Dear Graduates:

Congratulations! You have reached this milestone in your life demonstrating ability, tenacity and commitment.

The administration and faculty feel that you are ready to enter the profession.

You have been provided with an excellent educational program which will enable you to excel as clinicians. It will also allow you to evolve and become the future leaders of your profession.

Joseph Weisberg PT, PhD., Dean

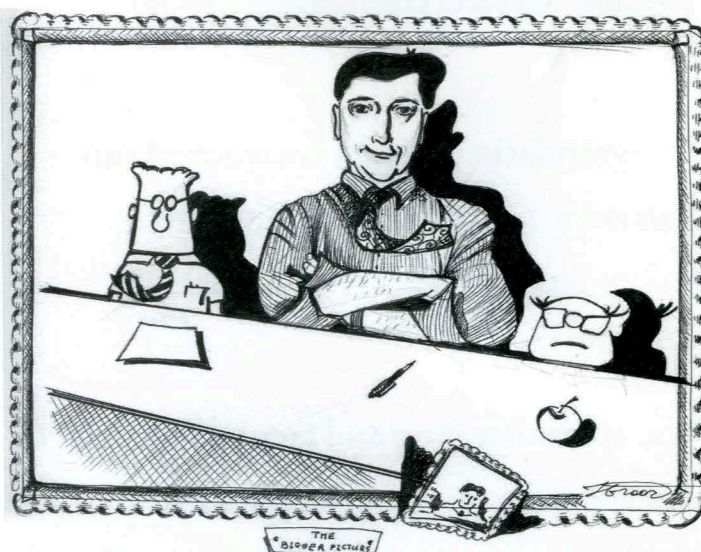

Due to the 9/11 events, you are entering a more fragile world. A world that might challenge your professional abilities far beyond your expectations. Therefore, you must keep up with your professional growth by continuing to learn in order to advance within your field.

Furthermore, it is important to maintain the relationships that you have started at Touro and take an active role in the Alumni Association. I am looking forward to your participation and wish you success for the future.

“Today, our fellow citizens, our way of life, our very freedom came under attack in a series of deliberate and deadly terrorist acts.”

“America was targeted for attack because we’re the brightest beacon for freedom and opportunity in the world. And no one will keep that light from shining.”

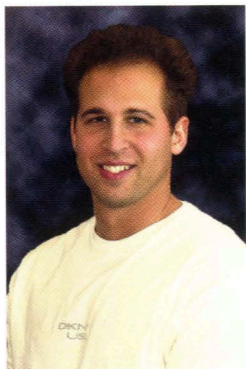

“This is a day when all Americans from every walk of life unite in our resolve for justice and peace. America has stood down enemies before, and we will do so this time.”

“None of us will ever forget this day, yet we go forward to defend freedom and all that is good and just in our world.”

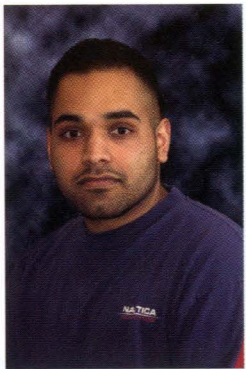

“Thank you. Good night and God bless America.”

Graduation! You traveled one hell
of a rocky road to get here Christina.
But we knew you would make it. And
hey, you've still got some sanity left!
We look to you now as a source of
inspiration to beat ALL the odds,
motivation to get up everyday even
when you loat it, and of course,
FREE THERAPY!

Congratulations Christina

We love you,
Joey, Al & Beth

To our daughter Christina,

Never doubted that you would
reach your goal. You've wanted this
for a long time. You are sweet and
caring as well as determined - you
will make a difference
