ALUMNI NEWS

Volume 1, No. 3

October, 1994

Letter From The Dean

Dr. Joseph Weisberg, Ph.D., P.T.

building in the area; or purchasing one of the few area public schools that are for sale.

Some of the additional facilities that we can look forward to will be: sports facilities, an auditorium and larger dining facilities.

Dear Alumnus:

I am sure you will be pleased to learn that the Barry Z. Levine School of Health Sciences continues to enjoy rapid growth. Moreover, Dr. Bernard Lander, President of Touro College, has made a commitment to find a permanent home for the School.

Along with the physical growth of the School I would like to see growth in alumni membership and activity. We are open to suggestions on "how to serve you better." We want your involvement and your support. Working together, we can ensure an even better education for current students.

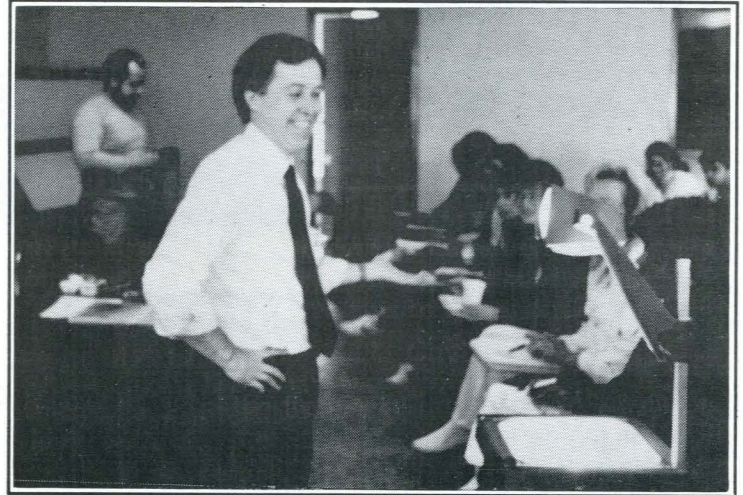

We are currently exploring, in parallel, the feasibility of staying where we are and acquiring additional buildings; relocating to a commercial

I hope you will join us to become an active member of the extended Touro family.

Three Noted Health Science Leaders Were Honored by The School of Health Sciences Last December

Three noted leaders in health science fields, Sidney Braginsky, Edward H. Gerken and Dr. Joseph Ransohoff, were

PA Physiology Class

128 Graduate at 1994 Commencement Exercises

Touro College's School of Health Sciences will confer 126 degrees on graduates at the school's 1994 commencement exercises which will be held this year on Thursday night, September 8th, at 7 P.M., at Huntington High School in Huntington, Long Island.

Forty-seven students will receive their B.S./MA degrees from the Physical Therapy Program. Twenty-two students will be graduating from the Biomedical Sciences Program with an M.A. degree in interdisciplinary studies in Biological and and Physical Sciences they will continue their education at the Technion Institute in Haifa, Israel leading to an M.D. degree from the Technion.

The Physician Assistant Program will be conferring thirty-six Bachelor of Science

degrees. The Occupational Therapy Program will confer eleven B.S./MA degrees. Health Information Management graduates total ten who will be receiving their Bachelor of Science degree.

The guest speaker at the Commencement Exercises will be Dr. Mary Hibberd, Commissioner of Department of Health Services in Suffolk County.

Touro's Outreach To The Community

By Esther Ingber
Coordinator, Special Projects

We are continuing our community outreach for the Nassau/Suffolk area by sponsoring interesting seminars in health related fields. Our commitment to health issues in the 90's will span a wide range of topics which will be sponsored by the Department of Professional and Public Health Education of the School.

Dr. Edward Altchek, Assistant to the Dean for New Program Development, has been in contact with prominent lecturers in such varied fields as:

- The General Status of Health Care in the U.S.
- Advances in Surgical Care.
- Cutting Edge in Sports Medicine.
- Hospice Care As An Alternative Service to the Terminally Ill.

Professor Michael Kossove, Director of Pre-Health and a faculty member in the PA and HIM programs, is working with the Post-Polio Support Groups. Touro College will be hosting next year's symposium at a later date in 1995. Touro will also be hosting a Memorial Lecture Series in memory of Dr. Solomon Simonson.

The Department of Professional and Public Health Education is interested in developing lectures and seminar speakers bureau on health care issues and trends in the 90's. If you are interested in participating or would like to recommend speakers or topics please call or write to the School of Health Sciences c/o Alumni Development Office (Room 6 Bldg. 14).

Anne-Marie Bozzarelli, RPA-C A Faculty Profile

Anne-Marie Bozzarelli, RPA-C was recently appointed Director of Touro's Health Sciences School's Physician Assistant Program.

Anne-Marie, always interested in the medical field, attended the College of Staten Island where she received a B.S. degree in Medical Technology.

She worked in a laboratory setting for a number of years as a Medical Technologist but always had a strong desire to have a more active role in direct patient care. Encouraged by physicians to pursue a career as a Physician Assistant, she applied to Long Island University's Physician Assistant Program, in 1984. In June, 1986, she graduated from the Program and was honored with the Wallace Award for the Ideal P.A.

Her first role as a Physician Assistant was in Coney Island Hospital in the Department of Surgery, her responsibilities included all aspects of patient care as well as serving as an active member of the trauma team.

In September, 1991, a Physician Assistant Department was established at Coney Island Hospital and she was appointed the Director. Her responsibilities included the overseeing and administering of all Physician Assistants employed at the hospital in conjunction with their respective department heads in both inpatient and outpatient settings. As Director, she also organized and arranged student clinical rotations at the Institution.

In December of that year, the Coney Island Medical Group's P.A. Program entered into an affiliation with Touro College and she was appointed Associate Director. Her responsibilities included the planning and development of the Coney Island Extension Center, day to day operation of the campus and teaching in the didactic year, as well as serving on the admissions Curriculum and Academic Progress Committees.

In April 1994, she was appointed Director of Touro's School of Health Sciences Physician Assistant Program and assumed responsibilities for the entire program, both in Dix Hills and at the Coney Island Extension Center.

Institute for Biomedical Engineering

Gerry Leisman, M.D., Ph.D., Associate Dean
Director of IMBERS

IMBERS is a division of the Center for Health Education and Research in Rehabilitation at Touro College.

The multidisciplinary biomedical "think-tank" is concerned with the study of the quality of human life in all of its ramifications. In particular, the Institute has been actively investigating human nervous system function from a multidisciplinary perspective with applications for alternatives in health care, neuroscience, rehabilitation, developmental disabilities and genetic disorders, with product development supporting these missions. IMBERS has a philosophical bent towards better understanding of the concept "wellness."

We presently offer postgraduate programs in Clinical Engineering with a spe-

cial focus in retraining displaced defense workers. We anticipate, in the future, to be able to offer doctoral level programs in Clinical Engineering and Clinical Vocational Rehabilitative Neuropsychology. Our Institute consists of a community of scientists in the fields of Clinical Psychophysiology, Neuroanatomy, Physics, Neuroscience, Neurocybernetics and Computer Science, Medicine, Genetics, Metabolism and Nutrition, Cognitive and Neuropsychology, Biomedical Engineering, Neurosurgery, Electrophysiology and Computer and Imaging Sciences.

Patents have been issued to our faculty in fundamentally new technologies in applications of fields of high temperature superconductivity, diamagnetic colloids, thermal anesthesia, thermology, apnea monitoring, among other areas. The patents in high temperature superconductors are seminal and have claims that cover almost every biomedical and industrial application.

Three Noted Health Science Leaders

cont. from cover

honored by Touro College at its School of Health Sciences Fourth Annual Awards Dinner last December 4th. The tribute was held in the Grand Hyatt Hotel in New York City.

Mr. Braginsky is the Chief Operating Officer of the Olympus America Corporation, which is headquartered in Lake Success, New York.

In his position as Executive Vice President of the Coney Island Medical Group at Coney Island Medical Center and Hospital in Brooklyn, Mr. Gerken has responsibility for the operations of a 150 member physician corporation at the hospital.

Dr. Joseph Ranshoff, a distinguished neurosurgeon who was the Director of the Neurological Service of the NYU Bellevue Medical Center from 1961 to 1992, was also Professor and Chairman of the Department of Neurosurgery of the NYU School of Medicine.

In Fond Rememberance of Dr. Sam Korman

Maria D. Bohm, M.D.

I knew Dr. Sam Korman very well. I worked with him during his directorship of Oncology at Kingsbrook Jewish Medical Center and his simultaneous service as Medical Director of the Physician Assistant Program at Touro College, going back over 21 years.

I had the opportunity to know and work with Dr. Sam first as a resident physician and later as assistant director of medicine. This was the Touro College Physician's Assistant Program which was established at our hospital and I was chosen to lecture to the students on my favorite subject, "Physical Diagnosis". I am sure that it was at the suggestion of Dr. Korman that I was invited to be involved in this very new and necessary program.

I was always very proud and happy when during my husband's many illnesses, I had the opportunity to observe the work of the Physician Assistants who frequently recognized me as their teacher.

Dr. Korman was a good friend of mine and in his memory, I have contributed to the establishment of the Dr. Samuel Korman Memorial Scholarship Fund which surely will be the best memorial for his professional activities.

I urge other colleagues and former graduates to become involved as well. Information about the Fund may be secured by calling (516) 672-3200, Ext. 226, Office of Alumni Affairs.

The Advanced Masters in Orthopedic Physical Therapy

Frances Corio, MA, PT,
OCS, Director

It is with great pleasure and pride that we are able to share with you the advent of the new Master of Arts in Orthopedic Physical Therapy at the Touro College School of Health Sciences. This is a graduate program leading to an advanced degree for licensed Physical Therapists who wish to further their education in the area of Orthopedics.

The Program has a unique design. In addition to the traditional academic approach, many of the courses will have a format similar to the model used by professional continuing education courses. This will enable Touro College to utilize internationally recognized experts in the field of Orthopedic Physical Therapy as faculty. It will also allow the working Physical Therapist a more practical way to complete an advance masters degree.

The program requires 36 credits of course work and is designed to be completed within a minimum of two to three years. However, interested applicants can also take specific courses offerings on a non-matriculation or continuing education basis. The commencement date for the program has arrived and our first class is scheduled for October 1994.

It is an exciting time for all of us involved in making this program happen and we are confident of its success. Our goal is to have a course of study that is dynamic and innovative.

PHYSICAL THERAPY PROGRAM

Jill Auster-Liebhaber, MA, PT, PCS,
Director

STUDENTS

The Physical Therapy Program is continuing with its record breaking enrollment. In September, 1994 we will have a total of 159 students.

The administration and faculty welcomed the incoming students of the PT Class of 1997 at an orientation luncheon in June.

Our graduating students are currently on their final affiliation and are looking forward to graduation on September 8th. The second year students returned for their third semester on July 11th and the third year students will be returning on September 1st.

The Physical Therapy Program continued its outstanding success rate on the New York State Licensure exam with a passing rate of 100% on the first time taking of the exam.

FACULTY

Congratulations to Jill-Auster-Liebhaber, MA, PT PCS and Robert Paskoff, MA, PT,

PCS who were certified this past Spring as Pediatric Clinical Specialist. Jill and Rob are two of the four Pediatric Clinical Specialists in New York State.

Congratulations are due to Frances Corio, MA, PT, OCS who was certified as an Orthopedic Clinical Specialist.

We must be doing something right when our graduated students come back to Touro College to start as lab assistants. Some even go on to adjunct or full time teaching positions.

The Physical Therapy Program is pleased to announce the addition of two faculty members as of September 1, 1994. Joseph Hayes, MA, PT, (1991) full-time faculty and Robert Toriano, MA, PT, (1989), part-time Assistant Academic Clinical Coordinator.

SUPPORT STAFF

Congratulations to Debra Chiu on the birth of her first grandchild, James Benetton Chiu.

OCCUPATIONAL THERAPY

Beverly Horowitz, OTR/L

NEWS OF RECENT GRADUATES

Larry DeNoto, Class of 1991, an occupational therapist with the Developmental Disabilities Institute, now promotes clinical education of current O.T. students. We appreciate all of his efforts... Similarly, Neil Cash, Class of 1992, an occupational therapist with Southampton Hospital, has worked with students this past year in their clinical fieldwork education... Another member of the Class of 1992, Christine Ryan now is an Adjunct Instructor in our Rehabilitation and Design course. Christine has just had an article on adaptive technology published in TEAM REHAB.... Suzanna Maklakov and Margaret Wagner, Class of 1993, were inducted into Touro College's newly founded Alpha Pi Chapter of Pi Theta Epsilon, the occupational therapy honor society. Marge is employed at Brunswick Hospital and has just had her master's thesis research paper accepted for publication. Suzanna is employed at the Long Island State Veterans' Nursing Home, one of our fieldwork sites. We know Suzanna will be most helpful to our students. Current Touro student inductees include: Pam Bellino, Elise Bostok, Natalie Sidle, Melissa Rooney, and Margaret Gaidry. Congratulations to Celina Hall, Class of 1996, for receiving American Occupational Therapy Foundation's student's award of \$1000.

O.T. FACULTY NEWS

We welcome Michael Altimari to our department as a full-time faculty member. Our growing department will most definitely benefit from his expertise... We also would like to say good-bye to Eliza Maglari, who is leaving us this

summer. She is leaving to prepare for motherhood. We will miss her daily and hope she will keep in touch with us... Dr. Catherine Gordon will be busy at work this summer on many projects including writing a chapter for a new edition of "O.T. For Children"... As we continue to grow, we are seeking additional faculty, one to replace Mrs. Maglari and an additional faculty member with expertise in physical disabilities.

O.T. PROGRAM NEWS

This year, we expect to admit 34 new students, bringing our total enrollment to over 100 students... We are enjoying the newly air conditioned offices and classrooms. Given our increasing growth, we are using every inch of space for faculty offices and classes... The new Computer Lab is wonderful and supports our research courses and Master's theses. This year we are graduating our last small class, 11 students. Student Master's theses presentations were held Sunday, June 26th and were most impressive, requiring three rooms for one day presentations. Congratulations to all... Celina Hall, (class of '95), has received an AOTA scholarship, this year... Eliza Maglari, (faculty), is having a baby in November, but also passed her AOTA specialty examination in Pediatrics this summer. Mrs. Maglari will be moving to an adjunct faculty line... Dr. Cathe Gordon, is leaving as director in October, to direct a new OT program at Ithaca College. Dr. Tony Hollander will serve as acting chairperson and a chair search has begun... Two adjunct faculty have joined the full time faculty - Dr. Michael Altimari, DC, MS, in basic sciences and Ms. Doris Richard, MSW, OTR/L

continued on page 7

YOU TOO CAN RETURN

Robert Brugna, RPA-C, MBA

I am honored to have been selected as Clinical Coordinator for the Physician Assistant Program. As unusual combination of events led me back here after having graduated from Touro ten years ago. I had lived a short distance from the program when it was based at Kingsbrook Medical Center in Brooklyn. So you can imagine my surprise after relocating to Dix Hills and discovering that the program had also relocated - to my "backyard"! At that time I had thought of becoming involved in PA education but put it off due to other commitments.

After graduating, I worked at a prison health clinic where eventually I attained a Senior PA position. I moved on into a private Radiology practice and for the last six years I have been part of a private neurology practice. During this time, I earned an MBA degree in marketing from Baruch College and also moonlighted at various institutions.

My initial goal in attending the MBA program stemmed from my desire to become a part of a diagnostic product marketing team. Alas, this was not to be as markets became saturated, economic conditions deteriorated and 70,000 MBA students were being graduated every year. Adaptability was in order, and I kept my eyes open

for an opportunity to utilize my background fully. I believe that the position of Clinical Coordinator provides this opportunity and will be a rewarding, worthwhile endeavor.

Attending the Touro PA program was a defining event in my life, as I'm sure it was for all my classmates. The education I received was excellent, although the physical facilities and student support services weren't. I think that this is a major reason why Touro alumni do not seem to have the school spirit expected of professional program alumni.

There is an ongoing effort to consolidate the School of Health Sciences at a single facility on the L.I.D.C. grounds and housing may also be available. This consolidation would go a long way towards improving conditions and attitudes.

Our database of alumni needs to be improved. This is my appeal to the alumni to contact Esther Ingber with the names of any graduates who may not be on our mailing list. Think of how rewarding it would be to help future colleagues, and how improved perceptions of Touro may help your own career. As an alumnus, I am seeking your involvement, support and suggestions.

INTERNET AFFILIATION

Edward Altchek, MD

Gerald Rogak, Director of MIS (Management Information Systems) at Touro College has opened an internet program association with Georgetown University Medical School Library in Washington, DC.

The three month trial basis will allow students and faculty in both the School of Health Sciences and the Law School the usage of the medical library as a magnificent resource for the Touro faculty and students who require medical information.

S.H.F. '94 JOB FAIR

Thirty three exhibitors reserved tables at the Job Fair. This was also the first year that Alumni manned booths as well. Over 200 guests and students attended.

NEWS FROM HEALTH INFORMATION MANAGEMENT PROGRAM

Faith Goldstein, RRA,
Director

The HIM Program successfully underwent a Reaccreditation Survey by CAHEP and the American Health Information Management Association on May 3rd and 4th, 1994. The surveyors were pleased with the program and noted the many strengths including:

- Strong community support for the program as evidenced by the involvement of adjunct faculty.
- A wide variety of clinical settings are available to enhance student classroom learning.
- Clinical site preceptors are in strong support of the program.
- A culturally diverse faculty which serves a culturally diverse student body.

The surveyors met with students, faculty, clinical preceptors and the Advisory Board of the HIM Program.

This was the third Reaccreditation Survey since the Program opened in 1979. The other surveys were held in 1985 and 1991.

PROGRAM NOTES ON H.I.M. GRADUATES:

- Over 100 graduated from the HIM Program since 1981.
- Academic graduate faculty include:
 - Robert Schoen, RRA, Deborah Fernandez, RRA, Mary Green, RRA, Julia Alberino, RRA, Paul Dunphey, RRA, Guy Pontrelli, RRA.

Clinical preceptor graduate faculty include:

- Faina Fujii, RRA (New York Eye, Ear and Throat Hospital)
- Guy Pontrelli, RRA (Manhattan Eye, Ear and Throat Hospital), Robert Schoen, RRA (New York Hospital).

Health Information Management Faculty members published a reference/text book, "Health Information Management: A Comprehensive Guide to Current Regulations and Management: Practices" PMIC (December, 1993).

The 1994 Distinguished Faculty Award will be presented to Paul Albertson, MPA, RRA. Mr. Albertson teaches Health Information Systems. He is Associate Executive Director of Bellevue Hospital.

The previous Distinguished Faculty Award winners were:

- 1991 Karen Silfen, MPA, RRA (Griffiths Hospital, CT)
- 1992 Kathleen Frawley, JD, RRA (AHIMA, Director of Washington D.C. Office)
- 1993 Leroy Johnson, MA (New York City Department of Personnel)

The 1994 Outstanding Clinical Preceptor Award will be given to:

- Rhonda Ruiz, RRA (Clinical I, III) Director of Health Information Management at New Rochelle Hospital Medical Center.
- Frances Feltz, RRA (Clinical II, SNF) Director of Health Information Management at The Jewish Home and Hospital for the Aged.

This is the first year that the award will be shared.

The previous awards were presented to

- 1991 Jolie Schocker, RRA (Clinical I, III) formerly of St. Luke's-Roosevelt Hospital, currently at Albert Einstein College of Medicine.

- 1992 Thomas Johnson, RRA (Clinical II Psychiatric) New York State Psychiatric Institute.

QUALITY CARING LIKE YOURS DESERVES SUPPORT LIKE OURS

At Staten Island University Hospital, you will have all the challenges, support and exposure to the latest medical technology and techniques while working alongside experienced professionals from all disciplines.

Positions are currently available in the following areas:

OCCUPATIONAL AND PHYSICAL THERAPISTS

Rehabilitation

Bachelors degree and New York State license or eligibility is required.

* Forgivable student loans available

* Recent grads are welcome

PHYSICIAN ASSISTANTS

* Substance Abuse * Nutrition * Rehabilitation * Obstetrics/Gynecology

Bachelors degree and New York State registration is required. Recent grads welcome!

All of the above positions offer:

* Comprehensive flexible benefit

* Four weeks vacation

* Discounted, on-site day care

* Sign-on bonus

* Twelve paid holidays

* Twelve sick days annually

* Free on-site parking

* New experience-based salaries

To explore your future with Staten Island University Hospital, please call, mail or fax your resume in confidence to: Recruitment Manager, Staten Island University Hospital 475 Seaview Avenue, Staten Island, New York 10305 - 1-800-622-HIRE • FAX: (718) 226-8255.

We are an equal opportunity employer.

EXTENDING OUR CARE TO REBUILD LIVES

PRE HEALTH SCIENCES PROGRAM

By Sally LaValle

In September 1993, the School of Sciences admitted the first students into our new Pre-Health Sciences Program.

High School graduates can now enter the School as freshmen and complete all the required course work for admission to the Upper Division and other allied health programs. Each of the four programs are tailor-made for students to complete the prerequisite courses for the Upper Division program of their choice.

The program is administered by Professor Michael Kossove, a microbiologist, who is also a member of the faculty of both the Physician Assistant and Health Information Management Programs. Mrs. Sally LeValle, who was the Director of the School of General Studies program, is the Administrative Assistant. Irwin Manzer, who has extensive

teaching and administrative experience with the New York City Board of Education, is the Academic Advisor of the program as well as an instructor in history.

The program also administers those students who began their studies at Dix Hills in a satellite program for the School of General Studies in New York City. These students, most of whom are employees at a New York State facility, adapted their programs for admission to the Health Information Management Program.

The program offers small classes, counseling and advisement, and a faculty of professionals who are teachers. The students find a family environment in the program.

We are very happy to announce that all of our second year students have performed extremely well and have been

admitted to the Upper Division programs of their choice. They include:

PHYSICIAN ASSISTANT PROGRAM:

Rochelle Koenig, Mary Devine, Reuven Lapin, Matthew Lowe

PHYSICAL THERAPY PROGRAM:

Lila Bartkowski-Abbate, Michael Rosenblatt

OCCUPATIONAL THERAPY PROGRAM:

Hollie Blechner

HEALTH INFORMATION PROGRAM:

June Newill, Patricia Astraus, Ronice Bunn, Christine Reyes, Patricia Zigon, Cynthia Bush

OCCUPATIONAL THERAPY PROGRAM NEWS

cont. from page 4

who replaces Mrs. Maglari. We are continuing to search for a faculty member with physical disabilities expertise. New Adjunct Faculty include Ms. Faye Grand, OTR/L, CHT, Ms. Michele Gentile, MS, OTR/L and Mr. Neil Cash, MA, OTR/L class of '92).

The department awarded its first Outstanding Alumni Award this year to Ms. Christine Ryan, MA, OTR/L, class of '92, for her publications and activities in teaching. Mrs. Carol Charnoff, OTR was also honored as an Outstanding Clinical Faculty member for her support of student research and training.

By Ginger

Congratulations To:

Dr. & Mrs. Joseph Weisberg, on the recent marriage of their son, Yaron, to Abby... Isaac Dweck, MD (PA 84), upon his recent marriage... Robert Brugna, (PA 84), upon being appointed Clinical Coordinator of the PA Program... Meryl Schaefer, (PT 90), upon her recent engagement...

Marie Baron, (PT 87), upon her recent marriage... Jessica Gardon Rose (PA 80), upon her recent promotion to Director of Physical Medicine at the Rehabilitation Institute of Michigan... Regards from Donna Luckhurst, (PT 92), who resides in South Dakota now... Elliot Rubin, (PA 75), now residing in Arizona, says hello to his '75 classmates... Murray Rosenthal, (PA 83), residing in North Carolina, sends regards... A warm hello from Joyce Tabb, (PA 84)...

Dan Swanner, (PT 93), is congratulated upon becoming a proud father of a baby girl... Stella Kovacs (PA 76), who has two sons, Joshua & Jacob, is working towards her masters at the UC/Davis, CA. Good luck.

St. John's Episcopal Hospital, South Shore, in Far Rockaway honors its PA's at a luncheon... Ruth Ganthier (PA 87), Marilyn Evans, (PA 87), James Behan, (PA 81), Myrlene Ismael, (PA 92), and Stacey Slovin, (PA 93). As the hospital honors you, so do we... David and Renee (Schwartz) Heyden, (PA 81), two little girls, Allison & Stephanie, may some day follow in their parents' footsteps Husband and Wife team, one day another sister team...

Lori (Sukenic) Kursun, (PA 85), is married and the proud mother of a baby girl named Jessica Dilara (Turkish for sweetheart) and best of all is

sharing the following information... Thanks to Lori for sending in the following...

Risa (Cohen) Vergara (PA 85), is the proud mother of a son named Jacob Michael... Felice (Neger) Muller, (PA 85), a proud mother of a little girl named Kimberly Rose... Laura Homiak, (PA 85), is Mrs. Berry has relocated to Delaware. I understand that Tammy (Fisher) Finsterbush (PA 85), was the proud mother of an infant this spring... Doni Mayerfeld, (PA 85), is living in Queens, The family (2 children) will be relocating to Israel this summer... Naomi Behar, (PA 85), is also an ESQ.

Congratulations to the new PA MD's of 85... Lawrence Harris, and Sal Trazerra... Isaac Dweck...

Marriages of PA 85's... Armon Imbriglio, Ava Dennie, Delia

Delfino, Peter Kolb, Janet (Thorne) Williams, Michael Torrie, Stuart Reich.

A warm hello to Violet Peart, Miriam (Fainsod) Steinberg, Cheryl Rothman, Stuart Reich, and Barbara Wohl.

Health Information Management Affiliation Directors James Harris, Long Island College Hospital. Guy Pontrelli, Manhattan Eye & Ear. Jolie Schocker, St. Luke's-Roosevelt Hospital. Faina Fujii, New York Eye & Ear.
