## COVER

The cover of the brochure announcing the first Annual Fund. For a complete report to date, see page 4.

RALPH E. SNYDER, '50

Over the past few months I have had the opportunity of meeting and talking with many alumni. And, especially since the start of the Annual Fund, many more of you have taken the time to write me about your activities and your feelings about your College.

All this has been most helpful, and I appreciate your frankness, both pleasant and unpleasant. There have been disappointments and misunderstandings in the past, and I think we have gone a long way toward clearing them up. This is possible because we all share an ideal of what we want our College to be, to achieve. And it will take all of us working together to accomplish our ideal.

It is inspiring to see the increasing activity of alumni groups throughout the country. There are already active chapters in Long Island and Florida; and regional groups are taking shape in New Jersey, Connecticut, Ohio, California, and other areas. During our Centennial Year, which begins with our 100th Commencement in June 1959, we hope other groups will get together in various parts of the country to share in some events. While such activities necessarily have to be initiated locally, you can count on your College to help in every way possible. We hope to be able to supply materials, exhibits, speakers, suggestions for local press coverage, and other ideas which might be helpful. If we take every advantage of our Centennial, I'm sure we can take a big step forward.

I would also like to call your attention to the Alumni Directory which your College is now preparing for you. Your copy should arrive in the next week or so, and we hope you will find it useful. You will be able to locate your fellow graduates easily, and I hope you will take a little time to lend a hand to each other whenever possible. We have done our best to present you with as accurate a Directory as possible; but there will probably be some errors due to lack of information. We hope you will send all corrections and suggestions to the Alumni Office so that the next edition can be fully up to date.

Keep up your suggestions and comments. It is your College, and your voice is important to its future.

# OUR FIRST ANNUAL FUND

by

CARL C. SALZMAN, M.D. '24

By the time you read this, the figures for our First Annual Fund will have improved considerably. We are going to press with only the results of the first four weeks of solicitation, and several of the classes are waiting until their reunions to announce their gifts. However, we hope to send you a Progress Report later on which will bring you up to date. Here are the figures so far, in all categories:

	Gifts	Amount
Alumni	243	\$13,609.00
Pledges	15	1,300.00
Parents	40	3,485.00
Non-Alumni Faculty	77	2,926.00
Corporations	3	350.00
Friends	15	1,095.00
Class of '59	5	19.00
Trustees	9	2,700.00
<b>TOTAL:</b>	<b>407</b>	<b>\$25,484.00</b>

The solicitation of groups other than Alumni has just got under way, and the gifts shown from these categories are early ones.

The goal is to achieve the highest possible participation. We believe that *every* alumnus can give something, and we feel that as our College enters its Centennial Year we can show that we Alumni are solidly behind its program of progress. We want to list as many as possible by our 100th Commencement, so please do return your gift envelope as soon as possible. If you've mislaid it, simply address the Annual Fund at the College.

It's hard to express my feelings at the wonderful response so far and the way so many have pitched in to work on the Fund. Here is a list of the Alumni who are giving a hand, and they deserve the gratitude of all of us who are interested in the College:

1892-1904	Joseph H. Fobes, M.D.
1904-1909	Louis Rene Kaufman, M.D.
1910	Stephen P. Jewett, M.D.
1911	(To be filled)
1912	(To be filled)
1913	(To be filled)
1914	Alfred A. Richman, M.D.
1915	Charles A. Turtz, M.D.
1916	(To be filled)
1917	Julius L. Almer, M.D.
1918	Milton J. Wilson, M.D.
1919	(To be filled)
1920	William Greenwald, M.D.
1921	Pincus A. Stahl, M.D.
1922	(To be filled)
1923	John S. Herrlin, Jr., M.D.
1924	Louis G. Raff, M.D.
1925	(To be filled)
1926	Abraham P. Matusow, M.D.
1927	(To be filled)
1928	Julius Blankfein, M.D.
1929	Robert Princer, M.D.
1930	Saul A. Schwartz, M.D.
1931	Harry Barowsky, M.D.
1932	(To be filled)
1933	William Kropf, M.D.
1934	(To be filled)
1935	Michael DeMarco, M.D.
1936	Anthony J. Maffia, M.A.
1937	John E. Annitto, M.D.
1938	Louis V. Angioletti, M.D.
1939	Bernard Rothbard, M.D.
1940	Walter Berlin, M.D.

(Continued on next Page)

## MR. VOORHEES APPOINTED

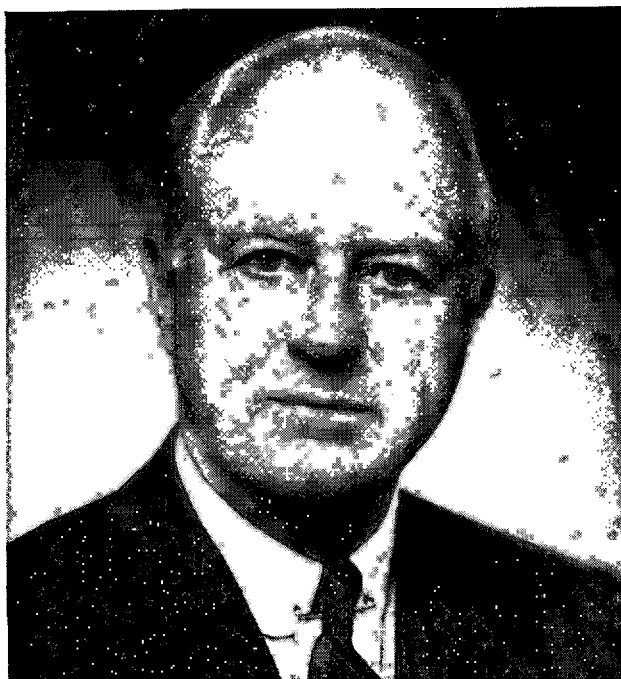

Donald Voorhees, musical director of the Bell Telephone Hour series on television, has been appointed chairman of the Parents' Division of the newly established Annual Fund at the College. Announcement of the appointment was made April 28, by Dr. Ralph E. Snyder, Dean. Mr. Voorhees' son, David Bruce, is a sophomore at the College. Mr. Voorhees has been a leading figure on the musical scene for almost 40 years.

---

1941	Henry P. Leis, Jr., M.D.
1942	Irving M. Rollins, M.D.
1943	Howard B. Rasi, M.D.
1944	Bernard J. Wattiker, M.D.
1945	Edward J. Nightingale, M.D.
1946	C. Donald Kuntze, M.D.
1947	Herbert M. Eskwitt, M.D.
1948	Alvin M. Donnenfeld, M.D.
1949	(To be filled)
1950	(To be filled)
1951	Rita F. Girolamo, M.D.
1952	(To be filled)
1953	Robert S. Donnenfeld, M.D.
1954	Herve M. Byron, M.D.
1955	James N. Trone, M.D.
1956	Stephen N. Rous, M.D.
1957	(To be filled)
1958	Eleanor Roth, M.D.
1959	Gustave W. Mork

## MR. HOPKINSON APPOINTED

Russell Hopkinson of Olin Mathieson Chemical Corporation, has been appointed Corporation Division Chairman for the Annual Fund at the College. Announcement of the appointment was made by Dean Snyder. Mr. Hopkinson joined Olin Mathieson Chemical Corporation in 1950, and became corporate vice president for commercial development in 1958. From 1947 to 1949, he headed his own consulting engineering firm. The campaign for operating funds will continue through June 9, the date of the 100th commencement exercise.

### AREA CHAIRMEN:

Boston, Mass.—Mark A. Novitch, M.D.  
Cleveland, Ohio—Max M. Pomerantz, M.D.  
Utica, N. Y.—Ardow Ameduri, M.D.  
Los Angeles, Cal.—James V. McNulty, M.D.  
Miami, Fla.—Abraham I. Cohen, M.D.  
Worcester, Mass.—Marvin Baum, M.D.  
Plainfield, N. J.—George P. Potekhen, M.D.  
New Haven, Conn.—Michael L. Fezza, M.D.  
Newport, R. I.—Theodore Y. Rodgers, M.D.  
Arlington, N. J.—Albert Willner, M.D.  
Paterson, N. J.—Ciro S. Tarta, M.D.  
San Francisco, Cal.—Robert L. Samilson, M.D.

Don't Forget—If you have any questions or suggestions, write me in care of the Fund Office.

## ALUMNI DAY: 1959

The Board of Governors of the Alumni Association is pleased to announce the program for Alumni Day: 1959. A new trend in the structure of many high ranking alumni associations is to provide continuing education for alumni, and the scientific program this year is designed for this purpose. At the Annual Business Meeting the new officers will be elected. And the Banquet at the Hotel Plaza will honor the graduating seniors who will constitute the 100th graduating class from New York Medical College.

Beginning at ten o'clock on June eighth, eleven departments of the College will present conferences which will include material representative of their work.

The Department of Medicine will present four papers: A Clinical Paper on Leukemia and Sickle Cell Disease, by Dr. Martin Fink; Some Observations on Periodic Fever, by Dr. Kenneth R. Crispell, Professor and Director of the Department; Digitalis Arrhythmias, by Dr. David Scherf; and, Malabsorption Syndrome, by Dr. George J. Jersey Glass. The meeting is scheduled in room 411 of the College.

The Department of Surgery will feature Dr. John Herrlin, Jr., moderating a discussion of the Diagnostic Problems in Surgery. The session will be held in room 711 of the College.

As was the case last year, the Department of Obstetrics and Gynecology will hold its conference and rounds at Metropolitan Hospital. Dr. Martin L. Stone, Professor and Director of the Department, will conduct rounds and the conference. He will also present a statement on research activities, case reports, and a general discussion.

The Department of Radiology will hold its meeting in room 419A of the College and it will deal with Malabsorption Syndrome, Roentgenographic Features, and Differential, by Dr. Frank J. Borrelli, Professor and Director of the Department, and Dr. B. Lapuz; Drs. Arthur Lautkin and Stanley Siegler will present Peculiar Gas Distribution and its Pathologic Significance; Radiation Hazards, Fall-out and Protection, by Dr. Rita Girolamo and Armand Leone.

The Department of Pediatrics will present three papers in the eighth floor lecture room of Flower-Fifth Avenue Hospitals. Dr. Kurt Lange will discuss the Newer Aspects of Treatment of Nephrosis; Newer Aspects of Treatment of Rheumatic Fever will be discussed by Dr. Alvin Coburn; and, Dr. A. Leonard Luhby will present the Newer Aspects in Hematology.

The Department of Pathology will present three papers: Lymph Node Reactivity in Disease, by Dr. Maurice M. Black, Professor of Experimental Pathology; The Culture of Human Breast Tumor Epithelium, by Dr. L. Ozzello; and, Further Studies on Hyaline Membrane Disease, by Dr. A. Baldi. The conference is scheduled in room 825 of the College.

The Department of Orthopedic Surgery will hold its conference in room 518A of the College, and will include five papers. They are: Unusual Problem of Hip Fracture, Management in a Case of Multiple Injuries, by Dr. Theodore K. Himelstein; The Painful Shoulder, by Dr. Alan R. Cantwell; Local Use of Steroids in General Office Practice, by Dr. Paul W. Lapidus; Prognosis and Preventive Measures in Idiopathic Scoliosis, by Dr. Aladar Farkas; and, Advances in the Treatment of Femoral Neck Fractures in the Aged, by Dr. Milton J. Wilson, Professor and Director of the Department.

The Department of Psychiatry will hold its conference in room 522A of the College and will include the following: Psychosomatic Gynecologic Problems and How They Effect All Branches of Medical Practice, by Dr. Jack J. Rommer; An evaluation of the Doctor-Patient Relationship, by Dr. Leonard Gold; Recent Advances in Psychosomatic Medicine, by Drs. Harold and Helen Kaplan; and, A Study of Intrinsic Reaction Types in Infants, by Dr. Stella Chess.

Dr. Charles Turtz will moderate the program for the Department of Ophthalmology in room 428A of the College. It will include a discussion of corneal transplant; Use of Proteolytic Enzyme in Cataract Surgery, a film, by Dr. Arnold Turtz; The Use of Concentrated Intense Light in Ocular Therapy, by Dr. G. Peter Halberg; The Fundamentals of Contact Lenses, by Dr. Arthur Chambers; and, Indication and Contra-Indications for Ocular Surgery, by Dr. Frederick Gerstel.

### *Alumni Lectures*

Dean Ralph E. Snyder will preside as two of our outstanding alumni, both from the class of '45, pre-

sent papers representative of the work they have done.

Jane C. Wright, Assistant Professor of Research Surgery at New York University-Bellevue Medical Center, and well known for her outstanding contribution in the field of cancer chemotherapy, will discuss Local Cancer Chemotherapy Utilizing Extra-Corporal Circulation.

Richard F. Dobbins, Commander, Medical Corps, United States Navy, and medical officer aboard the U.S.S. Nautilus during its historic voyage beneath the polar ice cap will present the Medical Aspects of Nuclear Propulsion.

These lectures will be given, traditionally, in the Alumni Lecture Room.

### *Luncheon*

As in the past, the Association will have its luncheon at the College. It will be held in the Auditorium about 12:30 P.M.

### *Business Meeting*

The most important item of business will be the election of officers for the coming term. The slate, as approved by the Board, is as follows:

President .....	Carl C. Salzman,	'24
1st Vice-President....	E. Edward Napp,	'33
2nd Vice-President....	John E. Annitto,	'37
Secretary.....	Barnard J. Wattiker,	'44
Treasurer.....	Maurice M. Black,	'43
Archivist .....	Martin E. Silverstein,	'48

### **GOVERNORS**

Saul Schwartz.....	'30
Alvin M. Donnenfeld.....	'48
Cyrille Halkin.....	'45
Joseph M. Andronaco.....	'42
Irving S. Shiner.....	'37
William L. Einhorn.....	'38

In addition, the annual reports on the activities of the Association will be presented.

### *Dean's Reception*

The Dean and the College will be hosts to the Association at 6:30 P.M., at the Hotel Plaza in New York, at a cocktail party, the Dean's Reception. Not exclusively for alumni, it also honors the graduating seniors who will constitute the 100th class to be graduated from the College.

### *Banquet*

At 7:30 P.M. the Banquet will be held in the Grand Ballroom of the Plaza. The seniors will be honored, as well as the Silver Anniversary Class, and several other "Five" Year Classes, and the Alumni Award will be presented to an outstanding alumnus or a friend of the College who has contributed to its growth and fame, either through service to the College or to the Nation.

The results of the first Annual Fund will also be announced at this time.

---

## **GENERAL CARLOS P. ROMULO TO SPEAK AT 100th COMMENCEMENT**

General Carlos P. Romulo, Phillippine Ambassador to the United States, will deliver the principal address at the College's 100th Commencement exercises on June 9th. The degree of Doctor of Humane Letters will be conferred upon General Romulo at that time.

Former President of the General Assembly of the United Nations, General Romulo is known as a distinguished author, statesman, soldier, and diplomat.

He served as General MacArthur's aide-de-camp on Bataan, Corregidor, and Australia, and accompanied General MacArthur and the liberating forces in the invasion of Leyte and later in the recapture of Manila.

An editor and publisher, General Romulo has written nine best sellers, one of which was a novel.

As a statesman he has held various positions in the Phillippine Government such as Secretary of Information and Public Relations, Acting Secretary of Public Instruction, Secretary of Foreign Affairs, Chief of the Phillippine Mission to the United Nations and, since September, 1955, Ambassador to the United States. In addition, he has headed several international conferences.

He is the recipient of several awards, including the Pulitzer Prize in Journalism in 1942.

General Romulo will speak on "The Case for Freedom."

## NEWS FROM THE FIELD . . .

### FLORIDA

The Florida chapter of the Alumni Association was very happy and honored to welcome Dr. Ralph E. Snyder, Dean of the College, together with Dr. Carl C. Salzman, Vice-President of the Alumni Association. The meeting was held on March 19, 1959, at the home of our Chairman, Alexander Libow '31.

Before introducing the Dean, our Alumni representative informed us about the regional chapters being formed throughout the country and we were pleased to be designated Alpha chapter. He also mentioned the Centennial celebration of the College which will formally start during Commencement week in June 1959, and invited all Alumni to come to New York and enjoy the event.

Dean Snyder, in turn, gave us a detailed report about what is going on at the College and what plans for expansion are under consideration for a program to go on for many years. He especially emphasized that our Alumni have cause to feel proud because the College is fast becoming one of the best in the country. He stressed the importance of a strong, loyal, active Alumni Association and told us a new Directory is being published so that there may be closer contact and more mutual assistance between our graduates.

A very fine collation was served by our hosts, Dr. and Mrs. Alexander Libow, after which we all sat around talking openly until the late hours, much impressed by the frankness, honesty and sincerity of the Dean.

Incidentally, it was brought to our notice that the American Medical Association Convention of 1960, will take place in Miami Beach from June 13-17, 1960. We would like all Alumni to make note of that fact and plan to visit us at that time. Dean Snyder promised to be here with us to help us welcome the Alumni in fitting manner. On that happy note we adjourned.

s/ ABRAHAM I. COHEN, M.D. '22

*Front row, left to right: Alexander Libow, M.D., Ralph E. Snyder, M.D., Dean, Carl C. Salzman, M.D., Abraham I. Cohen, M.D.*

*Rear row, left to right: Seymour H. Fine, M.D., Samuel Neustein, M.D., Maurice Zimmerman, M.D., Norman Borken, M.D., Theodore R. Strubl, M.D., Stanley E. Schwartz, M.D., Leo Grossman, M.D.*

## DR. HOFF SPEAKS

Since the body can at times cure diseases through its own spontaneous action, then efforts should be made to find means of stimulating these natural healing powers, Dr. Ferdinand Hoff of Frankfurt, Germany, told students and doctors at New York Medical College in a lecture April 29, 1959. Dr. Hoff is Director of the First Medical Clinic at the University of Frankfurt a. Main, and is the newly elected President of the German Society of Internal Medicine.

Dr. Hoff is internationally known for his publications on and research in non-specific therapy. His talk on "Non-specific Defense Mechanisms and Therapy" constituted the annual Alpha Omega Alpha lecture.

"There are two great paths in therapy," Dr. Hoff pointed out. "One is to fight against the attacking power directly, such as in the use of antibiotics against infections. The other is to strengthen the defense powers of the body. The second method, or non-specific treatment, has fallen almost into oblivion because of the great successes obtained by specific therapy in certain diseases. However, the results of specific therapy are based on the presumption that the non-specific defense processes function regularly in the organism. If this is not the case, the patient is lost and even specific therapy cannot save him."

Dr. Hoff discussed in detail the use of fever-producing drugs, bacteria, chemical, and physical measures to artificially release non-specific defense mechanisms and thereby lead to therapeutic results. Pointing out that non-specific treatment had been highly valued for thousands of years before the development of specific treatment, he stated that a revival of research in non-specific therapy has confirmed the value of old theories.

Dr. Hoff concluded by saying that he did not wish to overemphasize the use of non-specific therapy as specific therapy was also of great value when available. However, he urged that non-specific therapy be seriously considered in cases otherwise difficult to influence and for which no specific therapy has been developed. These include inflammations of the nervous system such as encephalitis, polyneuritis, and lymphocytic meningitis. He showed, also, that many methods often considered exclusively as specific therapy in reality are non-specific.

*From a press release, K. Witherspoon.*

## DR. DANIELLI LECTURES

A new theory of attacking cancer which has proved effective with one type of tumor in rats but has not yet been used on people was described March 3, to a group of scientists at the College. Dr. James Frederic Danielli, Professor of Zoology at King's College, London, who developed the theory, was the speaker. The process involves the use of a harmless drug to change the chemical nature of the cancerous cell, followed by the use of a second drug which is in turn acted upon by the changed enzyme to destroy the tumor. It has been used on about 1,000 rats a year for five years with 80 per cent success on one type of rat tumor.

Dr. Danielli was brought to this country by the Squibb Centennial Lecture Committee, which has engaged eminent medical scientists from all over the world to speak at medical colleges in the United States.

The scientist stressed the fact that there are thousands of different kinds of tumors both in rats and in people and no proof exists so far as to the effectiveness of this treatment in human cancer. Even should it prove successful, it might apply to as few as one per cent of human cancers, he stated. However, the theory will be expanded to test the new compounds on other types of cancer later.

Dr. Danielli began his research by preparing a list of theoretical postulates for designing a family of drugs to cause complete regression of animal cancer. He had these drugs prepared and then started a tedious process of checking their use for effectiveness. Many of these new compounds depended on the action of enzymes normally present in some tumors. Others did not depend on enzymes normally present, but caused the tumor to change its nature and form a new enzyme to activate the second drug given and release from it a very toxic substance which destroyed the cancer.

"The first drug is not intended to have much therapeutic effect on the tumor, but is used to entice the tumor to change so it can become more readily acted upon by the second drug," Dr. Danielli said.

He pointed out that after drugs are used over a period of time a tumor may become resistant to the drug, and the likelihood is that it does so by changing its enzyme pattern so as to be able to destroy the drug. Physicians formerly thought when this happened they had come to an end. Dr. Danielli and his co-workers adopted the attitude that this change

*(Continued on Page 13)*

## LECTURESHIP ESTABLISHED

Patients of Dr. B. M. Fried have established an annual lecture at New York Medical College in honor of the physician, to be known as the Dr. B. M. Fried Lecture, it was announced March 11, by Dr. Ralph E. Snyder, Dean. The first address was given March 13, in the College Auditorium. Dr. Wendell J. S. Krieg, Professor of Anatomy at Northwestern University Medical School and formerly Director of the Institute of Neurology there, was the speaker.

Dr. Krieg is internationally known for his research on the cerebral cortex, the highest and functional level of the brain. He has made vital contributions to science in helping establish the structural connections between areas of the cerebral cortex and other parts of the brain. His research was conducted first on the rat and then on the monkey. He is the author of a standard textbook used in many medical colleges, "Functional Neuroanatomy," and of an equally well known book, "Brain Mechanisms in Diachrome," both illustrated by him. In addition to contributing widely to scientific journals, he has published articles and books for the non-medical public.

Dr. Fried is clinical associate in the Department of Medicine at New York Medical College. He is a veteran of the First World War and was decorated twice on the French Front. Following the war he worked with Prof. Eugene Bodin in pathology and bacteriology at the Medical Faculty at Rennes, France, and with Prof. Besredka in immunology, at the Pasteur Institute, Paris, France. He was on the staff of the Department of Pathology at the Harvard Medical School and did experimental pathology at the Peter Bent Brigham Hospital, Boston. Later Dr. Fried was a Research Fellow in Pathology at Mount Sinai Hospital. He is the author of three books and has contributed more than 50 papers to scientific journals.

## DR. MARTI-IBANEZ PUBLISHES BOOK

Physicians in America can rebel more easily than European physicians can against doctrines of past generations, according to Dr. Felix Marti-Ibanez, Editor of the book, "History of American Medicine," published May 1st by MD Publications, Inc. European medical culture brought to this country in the seventeenth century never established here a "past" so solid as to bear upon the present with the force which it still exerts in Europe. The book is dedicated to the New York Medical College, where Dr. Marti-Ibanez serves as Director of the Department of the History of Medicine.

Magnificent haste characterized the development of the American colonies, he points out, and was necessary to meet problems of primitive colonial life and rapid growth of the country. From the very beginning, medicine played an active part in this welter of creative haste.

"If we put our ear to the chest of present-day American medicine, we still hear beneath its dazzling white jacket of technological progress the youthful heartbeat of the settler and pioneer, who knows that life is haste and that his problems admit no waiting and therefore theory must sometimes be sacrificed to practice. The spirit that moved the first medical pioneers to risk an ovariectomy without anesthetics in the Kentucky forests, to study gastric physiology experimentally beneath the open skies in the woods of Michilimackinac, to apply anesthetics without controls in operating rooms in Boston, to perform heroic operations in the Middle West because the patient could hardly wait for the benefit of experience and tradition—this spirit determined the two great traits of American medicine," Dr. Marti-Ibanez wrote as introduction to the volume.

"These two traits are the 'colonial' spirit ('colonial' meaning exploring, adventurous, pioneering), that is to say, the yearning to reduce the complexity of medical problems to their most elementary lines and apply equally simple, bold, and speedy (that is, colonial, pioneering) solutions to them; and creative haste, the craving to do a great deal and do it quickly, to finish with it promptly so as to pass on to something else. This haste was the fruit of the spirit of a young pioneering nation, which learned how to speed up the construction of its buildings before the storm should strike; how to mind its cattle and harvest its crops before the wolves and frosts should come; how to forge new weapons before the

*(Continued on Page 12)*

**DR. SOPHIE RABINOFF STUDENT LOAN  
FUND TO BE ESTABLISHED AT  
NEW YORK MEDICAL COLLEGE**

*The Late Dr. Rabinoff*

A new student loan fund, in memory of Dr. Sophie Rabinoff, will be established at the College by Commencement. Funds are now being received from colleagues, friends, and students of Doctor Rabinoff, and they will be formally turned over to the College at a small ceremony to be held shortly before Commencement.

The Fund was initiated by the East Harlem Council for Community Planning. The Committee members are: William Kirk, Alice McCabe, Rita Morgan, Dr. Fannie Tomson, and Margaret Weinig. Mrs. George Rabinoff is representing the family on the Committee.

Many gifts have been received from many colleagues in the New York City Department of Health, especially those who were so keenly aware of Dr. Rabinoff's contribution to human betterment. Her work in preventive medicine, school health, and pediatrics, the devotion she inspired among students at New York Medical College, and her leadership in community organizations have stimulated the desire for a suitable memorial. It was felt by the Committee that a loan fund to help medical students would most appropriately carry on Dr. Rabinoff's ideals.

**THE  
BOARD OF GOVERNORS  
MEETING**

The Board of Governors Meeting was called to order by the President on March 4, 1959, at 3:30 P.M., in the Halsey Room.

PRESENT: Drs. Annitto, Black, Blankfein, Borrelli, Einhorn, Fierro, Hayner, Herrlin, Lede, Lillick, Nagamatsu, Napp, Salzman, Shiner, Silverstein, Wershub, and Mr. Leo.

The minutes of the last meeting were accepted as read.

TOTAL	\$	17,906.04
D.S.B.F.	\$	18,251.35

*Membership Report:*

Senior	1327
Junior	299
Armed Forces	66
TOTAL	1692

*Class Reunion:*

The question was raised whether the first five year class reunion dinner should be underwritten by the Alumni Association for its total cost, or whether \$7.50 should be charged to the participants instead of \$15.

A motion was made to underwrite the total cost for the first five year reunion class, with the following results:

Opposed	6
In favor	5

Following, a motion was made that the Alumni Association underwrite half the cost—\$7.50—for this reunion, with the following results:

Opposed	4
In favor	7

The motion was carried.

*(Continued on Page 12)*

## BOARD (Continued)

### *Groundhog Day:*

Dr. Borrelli reported that the Groundhog Day Committee held a meeting on February 4, and the date had been set for March 18, at 6:30 P.M., in the Auditorium. No change had been made as compared to previous years, except that the party will start later.

Dr. Borrelli stated further that a sub-committee had been formed, and that each member of this group will call on five other members of their classes in an attempt to stimulate interest.

The President of the Alumni Association suggested that each member of the Board make five calls to their classmates to support the Committee.

### *Annual Fund:*

Dr. Salzman, Alumni Chairman for the Annual Fund, reported on the progress of the alumni in the College's Annual Fund. He said 31 had accepted positions as chairmen of their class, and that others were expected to accept within the next few days. In addition, area chairmen for Boston, Cleveland, Los Angeles, Miami, Plainfield, N. J., Trenton, N. J., Worcester, Massachusetts, and New Haven, Connecticut, have been enlisted. These area committees will make possible more personal solicitation which, in turn, will help bring alumni together and create nuclei for possible future alumni chapters.

The preliminary announcement of the Fund to alumni has been sent and several more alumni have volunteered to help.

A brochure describing the whole story of the Fund is being prepared for use in solicitation. A postage-paid envelope will be provided for every alumnus.

A "kickoff" dinner meeting is being planned for all workers in this area around the end of March. Other area chairmen are being encouraged to have similar events.

Arrangements are being made to publicize alumni who agree to work on the Fund in their local papers.

The aim will be to get as many alumni as possible to participate by Commencement.

Two or three progress reports to all alumni are being planned for distribution during the course of the campaign.

### *A.M.A. Convention in Atlantic City:*

In previous years the Alumni Association has

maintained a suite in a hotel and has given a cocktail party for alumni attending the Convention. It was thought to be good publicity for the Association to give such a cocktail party.

The question was raised whether the Centennial could not be publicized at that occasion. A motion to this effect was passed with all in favor. A committee is to be appointed by the President to look into this possibility.

### *Chironian:*

Mr. Leo confirmed that the Winter Issue will be mailed on March 10.

Respectfully submitted,  
IRVING S. SHINER, M.D.  
*Secretary to the Alumni Association*

## BOOK (Continued from Page 10)

enemy should attack; how to create a dynamic medicine so as not only to be on a par with the rest of the world but to excel them, while at the same time attending to the constantly increasing problems indigenous to a young nation in full growth,

"These are, I believe, the psychological characteristics that explain the portentous rise and dynamic direction of American medicine. These are features of splendid and thrusting youth, today supplemented by the thought and deeds of many physicians, native and foreign, who have tinged American practice with the silver of maturity. This simple, vigorous, and impatient youth is what gives American medicine its finest characteristics."

The book is one of a series of monographs in book form, to be published periodically, which will contain the complete texts of some of the outstanding symposia previously published in the monthly journal, "International Record of Medicine," of which Dr. Ibanez is Editor-in-Chief. Contributors to this volume are Miss Phyllis Allen Richmond, John Duffy, John B. Blake, William Dosite Postell, Morris C. Leikind, and Drs. Benjamin Spector, William Frederick Norwood, Courtney R. Hall, Norman Shaftel, W. B. McDaniel, II, George Rosen, Douglas Guthrie, and Ralph H. Major.

In dedicating the "History of American Medicine" to the New York Medical College, Dr. Ibanez paid tribute to the Faculty Council, physicians, teachers, and students, "whose endeavors and achievements are making medical history."

# NEWS FROM THE FIELD . . .

## LONG ISLAND

The Long Island Chapter of the Alumni Association of New York Medical College met May 7, at Parsons Hospital in Flushing. This was the final meeting of the academic year and was followed by a social hour.

Dr. Ralph E. Snyder, Dean of the College, spoke on "The Future of the College." Dr. Walter L. Merseheimer, President of the Alumni Association, followed with a talk on "Relationship Between the Alumni Association and the College." Dr. Israel S. Kleiner, Professor and Director of the Department of Biochemistry, concluded the program with a talk on "Reminiscences of Forty Years at the College."

Dr. William L. Einhorn of Jackson Heights is President of the Long Island Chapter and Dr. Louis G. Raff of Flushing is Secretary.

*From a press release, K. Witherspoon.*

## FACULTY NOTES . . .

### *Pediatrics*

Dr. Lawrence B. Slobody has been reappointed Chairman of the Advisory Committee on Mental Retardation to the New York State Interdepartmental Health Resources Board, it was announced April 1st.

### *Physiology and Pharmacology*

David Lehr, M.D., Chairman of the Department of Physiology and Pharmacology, was invited to address the Association of Medical Directors of Pharmaceutical Companies at a luncheon meeting at the Advertising Club on Friday, March 6, 1959. The subject of this lecture was "Experimental Cardiovascular Disease."

### DANIELLI (*Continued from Page 9*)

of pattern to resist a long-used drug was a source of additional information about the nature of the tumor.

The scientist reported that a number of the drugs designed from his theoretical postulates promised success, but that only six of these had been selected for thorough testing at this time. Of these six compounds only one makes use of the process of changing enzymes. Further research will be done later with other compounds.

## DEATHS

COOPER, WILLIAM M., of New York City, died February 16, 1959, at the age of 64. Dr. Cooper, a Fellow of the American College of Surgeons, formerly adjunct Professor of surgery at New York Polytechnic Medical School and Hospital. On staffs of Midtown and St. Clare's Hospital. He graduated from the College in 1921.

RILEY, PHILETUS H., '37, of Madison, New Jersey, died December 28, 1958, at the age of 53. Dr. Riley was certified by the National Board of Medical Examiners. He was on the staff of Morristown Memorial Hospital.

PARKER, PAUL M., of Moravia, New York, died November 30, 1958, at the age of 74. A graduate of 1915, Dr. Parker was a veteran of World War I, and formerly a county coroner.

ROTKIN, MEYER M., of Flushing, New York, died on March 7, 1959, at the age of 74. Dr. Rotkin was a member of the New York County Medical Society, the Medical Society of the State of New York, and the American Medical Association. He graduated from the College in 1916.

HOPPELER, HANS, of Zurich, Switzerland. Information received in the Alumni Office indicates that Dr. Hoppeler, a 1904 graduate, died recently.

MURDOCK, FRANKLIN F., of Bremerton, Washington, died April 3, 1959. He was a 1911 graduate.

MCKINNEY, THOMAS S., of Maywood, New Jersey, died May 4, 1959. He was a 1944 graduate.

GITTINGER, WILLIAM C., of Flushing, New York, died May 12, 1959, in Capitol Airlines plane crash. He was a 1949 graduate. Obituary will follow in next issue.

PENSIG, ARNOLD W. of Brooklyn, New York, died May 12, 1959, in Capitol Airlines plane crash. He was a 1948 graduate. Obituary will follow in next issue.

## CLASS NOTES . . .

'96

Ralph I. Lloyd writes:

"On March 7th, 1959, I was given a Gold Medal at the 100th Anniversary Dinner of the Long Island College Hospital as one of the physicians who served for 50 years or more. There were ten men in the group and I was the dean with 62 years of practice to my credit."

'99

George S. King has written a book "Doctor on a Bicycle" published by Rinehart, November, 1958.

'27

Leonard Paul Wershub, Associate Professor of Urology, writes:

"I have recently attended the Law-Science Academy Session at New Orleans, sponsored by the Louisiana State Bar Association. I was a member of the Panel of 'Medicolegal Aspects of Surgical Injuries' and I lectured on the medicolegal aspects of Urology."

Dr. Wershub writes further:

"I recently read a paper at the annual meeting of the American Urological Association held in Atlantic City, April 20-23. The title of the presentation was 'The Plague of Impotence.' The paper was discussed by Professor Seamans of Duke University of Medicine."

'28

Alan R. Cantwell  
1095 Park Avenue  
New York, New York

'30

Saul A. Schwartz  
1882 Grand Concourse,  
Bronx, New York

Irwin I. Lubowe writes:

"I have been appointed Chief of the Out Patient Department of Skin and Dermatology at Metropolitan Hospital Center."

'32

Leon Paris  
2685 Creston Avenue,  
Bronx, New York

Theodore Rothman writes:

"I will be Secretary of the Session on History and Culture of the American Psychiatric Association Meetings in Philadelphia, Pennsylvania, April 27-May 1959.

My paper on 'Disturbed Communication and Optimal Psychotherapy' has been published in the Transactions of the 5th Annual Meeting of the Academy of Psychosomatic Medicine.

I have been elected Member Titulaire de la Societe Internationale d'Histoire de la Medecine."

'33

William Kropf  
2076 Davidson Avenue,  
New York, New York

Jacob Bleiberg writes:

"I have been appointed Attending Dermatologist at Newark Beth Israel Hospital. This, in addition to being Consultant of Newark Eye and Ear Division of United Hospitals of Newark and at Kessler Institute, and Attending at St. Michael's Hospital, keep me hopping.

My nephew Bill Semel (Williams College '59) has been admitted to the Class of 1963, and it is my hope that he will be followed in a few years by my daughter."

Dr. Alan A. Kane wrote the following articles with his colleagues:

"Adjunct to Diagnosis of Acute Perforation of Upper Gastrointestinal Tract." February issue, American Journal of Gastroenterology.

"A Tube to Aid in Diagnosis of Gastrointestinal Bleeding." January issue, American Journal of Gastroenterology.

"Open Method of Treatment of Burns with Aerosol Spray." February issue, American Journal of Surgery."

'34

George R. Nagamatsu  
121 East 60th Street,  
New York, New York

Harry Jasper has been elected president of the Albany County Chapter, American Academy of General Practice, it was announced recently. The Academy, the second largest medical society in the country, is a scientific and educational organization of physicians in general practice.

'37

Peter Bisconti  
1070 Park Avenue,  
New York, New York

Edmund F. Longworth writes:

"I have been elected Director of the Division of Obstetrics and Gynecology at Norwalk Hospital, Norwalk, Connecticut."

'38

Lyman J. Spire  
Highbridge Road,  
Fayetteville, New York

Edward Gendel writes:

"I have been recently appointed Lecturer at the American Institute for Psychoanalysis."

'39

George Santoro  
219 76th Street,  
Brooklyn, New York

Nathan Masor writes:

"I have written a book 'The New Psychiatry' which will be published by Philosophical Library in May, 1959. This book challenges the conventional psychiatric methods now in use; and recommends other solutions to the dilemma of present-day psychiatry."

Charles E. Rosen of Union City was elected and seated May 6th at Murdoch Hall, Jersey City Medical Center as president of Hudson County Medical Society, succeeding Dr. John J. Bedrick of Bayonne.

'43

Howard B. Rasi  
139 Clinton Street,  
Brooklyn, New York

Joseph A. Manganaro writes:

"I was elected President of the Medical Board of Victory Memorial Hospital for the year 1959. I hold the position of Associate Director of Surgery and Attending Visiting Surgeon at Victory Memorial Hospital."

'45

Edward J. Nightingale  
12 East 87th Street,  
New York, New York

Edward H. Mandel writes:

"I have been promoted to Assistant Attending Dermatologist at Mount Sinai Hospital and have also been appointed impartial consultant in dermatology to the Workmen's Compensation Board of the State of New York.

In the March issue of the Archives of Dermatology, I had a paper published entitled 'Disseminated Granuloma Annulare: Report of a Case Treated with Aralen'."

'47

Herbert M. Eskwitt  
59 State Street,  
Teaneck, New Jersey

Joseph A. King writes:

"A sixth child, fifth daughter Elaine, born to my wife and me on February 29, 1959, at Glover Memorial Hospital, Needham, Massachusetts."

'50

David Plotkin  
495 Merrick Road,  
Massapequa, New York

Joseph P. Petrus writes:

"My wife and three children moved to Glens Falls with me on December 20, 1958. I have assumed the duties of Director of the Warren County Psychiatric Consultation Center and Director of Warren County Mental Health Board. Dr. Ann Keill, '50, replaced me as Psychiatric Consultant to the Westchester County Department of Family and Child Welfare. We have been in our newly constructed ranch type house at 26 Horicon Avenue, Glens Falls, for the past month. I hope classmates will drop in to see us if they are up this way.

Norman M. Stoller writes:

"Another arrival on December 16, 1958—Elizabeth Ann, sister of Jonathan and Donald. This is the same day that I took the examination and have been certified by the American Board of Surgery.

'53

Robert S. Donnefeld  
1 Joyce Road,  
Hartsdale, New York

John W. Mills writes:

"Presently finishing 2nd year of OB-GYN residency at Highland Hospital, Rochester, New York.

We have two children, Elizabeth Anne, age 4, and John Frederick, age 1. Have not decided where to practice yet."

Elliott J. Harold writes:

"Neglected to proudly announce the birth of Carl Richard H. last March, so I'll announce his first birthday instead. I'm senior resident in Cardiology at the Bronx V. A. Hospital, and am planning to start practice of Internal Medicine somewhere in Westchester in January, 1960.

Was on same service with Frank Montalbano and Jens Bakke last six months and frequently see Jay Sackler in the radiology department."

'54

Jean A. Krag  
37 Langdon Street,  
Cambridge 39, Mass.

Sanford H. Anzel writes:

"Have recently successfully completed part I examinations for the American Board of Orthopedic Surgery. Also, have presented experimental work on artificial tendon sheaths to the Orthopedic Research Society in January at the Palmer House in Chicago. Am author of a recent article in the March issue of Surgery entitled 'Disruptions of Muscles and Tendons.' Am finishing my Fellowship at Mayo Clinic in October, 1959, and expect an assignment with the U.S.A.F."

Harold Steinberg writes:

"After leaving the Army in June, 1958, I have been spending a most rewarding year as a Fellow in Hematology in Buffalo. I plan to complete my residency in Medicine next year at the Buffalo General Hospital. I see Bob McGrath quite often—he is Chief Resident in Surgery at the Buffalo V. A. Hospital. Have also run into Lew Young several times. My wife and I had an addition in January, 1959, our second boy, Peter."

William J. Esposito writes:

"Since graduation I have completed one year of internship and three years of resident training in radiology at the State University of New York Medical Center, Syracuse. I was certified in radiology in May, 1959. Since July, 1958, I have been an instructor in the Radiology Department of Columbia-Presbyterian Medical Center."

Robert W. McGrath writes:

"Am just finishing my residency in general surgery at the Buffalo V. A. Hospital and plan to return to New York to open practice July 1st. I will be on the staff at St. Vincent's Hospital, New York. Would love to see any of the '54 Class who pass through New York. My wife Rosemary, my three year old son Robert, Jr., and I are looking forward to returning to New York."

(Continued on Page 16)

William A. Stevens  
1630 Ford Parkway,  
St. Paul Minnesota

**John W. Rhinehart writes:**

"My wife and I had our first child, a girl (Lee), on January 3, 1959. She weighed 9 lbs 2 ozs. I am finishing my third year of psychiatric residency here at Fairfield State Hospital, Newton, Connecticut, at present, and may stay another year on the staff while completing plans to enter analytic training."

**Ellsworth Du Bois writes:**

"Am in my third year of residency in general surgery, spending the current year at Peter Brigham Hospital on rotation from Stanford University Hospital, San Francisco. Before returning to the West Coast in July, 1960, I will spend the next year at St. Bartholomew's Hospital, London, also under the auspices of Stanford."

**Martin L. Norton writes:**

"As of July 1st, 1959, I will be leaving my current activities at the Medical School of the State University of New York, Syracuse, to accept an appointment as Assistant Professor of Clinical Anesthesiology at the N. Y. U. Post-Graduate Medical School and will be an Associate Attending Anesthesiologist at University Hospital and Assistant Attending Anesthesiologist at Bellevue Hospital, New York City. Also, I have been voted Fellow of the American College of Anesthesiologists and Associate Fellow of the American College of Chest Physicians during the past few months. Am looking forward to greeting you all again on my return to the New York City area."

**Louis A. Susca writes:**

"My wife and I announce the birth of our third child, daughter Ann Eileen. Recently I was nominated and elected to full membership in the Fordham University Chapter of the Society of the Sigma Xi, a national scientific organization."

Stephen Rous  
Metropolitan Hospital,  
New York 29, New York

**Stephen Rous, Class Secretary, writes:**

"The big news for this issue is the big kick-off for the Medical College's first annual Alumni Fund Drive. By now you have all received word of this money-raising campaign and I hope you have responded as best you can. Yours truly has been asked to help squeeze the money out of his fellow classmates, so please make my job easier and mail in your contributions as soon as possible."

"The second item of interest is that from July 1, onwards, please address all your communications to me at the Philadelphia General Hospital, Philadelphia 4, Pa. After two years of general surgery up here, I am going down there for the first year of urology. **DON'T FORGET THE NEW MAILING ADDRESS!**

"We had a very nice telephone call the other day from Marie Lasting, Ed's little wife. She says that she is in New York for a few months while husband Ed has been

shipped out by the Navy in the general direction of Japan. He expects his discharge sometime in June and will then go into general practice in San Diego, California. The Lastings now have two children, Michael age 2, and little Robert, born this past January. Marie says that they have bought a new home and would love to hear from any passers-by. Address is: 3060 Wing Street, San Diego 10, California. Thanks for the call. Mrs. Lasting.

"Well, the Joe Macys have added a little girl to go along with their son. She is little Marianne, born on March 7. We tender our congratulations and our hope that she will look just like her Mommy!

"This year's Annual Ground Hog Day was held in late March and saw a pretty good turnout from our class. Enjoying the food and drink at the get-together were: Bud Liebler, Gil Sandler, Jerry Schwartz, Dave Stein, Dick Mann, Marty Rose, Ray Sabatini, and Bill Bradley. Mart Rose says that his little daughter, Nancy, born last September 22, is a thing of joy. Marty plans to stay at the New York Hospital for his third year of surgery. Gil Sandler brings us the happy news that he has had an article published in the New Journal of Medicine on 'Turner's Syndrome.' Gerry Shapiro will complete his residency training in anesthesia this July, and will enter the private practice of anesthesia at the Flower-Fifth Avenue Hospitals as a member of the Flower Anesthetists Associates. Congratulations, Gerry!

"Joseph Charles Bamford III now has a little sister to play with. Last October, Elisabeth Ann was born to Joe and Sue Bamford. Joe, Dick Mann, and Bill Bradley will be the three senior residents in OB-GYN at New York Medical College Metropolitan Center starting July 1.

"Congratulations also to Zel Bernstein and his wife on the birth of a daughter, Cindy Marsha, on April 12th. Cindy weighed 8 lbs. 3 oz. Zel is now a captain stationed at the Army Chemical Center in Maryland.

"Hear Ye! Hear Ye! Two big dates to circle on your calendar of Alumni Association activities. On June 8, the Plaza Hotel in this city will be the scene of the Annual Alumni Banquet. You'll hear more about this thru the mail. Also, on June 10 during the A.M.A. convention in Atlantic City, the Alumni Association will sponsor an open house and cocktail party at the Ritz-Carlton Hotel from 5 P.M. until 7 P.M. for all alumni at the convention.

"Lastly, and most important, please don't forget your donations to the Alumni Fund. Thank you."

Joseph A. Intile  
1710 Noyes Lane  
Silver Springs, Md.

**Robert Littlejohn writes:**

"A son was born to my wife and me—Peter Andrew—at St. Albans Naval Hospital. I am now at St. Albans Hospital after a tour of duty with the U.S.M.C. at Camp Lejeune, N. C."

Joseph A. Intile, Class Secretary, writes:

"Charlie Aswad, according to rumors received in the nation's capital, has embarked upon his own general practice in Binghamton, New York.

"Don Bradley, who's now wearing the Army green, has been assigned to a duty station in Germany after spending six weeks in the orientation course at Fort Sam Houston.

"Sam Clark, having finished his internship in Englewood, New Jersey, has begun a residency in general surgery at Bellevue.

"Dick Cobb has gone into general practice in Canaan, Connecticut, and is reportedly very happy with the job.

"Bob Cross has been heard from via Christmas cards which were postmarked in Lawrence, Massachusetts. The question is whether he's gone into business or residency there, or was he just visiting for the holidays?

"Mike Dolan, now the father of three children, has what he terms a 'pleasant assignment' at the Main Naval Dispensary in Washington, D.C. Starting in September of this year he's moving up to Baltimore where the Navy is going to sponsor him for two years while he obtains a Ph.D. in biochemistry at Johns Hopkins.

"Tom Dyer, who's doing an OB-GYN residency at the Met was recently married to Joyce O'Connell, a graduate of Flower's nursing school.

"Bob Egan has been reported to have been, via the 'grapevine', one of the 'sharpest' interns to have gone through the Los Angeles County Hospital.

"Jack Harrison is now stationed with the Air Force in Goose Bay, Labrador, and is working in a brand new two and one-half million dollar hospital.

"Dave Kiernan is, believe it or not, doing a residency in ENT at Bellevue. He's very happy with his work and can 'run rings' around most of his classmates when it comes to oro-and nasopharyngeal anatomy.

"Tony Lang is in Long Beach, California. He didn't say what he was doing there, but we could guess it's a residency and probably in internal medicine.

"Al Morrisey is serving a hitch in the Navy and rumor has it that he's assigned aboard the U.S.S. Forrestal.

"Bill Scragg has been accepted for an OB-GYN residency at Walter Reed beginning in September.

"Dick Snyder, after having completed his internship with the Public Health Service on Staten Island, has been assigned to a post in El Paso, Texas. He's planning on a residency in psychiatry eventually.

"I ran across some fellow alumni from the Class of '54; John Cline is finishing up his medical residency at Walter Reed and plans to stay on for a one-year residency in

allergy. He was recently married to a very pleasant and attractive Army dietitian. Art Campbell, who is hoping for an assignment in Germany after finishing his medical residency in June, and Joe spend much of their time comparing notes about Alma Mater. They're currently ward officers on the Hematology Servie. (Art is technically the boss, but they don't let that bother them.) Bud Appleton is about finished with his training in ophthalmology."

'58

Charles D. McCullough  
St. Vincent's Hospital,  
Bridgeport, Connecticut

Charles McCullough, Class Secretary, writes:

"Since this is our Spring edition I think it is appropriate to begin our news with something that this season is famous for and that is a wedding. I drove down to 'Cherry Blossom' country Easter week-end with Barbara and Frank Klion for Jack Lynch's wedding to 'Izzie' Gormley. It was a very enjoyable trip and we were very impressed by Southern hospitality, 'D.C.' style. The occasion provided an excuse for a rather small scale class reunion. Bob Milora drove down from Albany where he plans to stay on for medical residency. Bob is doing very well and thinks Albany is just great. Lew Dalberg was a little late for the wedding but was there for all of the reception. Lew is remaining at Jefferson Hospital in Philadelphia in Ophthalmology. Connie and Scoop Wry enlisted their parents for 'baby sitting' chores with their new daughter, 'I. J.' and met us at the Shoreham. Scoop knows his way around Washington very well. He and Connie stayed on for a few days of vacation. Scoop has signed a contract at F.F.A.H. in Pediatrics.

"Frank Klion is going up to the Bronx V. A. Hospital for Internal Medicine. Frank and Barbara will soon be parents for the first time. We all enjoyed our stay in Washington very much and extend congratulations to Izzie and Jack. We all are looking forward to coming down for the christening.

"I met John Summa on Groundhog Day and he told me that he had just decided to return to Metropolitan Hospital for a residency in Medicine. John was one of several people I met with plans to do residencies at our Alma Mater. Mark Novitch came all the way from Massachusetts for Groundhog Day.

"I went to Acapulco on my vacation in February and Dee Battles flew down from Houston for a week in the sun. Dee is at Jefferson Davis Hospital and is returning to Flower, also in Medicine. There are six of class '58 in this specialty.

"Joe Culverwell has signed his contract in Surgery at Flower but it appears as though the U.S.N. will get him first. There is a very good chance that Joe will enter the October class at Pensacola for naval flight surgeons. Also signed up for the same class are Jack Viele and Jack Tully. It seems as though the Navy has provided the opportunity for the re-organization of a very famous trio.

(Continued on Page 18)

"Jim McCann is staying at St. Vincent's Hospital in Worcester for surgical residency. Also staying at St. Vincent's is Jack Howard. Ellie Roth is staying at St. Luke's in New York City for Pediatrics. Bob De Angelis is coming back to Metropolitan Hospital for Surgery. Dick Perera who is interning at Montefiore Hospital will stay on there for Internal Medicine. Frank Reilly is coming back to F.F.A.H. in Surgery. Frank is interning at Jersey City Medical Center. Walt Pizzi and Ed Tracy, who are both interning at Bellevue, are staying on there in their respective divisions for Surgery. Dick Sempowich stopped to visit me in Bridgeport one day in April. He has signed a contract at Columbia P. & S. for anesthesiology. Bill Gardner, who is at St. Luke's in Chicago at present, is going into the Army. Mike Tager has an appointment in Surgery at Brooklyn Jewish Hospital.

## PUBLICATIONS BY THE STAFF

July - December, 1958

Following is the complete list of publications by the staff based on reports returned to the college library.

### ADMINISTRATION

Snyder, Ralph E.  
Problems of communication in medical education.  
*Logos* 1: 11-14, Oct. 1958.

### ANATOMY

Coidan, Rosette Spoerri  
Elimination of plasma in culturing human neoplastic tissue.  
*Growth* 22: 225-227, 1958.

House, E. L., Burton C.; Cooper, H., Anderson, E.  
The implantation of neo-natal pancreas into the cheek pouch of the alloxan diabetic hamster.  
*Endocrinology* 63: 389-391, Sept. 1958.

Piliero, S. J.  
The effects of low pressure on electrophoretic patterns in the endocrine-deficient rat.  
*Arch. Biochem. Biophys.* 78: 248-259, Nov. 1958.

### ANESTHESIOLOGY

Bizzari, D. V.; Giuffrida, J. G.  
Improved laryngoscope blade designed for ease of manipulation and reduction of trauma.  
*Anesth. & Analg.* 37: 231-232, July-Aug. 1958.

### BIOCHEMISTRY

Danishefsky, I.  
Chemical changes during precancerous stages.  
*Acta Unio Contra Cancarum* 6: 203, 1958.

Kleiner, I. S.

Nutritional factors in atherosclerosis.

*Internat. Rec. M.* 171: 522-530, August 1958.

Kleiner, I. S.; Dotti, L. B.

*Laboratory instructions in biochemistry*, 5th ed. St. Louis, Mosby, 1958.

### DERMATOLOGY

Lubowe, I. I.

Refractory seborrhea capitis.

*Med. Times* 86: 1534-1538, Dec. 1958.

### HISTORY OF MEDICINE

Marti-Ibanez, Felix

Bright twilight.

*MD* 2: 11, August 1958.

Disease as biography.

*MD* 2: 639-640, Oct. 1958.

Fashion as dimension and symptom.

*Int. Rec. Med.* 171: 587-588, Sept. 1958.

The joy of leisure.

*MD* 2: 11, July 1958.

Lady with the lamp.

*MD* 2: 1-2, November 1958.

A light in the window.

*Internat. Rec. Med.* 171: 777-778, December 1958.

### MEDICINE

Batterman, R. C.; Grossman, A. J.; Leifer, P.; Mouratoff, G.  
Utilization of phenyltoxinamine as daytime sedative or tranquilizer.  
*New York J. Med.* 58: 3821-3823, Dec. 1, 1958.

Boyd, L. J., moderator.  
Symposium and panel discussion: Coma and unconsciousness.  
*New York J. Med.* 58: 3616-3630, Nov. 15, 1958.

Boyd, L. J.; Cammer, L. M.; Mulinos, M. G.; Huppert, V. F.; Hammer, H.  
Meprobamate addiction.  
*J.A.M.A.* 168: 1839-1843, Dec. 6, 1958.

Carr, J. J.; Mouratoff, G. J.; Batterman, R. C.  
Enhancement of sodium salicylate absorption by mephenesin.  
*J. Pharmacol. & Exper. Therap.* 124: 312-317, Dec. 1958.

Eiber, H. B.; Danishevsky, I.  
Synthesis and metabolism of radioactive heparin.

## OTOLARYNGOLOGY

- Hollander, M. M.  
Cosmetic surgery of the eyelids and forehead.  
*Eye Ear Nose Throat Month.* 37: 452-456-459, July 1958.

## PATHOLOGY AND CLINICAL PATHOLOGY

- Plachta, A.; Speer, F. D.  
Aneurysm of the left coronary artery: Review of literature and report of three cases.  
*Arch. Path.* 66: 210-217, August 1958.

## PEDIATRICS

- Chess, S.  
Your baby is different.  
*Parents M.* 33: 37, November 1958.
- Freud, P.  
Congenital varicella.  
*J. Dis. Child.* 96: 730-733, December 1958.
- Gondor, E. L.; Levbarg, M.  
Techniques and expressive therapy integrated into the treatment of mentally retarded children.  
*Am. J. Ment. Defic.* 63: 60-63, July 1958.
- Kelman, H. R.  
Social work and mental retardation: challenge or failure?  
*Social Work*, 37-42, July 1958.
- Lange, K.; Wasserman, E.; Slobody, L. B.  
Prolonged intermittent steroid therapy for nephrosis in children and adults.  
*J.A.M.A.* 168: 377-381, Sept. 27, 1958.
- Lending, M.  
Cerebrospinal fluid levels of glutamic oxalacetic transaminase and lactic dehydrogenase in normal newborn infants.  
*J. Dis. Child.* 96: 622, 1958.  
Effect of convulsions on the blood cerebrospinal fluid barrier and on cerebrospinal fluid levels of glutamic oxalacetic transaminase and lactic dehydrogenase.  
*J. Dis. Child.* 96: 530, 1958 (abstract)
- Lending, M.; Piliero, S. J.; Mahairas, C.  
Paper electrophoretic study of cerebrospinal fluid proteins in the normal newborn infant.  
*J. Dis. Child.* 96: 623, 1958 (abstract)
- Levbarg, M.  
Techniques and expressive therapy integrated into the treatment of mentally retarded children.  
*Am. J. Ment. Defic.* 63: 1, July 1958.
- Luhby, A. L.; Cooperman, J. M.; Donnenfeld, A. M.; Hertero, J. M.; Teller, D. N.; Denig, J. B.  
Observations on transfer of vitamin B<sub>12</sub> from mother to fetus and newborn.  
*J. Dis. Child.* 96: 532-533, Oct. 1958.
- Luhby, A. L.; Cooperman, J. M.; Teller, D. N.; Wenig, J. B.; Feldman, R.  
Pattern of folic acid deficiency development during folic acid antagonist therapy of children with acute leukemia and neuroblastoma.  
*J. Dis. Child.* 96: 627, 1958 (abstract)

## PHYSICAL MEDICINE AND REHABILITATION

- Posniak, A. O.; Saturen, P.; Tobis, J. S.; Wallace, H. M.  
Evaluation of rehabilitation of the severely handicapped cerebral palsied child.  
*Arch. Phys. Med.* 39: 482-487, August 1958.
- Silverman, S. I.  
Psychology in dental prosthetics.  
*J. Prosthetic Dent.* 8: 582-590, July 1958.
- Silverman, S.; Tobis, J. S.  
Nutrition and dental care in a physical medicine and rehabilitation program.  
*Arch. Phys. Med.* 39: 555-559, Sept. 1958.

## PHYSIOLOGY AND PHARMACOLOGY

- Freund, M.  
Collection and liquefaction of guinea pig semen.  
*Proc. Soc. Exper. Biol. & Med.* 98: 538, July 1958.
- Freund, M.; Macleod, J.  
Effect of addition of fructose and of glucose on the fructolysis and motility of human semen.  
*J. Appl. Physiol.* 13: 506, Nov. 1958.

A study of pica in relation to lead poisoning.  
*Pediatrics* 22: 756-760, Oct. 1958.
- Kleinfeld, M.  
New York's experience in administering code radiation protection.  
*AMA Arch. Ind. Health* 17: 87-95, 1958.
- Kleinfeld, M.; Giel, C. P.; Feiner, B.  
The trouble shooting industrial hygiene survey.  
*AMA Arch. Ind. Health* 18: 120-125, Aug. 1958.

- Kleinfeld, M.; Messite, J.; Giel, C. P.  
Pulmonary edema of noncardiac origin.  
*Am. J. Med.* 235: 660-667, 1958.
- Lee, P. R.; Groh, S.; Untereker, J.; Silson, J. E.; Dasco, M. M.; Feldman, D. J.; Monahan, K.; Rusk, H. A.  
An evaluation of rehabilitation of patients with hemiparesis or hemiplegia due to cerebral vascular disease.  
*Rehabilitation Monograph XV*, New York, Inst. Phys. Med. & Rehab., N.Y.U.-Bellevue Med. Center, 1958.
- Muller, J. N.  
Some new frontiers in adult health—1956.  
*Tuberculosis Abstract* 31: #8, August 1958.
- Rosenfeld, L. S.; Donabedian A.  
Prenatal care in metropolitan Boston.  
*Am. J. Pub. Health.* 48: 1115-1124, Sept. 1958.
- Sokolow, J.; Silson, J. E.; Taylor, E. J.; Anderson, E.; Rusk, H. A.  
Functional approach to disability evaluation.  
*J.A.M.A.* 167: 1575-1584, July 26, 1958.

#### RADIOLOGY

- Borrelli, F.  
President's message.  
*Am. J. Gastroenterology* 30: 634, Dec. 1958.

#### SURGERY

- Case, T. C.  
Gas gangrene of abdominal wall following celiotomy.  
*New York J. Med.* 58: 3684, Nov. 15, 1958.  
Ileoileal intussusception of a solitary metastatic tumor of the ileum.  
*New York J. Med.* 58: 2280-2282, July 1958.  
Leiomyoma of the ileum causing prolonged unexplained intestinal bleeding.  
*New York J. Med.* 58: 2575-76, August 1, 1958.  
Prolapse of the rectum.  
*Am. Geriatrics Soc.* 6: 526-131, July 1958.  
Reticulum-cell sarcoma of the duodenum.  
*AMA Arch. Surg.* 77: 123-129, July 1958.  
Synovial cyst of right hip joint.  
*New York J. Med.* 58: 4079, Dec. 15, 1958.  
An unusual late sequela following gastrectomy.  
*Am. J. Surg.* 96: 129-130, July 1958.
- DeLuccia, V. C.  
The physiologic aspects of thoracic trauma.  
*J. Internat. Coll. Surg.* 30: 478-484, Oct. 1958.
- Doremus, W. P.  
Lymphangiosarcoma in the postmastectomy lymphedematous arm.  
*Am. J. Surg.* 96: 576-579, Oct. 1958.
- Edinburgh, A.; Geffen, A.  
Acute emphysematous cholecystitis, a case report and review of the world literature.  
*Am. J. Surg.* 96: 66-75, July 1958.
- Madden, J. L.  
*Atlas of techniques in surgery.* New York, Appleton Century-Crofts, 1958.  
Surgery of the gallbladder and bile ducts.  
*Bull. New York Acad. Med.* 34: 495-524, Aug. 1958.

- Maier, R. L.  
Sliding hernia. In Madden, J. L. *Atlas of techniques in surgery.* New York, Appleton-Century-Crofts, 1958.
- Pack, G. T.; Ariel, I. M., eds.  
Principles of treatment, vol. 1, in *Treatment of cancer and allied diseases.* New York, Hoeber, 1958.  
*Tumors of the soft somatic tissues.* New York, Hoeber, 1958.
- Winfield, J. M.  
Foreword, in Madden, J. L. *Atlas of techniques in surgery.* New York, Appleton-Century-Crofts, 1958.

#### THORACIC SURGERY

- Heimlich, H.  
Discussion on "Achalasia of the esophagus."  
*J. Thoracic Surg.* 36: 459-460, Sept. 1958.  
The use of a reversed gastric tube to replace the esophagus  
*J. Soc. Internat. Chir.*, July 1958.
- Rockey, E. E.; Thompson, S. A.  
Selective bronchial suction catheters and their clinical application.  
*Am. J. Surg.* 96: 552-556, Oct. 1958.
- Rockey, E. E.; Thompson, S. A.; Epstein, I. G.; Wesserman, E.; Ahn, K. J.  
Tracheal fenestration as a new method for the therapeutic management of chronic pulmonary diseases and for the experimental exploration of the bronchial tree.  
*Am. Rev. Tuberc.* 78: 815-821, Dec. 1958.
- Rockey, E. E.; Thompson, S. A.; Blzisk, C. F.; Ahn, K. J.  
Tracheal fenestration as a new method of treatment for advanced emphysema.  
*New York J. Med.* 58: 3607-3615, Nov. 15, 1958.

#### UROLOGY

- Berlin, W.  
Accessory spleen in scrotum: case report and review of literature.  
*Jewish Memorial Hospital Bulletin* 3: 38-41, Oct. 1958.
