## Center for Disaster Medicine

**Tuesday, December 13, 2022**

*As the COVID-19 pandemic continues to evolve, we are seeing other emerging public health threats/emergencies and we continue to address ongoing/emerging disaster issues, the Center for Disaster Medicine (CDM) has been and will continue to be a source of reliable information, education and models for mitigation, preparedness, response, and recovery. As such we have expanded this informational document to address the broader areas addressed by the center while retaining critical COVID19 information. As the pace of new information and changes occur, we will evaluate the current once per week to determine if this information should be provided on a more frequent basis*

David Markenson, M.D., M.B.A.  
Director, Center for Disaster Medicine

### **COVID-19 Statistics**

	Total Cases	Total Deaths	Total Vaccine Doses Admin.
Worldwide	650,028,409	6,655,026	13,100,220,763
United States	99,475,317	1,084,701	647,055,806
New Jersey	2,877,084	35,245	19,342,608
New York	6,461,662	74,365	44,043,680
Connecticut	934,388	11,603	8,801,850

Information as of 12/13/22 at 1021 EST. Source: <https://coronavirus.jhu.edu/map.html>

**United States COVID-19 Case Map / GIS**

### **Mpox Statistics**

State	Number of Cases
Connecticut	143
New Jersey	762
New York	4,180
Total US Case Count	29,711

CDC <https://www.cdc.gov/poxvirus/monkeypox/response/2022/us-map.html>

### **Center for Disaster Medicine Updates**

- Coordinating and overseeing COVID-19 screenings at NYMC campus.
- Continuing to partner with local organizations such as Westchester Department of Emergency Services and Westchester Medical Center to ensure ongoing collaboration with all public safety agencies.
- Coordinating volunteers to support local public health response to COVID-19.
- Conducting research and analysis of current events and COVID-19 response to identify strengths and areas for improvement in other regions.
- Updating and developing new programs to provide enhanced education on public health emergencies including pandemics.
- Exploring course development opportunities in infection prevention and control for frontline responders in the hospital and in the field.
- Serving as a source of information for COVID-19 related concerns or questions regarding public health, emergency medical service (EMS), public safety and healthcare response.
- Local networking and pandemic response analysis for New York's tri-state area, using first-person experiences to highlight current trends.
- On December 6, 2022, CDM staff provided lifesaving training as part of a two-day intensive course entitled Tactical Emergency Casualty Care (TECC) to 21 members of six different police and emergency medical services from New York State including New York City, Westchester and Nassau counties.

---

### **The White House**

On December 9, 2022, the White House released remarks as prepared for delivery by First Lady Jill Biden at a virtual event on COVID-19 and the holiday season.  
<https://www.whitehouse.gov/briefing-room/speeches-remarks/2022/12/09/remarks-as-prepared-for-delivery-by-first-lady-jill-biden-at-a-virtual-event-on-covid-19-and-the-holiday-season/>

The official website of the White House delivers updated information as the country grapples with converging crises. This will include actions to control the COVID-19 pandemic and mpox and provide economic relief, tackle climate change, and advance racial equity and civil rights, as well as immediate actions to reform our immigration system and restore America's standing in the world. This website provides all information in one central location.  
<https://www.whitehouse.gov>

### **COVID-19 Website**

On March 30, 2022, Biden Administration Launched COVID.gov, a New One-Stop Shop Website for Vaccines, Tests, Treatments, Masks, and the Latest COVID-19 Information- a new website was launched in an effort to consolidate information for consumers.  
<https://www.whitehouse.gov/briefing-room/statements-releases/2022/03/30/fact-sheet-biden-administration-launches-covid-gov-a-new-one-stop-shop-website-for-vaccines-tests-treatments-masks-and-the-latest-covid-19-information/>

### **Health and Human Services (HHS)**

On December 9, 2022, the HHS released a statement from HHS Secretary Xavier Becerra on CDC's Recommendation of the Updated COVID-19 Vaccines for Young Children. In response to the Centers for Disease Control and Prevention's (CDC) recommendation of the updated COVID-19 vaccines for children as young as six months, U.S. Department of Health and Human Services (HHS) Secretary Xavier Becerra issued the statement below:

"Now children as young as six months have an opportunity to get the protection the updated COVID-19 vaccines provide. As we spend more time indoors during the holiday season and winter months, I encourage parents of eligible children to get one of these free updated COVID-19 vaccines to help keep their families safe."  
<https://www.hhs.gov/about/news/2022/12/09/statement-from-hhs-secretary-xavier-becerra-on-cdc-recommendation-of-the-updated-covid-19-vaccines-for-young-children.html>

### **National Institutes of Health (NIH)**

View the latest COVID-19 information from NIH.  
<https://www.nih.gov/coronavirus>

### **Centers for Disease Control and Prevention (CDC)**

Mpox is a rare disease caused by infection with the mpox virus. Mpox virus is part of the same family of viruses as variola virus, the virus that causes smallpox. Mpox symptoms are like smallpox symptoms, but milder, and mpox is rarely fatal. Mpox is not related to chickenpox.

For the latest CDC information including symptoms, testing, vaccines and prevention regarding mpox, please visit  
<https://www.cdc.gov/poxvirus/mpox/>

According to the CDC, as of December 8, 2022, there are 29,711 cases in the United States. For the latest mpox cases in the United States, please visit:  
<https://www.cdc.gov/poxvirus/mpox/response/2022/us-map.html>

According to the CDC, as of December 12, 2022, there are 82,503 cases in the world. For the latest global mpox cases, please visit:  
<https://www.cdc.gov/poxvirus/mpox/response/2022/world-map.html>

On December 8, 2022, the CDC updated the mpox section regarding the latest information on signs and symptoms, vaccines, prevention, sexual health, cases and data.  
<https://www.cdc.gov/poxvirus/mpox/index.html>

CDC provides updated information about the variants in the United States- The emerging variants CDC is closely monitoring have mutations in the virus genome that alter the characteristics and cause the virus to act differently in ways that are significant to public health (e.g., causes more severe disease, spreads more easily between humans, requires different treatments, changes the effectiveness of current vaccines). It's important to understand that genetic mutations are expected, and some variants can spread and become predominant while others subside.  
<https://www.cdc.gov/coronavirus/2019-ncov/transmission/variant-cases.html>

On December 9, 2022, the CDC expanded the use of updated (bivalent) COVID-19 vaccines for children ages six months through five years. Children ages six months through five years who previously completed a Moderna primary series are eligible to receive a Moderna bivalent booster two months after their final primary series dose. Children ages six months through four years who are currently completing a Pfizer

primary series will receive a Pfizer bivalent vaccine as their third primary dose.  
<https://www.cdc.gov/media/releases/2022/s1209-covid-vaccine.html>

CDC provides daily data tracker which has maps and charts tracking cases, deaths, and trends of COVID-19 in the United States- updated daily by 8 p.m. ET.  
<https://covid.cdc.gov/covid-data-tracker/#datatracker-home>

For the latest CDC information  
<https://www.cdc.gov/coronavirus/2019-ncov/cases-updates/index.html>

### **United States Food and Drug Administration (FDA)**

On December 9, 2022, 440 tests and sample collection devices are authorized by the FDA under emergency use authorizations (EUAs). These include 298 molecular tests and sample collection devices, 86 antibody and other immune response tests, 55 antigen tests, and 1 diagnostic breath test. There are 79 molecular authorizations and 1 antibody authorization that can be used with home-collected samples. There is 1 EUA for a molecular prescription at-home test, 2 EUAs for antigen prescription at-home tests, 23 EUAs for antigen over-the-counter (OTC) at-home tests, and 4 for molecular OTC at-home tests. The FDA has authorized 39 antigen tests and 8 molecular tests for serial screening programs. The FDA has also authorized 1169 revisions to EUA authorizations.  
<https://www.fda.gov/news-events/press-announcements/fda-roundup-december-9-2022>

On December 8, 2022, the U.S. Food and Drug Administration amended the emergency use authorizations (EUAs) of the updated (bivalent) Moderna and Pfizer-BioNTech COVID-19 vaccines to include use in children down to six months of age.  
<https://www.fda.gov/news-events/press-announcements/coronavirus-covid-19-update-fda-authorizes-updated-bivalent-covid-19-vaccines-children-down-6-months>

The FDA created a specific mpox response page which serves as a central source of information regarding diagnostics, vaccines, and therapeutics. For the latest FDA information regarding mpox, please visit  
<https://www.fda.gov/emergency-preparedness-and-response/mcm-issues/fda-mpox-response>

For the latest overall FDA information about COVID-19.  
<https://www.fda.gov/emergency-preparedness-and-response/counterterrorism-and-emerging-threats/coronavirus-disease-2019-covid-19>

### **Center for Medicare and Medicaid Services (CMS) +**

On November 22, 2022, CMS Urges Timely Patient Access to COVID-19 Vaccines, Therapeutics- the Centers for Medicare & Medicaid Services (CMS) issued new guidance that highlights the need for health care providers and suppliers to ensure patients have access to the latest available COVID-19 vaccines and therapeutics. In particular, CMS is reminding nursing homes that they are required to offer the COVID-19 vaccines, including any updated COVID vaccines, to residents.  
<https://www.cms.gov/newsroom/news-alert/cms-urges-timely-patient-access-covid-19-vaccines-therapeutics>

View the latest information from CMS  
<https://www.cms.gov/About-CMS/Agency-Information/Emergency/EPRO/Current-Emergencies/Current-Emergencies-page>

### **Vaccines**

In this section, vaccine-related information from various sources will be collected, reviewed, and tabulated here. As of July 19, 2022, the FDA has granted Emergency Use Authorization (EUA) to Janssen/Johnson & Johnson for adults over 18 years and *Novavax for adults over 18 years of age* and EUA for Moderna and Pfizer for children 6 months to five years. On August 26, 2022, the FDA authorized the emergency use of Novavax COVID-19 Vaccine, Adjuvanted for the prevention of Coronavirus Disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) in individuals 12 through 17 years of age. This authorization follows a rigorous analysis and evaluation of the safety and effectiveness data conducted by the FDA. On August 23, 2021, the FDA granted full approval to Pfizer for adults. On January 31, 2022, the FDA granted full approval to Moderna for adults. Now with two vaccines with full FDA approval and three vaccines with EUA for adults and children, the goal is to vaccinate a larger number of persons in the coming months throughout the United States. As additional vaccines are granted EUA, information for those vaccines will also be included.

CDC created this section regarding COVID-19 vaccinations in the United States- CDC provides overall US COVID-19 Vaccine, deliveries and administration, maps, charts, and data updated daily by 8 p.m. This section represents all vaccine partners including jurisdictional partner clinics, retail pharmacies, long-term care facilities, Federal Emergency Management Agency and Health Resources and Services Administration partner sites, and federal entity facilities.

## State Updates

### New York

- Governor Encourages New Yorkers to Keep Using the Tools to Protect Against and Treat COVID-19: Vaccines, Boosters, Testing and Treatment
- 27 Statewide COVID-19 Deaths Reported on December 9 as of December 12, 2022

### New York State Department of Health (DOH)

On December 12, 2022, Governor Hochul updated New Yorkers on the state's progress combatting COVID-19 and outlined basic steps they can take to protect against the spread of viral respiratory infections that become more common in the fall and winter seasons. "As respiratory illnesses, the flu, and COVID-19 spread throughout our state, I urge all New

Yorkers to remain vigilant and continue to use all available tools to keep themselves, their loved ones and their communities safe and healthy," Governor Hochul said. "Stay up to date on vaccine doses, and test before gatherings or travel this holiday season. If you test positive, talk to your doctor about potential treatment options."

<https://covid19tracker.health.ny.gov/views/NYS-COVID19-Tracker/NYSDOHCOVID-19Tracker-Map?%3Aembed=yes&%3Atoolbar=no&%3Atabs=n>

NYS DOH has created a dynamic COVID-19 Tracker which provides COVID-19 information regarding testing, cases, percentages, and fatalities across New York State. It also breaks down cases by county.  
<https://covid19tracker.health.ny.gov/views/NYS-COVID19-Tracker/NYSDOHCOVID-19Tracker-Map?%3Aembed=yes&%3Atoolbar=no&%3Atabs=n>

For the latest COVID-19 information from NYS DOH  
<https://coronavirus.health.ny.gov/home>

As of December 12, 2022, there are 4,164 cases of mpox in New York State. For the latest mpox information including vaccines and provider information from NYS DOH, please visit:  
<https://www.health.ny.gov/diseases/communicable/zoonoses/mpox/>

## Local Updates

### **New York Blood Center (NYBC)**

For the latest updated NYBC information about COVID-19:  
<https://nybc.org/covid-19/>

### **New York City (NYC) Department of Health and Mental Hygiene (DOHMH)**

New York City is currently the epicenter of the mpox outbreak in the United States. As of December 12, 2022, there are 3,791 cases of mpox in New York City. For the latest information including cases, symptoms, testing, and vaccine information regarding mpox in New York City, please visit  
<https://www1.nyc.gov/site/doh/health/health-topics/mpox.page>

NYC DOHMH launched a new COVID-19 variants data page. The data on this page show how variants of the virus that causes COVID-19 are spreading in NYC. Variants are versions of the virus with certain sets of mutations. Some variants may result in a COVID-19 infection that is easier to spread, more severe or able to avoid antibodies from vaccines or previous infections.  
<https://www1.nyc.gov/site/doh/covid/covid-19-data-variants.page>

As of December 13, 2022, NYC seven-day average COVID positivity is 13.2 percent.  
For NYC DOHMH updated COVID-19 data page  
<https://www1.nyc.gov/site/doh/covid/covid-19-data.page>

### **Westchester County Department of Health**

For the latest breakdown of COVID-19 positive cases in Westchester County as of December 12, 2022,  
<https://wccgis.maps.arcgis.com/apps/dashboards/280339d96db14efd9cc304dba0f3a71d>

For the latest COVID-19 information in Westchester including vaccines for children.  
<https://health.westchestergov.com/2019-novel-coronavirus>

As of December 12, 2022, Westchester County has 93 cases of mpox. Mpox Vaccine Clinics on Mondays and Wednesdays at 134 Court Street, White Plains. Appointments are required. People at higher risk for mpox infection may consider vaccination with the two-dose JYNNEOS vaccine. In accordance with CDC guidance, this includes those who:

- Had contact with someone who had a rash that looks like mpox or with someone who was diagnosed with confirmed or probable mpox

- Had skin-to-skin contact with someone in a social network experiencing mpox activity
- Traveled outside the United States to a country with confirmed cases of mpox or where mpox activity has been ongoing

**Mpox Vaccine appointments are also available at:**

- Westchester Medical Center, 15 Oval Connector, Valhalla, NY 10595  
Monday through Friday from 9 a.m. - 5 p.m., appointment required.  
Call (914) 326-2060 to schedule an appointment.

For more information regarding mpox in Westchester County, please visit
