FAMILY DAY, 1986

All students and their families are strongly encouraged to attend Family Day this Sunday, November 16, 1986 in the Auditorium from 1:00-4:00pm.

Family Day, one of the most important events of the year, will provide your families with a picture of what is happening at the Law Center. The occasion will also provide an opportunity for your families to meet members of the Law Center Administration and Faculty.

If, for some reason, your family did not receive an invitation, one may be picked up in Dean Cohen's office. We look forward to seeing you this Sunday.

COURSE SELECTION ADVISEMENT PROGRAM

All students are encouraged to attend the Course Selection Advisement Program for a briefing by Professors Schere and Abramson on how to select courses. After the briefing, Law Center faculty members will be available to answer your questions and assist you with course selection. The Program will be held in the Auditorium on Wednesday, Nov. 19, 1986 from 4:00-5:00 pm for Day students and from 7:45-8:10 pm for Evening students. Students may attend either session.

Day and Evening students who have not yet picked up their copy of the Law Center Student Handbook should obtain a copy from the receptionist in Room 114. Important information relating to registration and course selection is included in the Handbook.

SPECIAL EXAMINATION ARRANGEMENTS

All students who would like to request special examination arrangements must speak with Dean Cohen prior to November 14, 1986. This also applies to all students who have previously requested such arrangements. No exceptions.

In cases where past special arrangements were based on a physician's statement, an updated statement must be submitted to Dean Cohen's office.

FILM: "SPECIAL SECTION"

As part of the Criminal Clinic, Professor Davis will be screening the film "Special Section". The dates, times and locations are listed in the Events section of The Touro Times. Admission is free and all are welcome.

"Special Section" is about the changes that occur in the legal system of France's Vichy government during World War II. More specifically, it is about the reactions of judges, prosecutors,, and public defenders when they are instructed by the government to enforce laws that violate fundamental principles of civilized jurisprudence. This description does not convey the extremely moving and disturbing nature of the film. It raises serious questions about the nature of all legal systems and the people who participate in them or are governed by them.

It is a film that all law students and lawyers ought to see. See you at the movies.
