dr. Waldron is serving his internship in the Naval Hospital.

Richard J. Block, Ph.D., Associate in the Department of Physiology and Biochemistry at the New York Medical College, and Diana Bolling, B.S., have written a book entitled: "The Amino Acid Composition of Proteins and Foods; Analytical Methods and Results." This book has just been published by Charles C. Thomas of Springfield, Ill.

## REUNION

Like the Joys and the Sorrows of days  
that are past,  
The specters, and spirits, and actors of casts  
Who played on Life's stage, whom our  
memories hold fast;  
Though changed and transformed by  
Death's chilling blast,  
They shall meet at the Time of Reunion.

Our schoolmates so gentle, with knowledge  
their aim,  
Our mothers, and brothers, and sweet-  
hearts we claim,  
Our teachers, and preachers, and friends  
without name  
Shall each find their way, through mis-  
fortune or fame  
And meet at the Time of Reunion.

The comrades with whom we marched out  
to the War,  
Who shared all our dangers, and yet  
bravely bore  
The Flag of our Country to Death's dark-  
ened Door,  
Their battle scarred souls shall be made  
whole once more  
When we meet at the Time of Reunion.

For our ranks shall be filled, and the  
bugles shall sound  
And the Hosts of the Dead shall be  
gathered around,  
And those long lost to us then shall be  
found,  
And joy in full measure, shall ever abound  
As we meet at the Time of Reunion.

—Major Frank N. Thompson.

## STUDENT ASSOCIATION BALL

The Fourth Annual Ball of the Student Association of the New York Medical College, Flower and Fifth Avenue Hospitals was held at the Hotel Plaza on Saturday, June 9th, 1945. The weather that evening was superb and the attendance very gratifying. The Chairman of the Committee on arrangements was J. Conrad Greenwald, '45 and the assistant chairman, Russell V. Karlan, March '46. Other members of the committee were: Joseph P. Mahoney '45, George Simihtsi '45, Lenore Berkery '45, Warren Daub, March '46, Edward Wasserman, March '46, Joseph A. King, December '46, John M. Rehberger, December '46, James Hefferman, December '46, William F. Lynch, Jr., '47, Robert M. Hidey, Jr., '47 and Paul D. Murphy, '47. A vote of thanks to the entire committee for their sincere efforts is more than justified.

Each and every lady who attended the ball was presented with a leatherette bound program and an attractive wallet. Between the hours of 9 P. M. and 2 A. M., there was relaxation and dancing to the delightful music of Ted Fisher and his orchestra. The high point of the evening came at midnight, when all couples joined hands in a Grand March led by the members of the senior class and their female companions. At the conclusion of the march, with the couples arrayed in front of the Dean's box, the choice of the First Lady of the Fourth Annual Ball was announced. Miss Muriel B. Winkler of Fairlawn, N. J., companion of John James Reilly, '45, received the judge's nod, and was presented with a double string pearl necklace.

Following these proceedings normal activity was resumed, and the pace never slackened until 2 A. M. All those who attended maintain that they had a grand time, and are already looking forward to the Fifth Annual Ball next year.

At this time it would be well to say a word of appreciation to the Dean, Dr. Hetrick, whose sincere support and guidance were more than a small factor in the success of the occasion.

## THE STUDENT NURSE IS REALISTIC

It is reasonable to expect that the students of Flower and Fifth Avenue School of Nursing of the New York Medical College would rise to the occasion of the need for nurses in both Military and Civilian Hospitals.

The record shows that the Cadet Nurses in last year's graduating class have maintained their pledge in either serving in Military Hospitals or Civilian Hospitals. Of the twenty-one Cadets, ten have entered the Army and five the Navy. The remainder are employed in useful activities.

Forty-one students participated in the Graduation Exercises held March 16th, 1945, eight of whom have completed their course, the remainder serving their Senior Cadet experience which will finish for most of them in September. Fourteen of these Senior Cadets are getting their Senior experience at Halloran General Hospital, Portsmouth Naval Hospital, Veterans' Administration Hospital or Visiting Nurse Service of New York. The remainder are in the Home School.

Many of these prospective graduates are anxious to stay on at Flower-Fifth Avenue and supplement their undergraduate experience with a so called "internship in Nursing"—thus raising the level of their skills before venturing forth into unknown areas. Or some may prefer to remain and grow with the Institution.

Why is it reasonable to expect that these particular young nurses would assume the responsibility of their pledge?—namely because of the principles of the nurse herself and because of the philosophy and traditions of the College and Hospital which support her.

Helen M. Daum,  
Director of Nursing.

### "COURAGE AND DEVOTION BEYOND THE CALL OF DUTY"

Through the cooperation of Mead Johnson & Company, \$34,000 in War Bonds are being offered to physician-artists (both in civilian and in military service) for art works best illustrating the above title.

This contest is open to members of the American Physicians Art Association. For full details, write Dr. F. H. Redewill, Secretary, Flood Building, San Francisco, Cal., or Mead Johnson & Company, Evansville 21, Ind.

# BACKGROUND

THE use of cow's milk, water and carbohydrate mixtures represents the one system of infant feeding that consistently, for over three decades, has received universal pediatric recognition. No carbohydrate employed in this system of infant feeding enjoys so rich and enduring a background of authoritative clinical experience as Mead's Dextri-Maltose.
